Gaian Angels, Book 1: The Weavers Awake
Iom Kosta, 2011-12-17 We scour the heavens in search of visitors, but what if they're already here amongst us, just waiting for their awakening? And what if you're one of them? This is the true story of a young visionary who predicted the overwhelming extent of the present climatic cataclysm, and this book is now proof, since he published it in 2011 when we still believed the collapse of our civilisation was impossible. As early as 2002 he screamed that we had to change our ways and went right up to the gates of death to find an antidote to his Apocalyptic visions. Of course he was considered even crazier than the few alarmist scientists that were around at the time. To continue spreading the message and escape psychiatric internment, he eventually had the idea of recounting his extreme experiences mingled with an imaginary world. So here is the diary of a crazy indigo being whose error was to be right too soon, because today only real madmen still deny the environmental tragedy in progress. Maybe it's not too late to read it. But don't worry, this is first and foremost an extraordinary journey towards hope, which may be summarised as follows: Arcadia leaves her idyllic Sylvan City to go to Earth and join the team of scouts charged with rescuing humanity, which is in danger of extinction. She comes to life as the author and observes our society from a different perspective. But this spiritual struggle across time and dimensions has unexpected repercussions. Who is really pulling the strings? Perhaps the Akashas, the angelic entities. What is their real intention? Will humanity survive? Maybe Consciousness will disappear or never see the light of day. This journey of investigation pushes the boundaries of reality to embrace a universal ecological spirituality. Much more than a warning about the wasteland that the human race is preparing for its own future, the Gaian Angels Cycle is a new answer to the eternal question: what is the meaning of life? This first book can be read independently of the trilogy. Free eBook direct download, take advantage of this special trial offer. Suitable for readers ages 16 and up.
