Reincarnation Karma And Theosophy:

Rise, Oh Sun! Theosophy Applied to Daily Life. Theosophy and Christianity. Reincarnation. Right Thoughts about Karma Mrs. Katherine August (Westcott) Tingley, 1905 **The Ancient Wisdom** Annie Besant, 2020-09-07 Annie Besant brings readers on a journey through the planes of existence explaining the interplay of the physical reality we perceive and the spiritual planes beyond our perception By quoting ancient documents of Buddhism and Taoism Besant describes the composition and processes of the mysterious worlds beyond what we see and hear in everyday life The divine wisdom of Theosophy includes doctrines from multiple ancient religions such as those of Egypt India Tibet and Eastern Asia In the eyes of the theosophist each of these contributes truths to the phenomena of the physical astral and mental planes which are explored by Besant Philosophical concepts of the Self the soul the afterlife and reincarnation receive attention in the later stages of this book which also explains the links between the planes and concepts such as the Buddha realms and Nirvana Besant keenly summarizes and describes the major facets of theosophy whilst praising the movement's founder H P Blavatsky Throughout this text Besant's gifts for explanation and descriptive writing demystify spiritual mysteries and ideas that would otherwise be hard to comprehend For years a leading proponent of the theosophic movement Annie Besant published several books and delivered lectures in the early 20th century *Karma, and Its Twin Doctrine Reincarnation* Henry Snowden Ward, 1891 *The Scope of Reincarnation* William Q. Judge, 2011-07-01 *Reincarnation and Destiny* Rudolf Steiner, 2018-06-18 This excerpt is taken from the book *Theosophy* which Rudolf Steiner published at the beginning of his theosophical career in 1904 Although Steiner himself did not make such a designation Theosophy has come to be regarded as one of the four basic books of anthroposophy This chapter however is quite exceptional within the book and thus it deserves to stand alone Unlike the rest of Theosophy which consists of somewhat static revelations of spiritual facts Chapter 2 is a closely argued logical argument Indeed it is quite gnomic in many places The argument is hard to follow but it is well worth the effort The high point comes early in the essay where Steiner sets up a beautifully symmetrical case for reincarnation and karma He reminds us that memory transforms transitory experience into permanence On the basis of remembered experience we react differently when we next meet a similar stimulus But in the same way the world is permanently changed by our deeds and the world remembers our actions the next time we encounter it The world reacts to us differently as a result of our previous action Seemingly chance events that strike us are anything but rather they are the karmic consequences of our deeds and as much a part of an expanded notion of our self as is memory There are several other beautiful arguments besides A notable example is the claim that each human individual is a species unto themselves and thus the talents that we bring into incarnation can only be inherited from ourselves in an earlier life Such arguments must inevitably remain silhouette like But Steiner assures us both that the trains of thought are shadows of spiritual realities and that the labor of following them is a good preparation for spiritual seeing **Vanguard of the New Age** Gillian
