Reign Of The Favored Women:

Reign of the Favored Women Ann Chamberlin, 2001-09 The great Turkish empire of the seventeenth century the most powerful of its day was ruled by women who had been brought to Constantinople as slaves for the Sultan's pleasure but used their slavery to acquire power on a global scale This is the story of one such woman The harem slave Safiye the Fair One as she is known is the embodiment of beauty and ambition With her perfumed body and bewitching eyes she rules the men who own her She controls the Empire from within the veiled harem walls her web of intrigue reaching far beyond Constantinople and into Europe Her touch is felt in wars acts of sabotage and the machinations of both European and Asian politics The aim of her ambition To see that her son becomes ruler of the Ottoman Empire She will allow nothing to stand in her way *The Reign of the Favored Women* Ann Chamberlin, 1998 Venetian born Safiye controls the Empire from within the veiled harem walls her web of intrigue reaching far beyond Constantinople and into Europe Allowing nothing to stand in her way her sole ambition is to secure the throne of the Ottoman Empire for her son Women and Reform in a New England Community, 1815-1860 Carolyn J. Lawes, 2021-10-21 Interpretations of women in the antebellum period have long dwelt upon the notion of public versus private gender spheres As part of the ongoing reevaluation of the prehistory of the women's movement Carolyn Lawes challenges this paradigm and the primacy of class motivation She studies the women of antebellum Worcester Massachusetts discovering that whatever their economic background women there publicly worked to remake and improve their community in their own image Lawes analyzes the organized social activism of the mostly middle class urban white women of Worcester and finds that they were at the center of community life and leadership Drawing on rich local history collections Lawes weaves together information from city and state documents court cases medical records church collections newspapers and diaries and letters to create a portrait of a group of women for whom constant personal and social change was the norm Throughout *Women and Reform in a New England Community* conventional women make seemingly unconventional choices A wealthy Worcester matron helped spark a women led rebellion against ministerial authority in the town's orthodox Calvinist church Similarly a close look at the town's sewing circles reveals that they were vehicles for political exchange as well as social gatherings that included men but intentionally restricted them to a subordinate role By the middle of the nineteenth century the women of Worcester had taken up explicitly political and social causes such as an orphan asylum they founded funded and directed Lawes argues that economic and personal instability rather than a desire for social control motivated women even relatively privileged ones into social activism She concludes that the local activism of the women of Worcester stimulated and was stimulated by their interest in the first two national women's rights conventions held in Worcester in 1850 and 1851 Far from being marginalized from the vital economic social and political issues of their day the women of this antebellum New England community insisted upon being active and ongoing participants in the debates and decisions of their society and nation **A History of Women's Seclusion in the Middle**

Women's Work Lynn Brooks, 2008-01-05 Like the history of women dance has been difficult to capture as a historical subject Yet in bringing together these two areas of study the nine internationally renowned scholars in this volume shed new and surprising light on women s roles as performers of dance choreographers shapers of aesthetic trends and patrons of dance in Italy France England and Germany before 1800 Through dance women asserted power in spheres largely dominated by men the court the theater and the church As women s dance worlds intersected with men s their lives and visions were supported or opposed creating a complex politics of creative spiritual and political expression From a women s religious order in the thirteenth century Low Countries that used dance as a spiritual rite of passage to the salon culture of eighteenth century France where dance became an integral part of women s cultural influence the writers in this volume explore the meaning of these women s stories performances and dancing bodies demonstrating that dance is truly a field across which women have moved with finesse and power for many centuries past

Gender, Ethnicity, and Violence in Kenya's Transitions to Democracy Lyn Ossome, 2018-04-02 Critiquing the valorization of democracy as a means of containing violence and stabilizing political contestation this book draws links between the democratization process and sexual gendered violence observed against women during electioneering periods in Kenya The book shows the contradictory relationship between

democracy and gendered violence as being largely influenced in the first instance by the capitalist interests vested in the colonial state and its imperative to exploit laboring women secondly in the nature of the postcolonial state and politics largely captured by ethnic bourgeois class interests and third influenced by neoliberal political ideology that has remained largely disarticulated from women's structural positions in Kenyan society. It argues that colonial capitalist interests established certain patterns of gender exploitation that extended into the postcolonial period such that the indigenous bourgeoisie took the form of an ethnicized elite. Ethnicity shaped politics and neoliberal political ideology further blocked women's integration into politics in substantive ways. It concludes that it is not so much the norms and values of liberal democracy that assist in understanding women's exclusion but rather the structural dynamics that have shaped women's experiences of democratic politics. In this way, gender violence in the context of democratization and electoral violence with its gendered manifestation can be fully understood as deeply embedded in the history of the structural dynamics of colonialism, capitalism and patriarchy in Kenya.

Working Women in English Society, 1300-1620 Marjorie Keniston McIntosh, 2005-06-02 This study explores the diverse and changing ways in which English women participated in the market economy between 1300 and 1620. Marjorie Keniston McIntosh assesses women's activity by examining their engagement in the production and sale of goods, service work, credit relationships and leasing of property. Using substantial evidence from equity court petitions and microhistorical studies of five market centres, she challenges both traditional views of a golden age for women's work and more recent critiques. She argues that the level of women's participation in the market economy fluctuated considerably during this period under the pressure of demographic, economic, social and cultural change. Although women always faced gender-based handicaps, some of them enjoyed wider opportunities during the generations following the plague of 1348-9. By the late sixteenth century, however, these opportunities had largely disappeared and their work was concentrated at the bottom of the economic system.

[The Flaming Womb](#) Barbara Watson Andaya,2006-07-31 The Princess of the Flaming Womb the Javanese legend that introduces this pioneering study symbolizes the many ambiguities attached to femaleness in Southeast Asian societies

Yet despite these ambiguities the relatively egalitarian nature of male female relations in Southeast Asia is central to arguments claiming a coherent identity for the region This challenging work by senior scholar Barbara Watson Andaya considers such contradictions while offering a thought provoking view of Southeast Asian history that focuses on women s roles and perceptions Andaya explores the broad themes of the early modern era 1500 1800 the introduction of new religions major economic shifts changing patterns of state control the impact of elite lifestyles and behaviors drawing on an extraordinary range of sources and citing numerous examples from Thai Vietnamese Burmese Philippine and Malay societies In the process she provides a timely and innovative model for putting women back into world history Andaya approaches the problematic issue of Southeast Asia by considering ways in which topography helped describe a geo cultural zone and contributed to regional distinctiveness in gender construction She examines the degree to which world religions have been instrumental in re constructing conceptions of gender an issue especially pertinent to Southeast Asian societies because of the leading role so often played by women in indigenous ritual She also considers the effects of the expansion of long distance trade the incorporation of the region into a global trading network the beginnings of cash cropping and wage labor and the increase in slavery on the position of women Erudite nuanced and accessible *The Flaming Womb* makes a major contribution to a Southeast Asia history that is both regional and global in content and perspective *Magazine of the Women's City Club* Women's City Club of Detroit,1929
