**More
than
news**

Show all students why social studies matters.

Static, one-sided textbooks reduce engagement, leading many students to dismiss social studies as something focused on the past and not relevant to their lives. By making social studies more dynamic, we have an opportunity to engage students in the subject. With this in mind, we pinpointed 4 areas to focus on when planning your social studies content.

DYNAMIC AND DIVERSE SOURCES

Prioritize a range of engaging and representative instructional materials that connect the past to the present.

SKILLS DEVELOPMENT

Provide opportunities for students to develop literacy and social-emotional skills, like self-awareness and social-awareness, to navigate conversations about complex topics.

Relevance And The Social Studies:

Relevance and the Social Studies Robert F. Madgic, 1973 **The Concept of Relevance in Social Studies Education** Robert F. Madgic, 1970 **Contemporary Social Studies** William B. Russell, 2012-02-01 The field of social studies is unique and complex. It is challenged by the differing perspectives related to the definition, goals, content, and purpose of social studies. *Contemporary Social Studies: An Essential Reader* discusses the contemporary issues surrounding social studies education today. *Contemporary Social Studies: An Essential Reader* encourages and inspires readers to think. The chapters included in this volume are written by prominent scholars in the field of social studies. The collection inspires and provokes readers to reconsider and reexamine social studies and its contemporary state. Readers will explore the various critical topics that encompass contemporary social studies. This collection provides readers with rich chapters which are sure to be cited as key works. Compelling and accessible, this collection brings to light the critical topics relevant to contemporary social studies and is sure to serve as a cornerstone and seminal text for the future. **Teaching Culturally and Linguistically Relevant Social Studies for Emergent Bilingual and Multilingual Youth** Ashley Taylor Jaffee, Cinthia Salinas, Wayne Journell, 2024 In recent years, social studies scholars have pushed to consider critical ways of thinking about curriculum, particularly challenging what we teach and how we teach. Authors in this book, however, speak specifically about culturally and linguistically accessing and engaging with social studies and citizenship education curricula and instruction. Through this project, the notion of inclusiveness and relevance centers on culture and language that emphasize the civic identity, agency, and membership of communities most often marginalized by social studies and civic instruction: public schools and U.S. democratic society. We hope this collection of chapters acts as a resource to address pedagogical, sociocultural, and civic wonderings by highlighting ways of using language as an asset and means in the social studies classroom. This book presents new pedagogical ideas, theoretical frameworks, and research methodologies on teaching culturally and linguistically relevant social studies with and for emergent bilingual and multilingual EBML youth. The compilation of chapters seeks to forefront scholarship and teaching that centers the needs, interests, and experiences of EBML youth in social studies education. Chapter authors draw from multiple intersecting critical and interdisciplinary frameworks that center culture and language to inform and write about social studies taking place inside, outside, and beyond the classroom that engages youth in varying disciplinary and non-disciplinary spaces across social studies education, e.g., community, geography, family, civics, history. The chapters also challenge oppressive structures, policies, and practices that marginalize EBML youth. The book is intended for Pre-K-12 teachers and administrators, social studies teacher educators, and researchers, and pre-service social studies teachers to actively read, reflect on, and strive to enact the work shared by chapter authors. **Digital Social Studies** William B. Russell, 2013-12-01 The world is ever changing, and the way students experience social studies should reflect the environment in which they live and learn. *Digital Social Studies* explores research, effective teaching strategies, and technologies for social

studies practice in the digital age The digital age of education is more prominent than ever and it is an appropriate time to examine the blending of the digital age and the field of social studies What is digital social studies Why do we need it and what is its purpose What will social studies look like in the future The contributing authors of this volume seek to explain through an array of ideas and visions what digital social studies can and should look like while providing research and rationales for why digital social studies is needed and important This volume includes twenty two scholarly chapters discussing relevant topics of importance to digital social studies The twenty two chapters are divided into two sections This stellar collection of writings includes contributions from leading scholars like Cheryl Mason Bolick Michael Berson Elizabeth Washington Linda Bennett and many more
