Dreams Robert J. Hoss, Katja Valli, Ph.D., Robert P. Gongloff, 2019-01-11. This two-volume set examines dreams and dreaming from a variety of angles: biological, psychological, and sociocultural, in order to provide readers with a holistic introduction to this fascinating subject. Whether good or bad, and whether we remember them or not, each night every one of us dreams. But what biological or psychological function do dreams serve? What do these vivid images and strange storylines mean? How have psychologists, religions, and society at large interpreted dreams, and how can a closer examination of our dreams provide useful insights?

Dreams: Understanding Biology, Psychology, and Culture presents a holistic view of dreams and the dreaming experience that answers these and many other questions. Divided thematically, this two-volume book examines the complex and often misunderstood subject of dreaming through a variety of lenses. This collection is written by a large and diverse team of experts and edited by leading members of the International Association for the Study of Dreams (IASD) but remains an approachable and accessible introduction to this captivating topic for all readers.

[This Shared Dream](#) Kathleen Ann Goonan, 2024-08-06. Kathleen Ann Goonan introduced Sam Dance and his wife Bette and their quest to alter our present reality for the better in her novel *In War Times*, winner of the John W. Campbell Memorial Award for Best Novel and ALA's Best Science Fiction Novel of 2008. Now in *This Shared Dream*, she tells the story of the next generation. The three Dance kids, seemingly abandoned by both parents when they were younger, are now adults and are all disturbed by memories of a reality that existed in place of their world. The older girl, Jill, even remembers the disappearance of their mother while preventing the assassination of John F. Kennedy. Goonan has created a new kind of utopian Science Fiction novel in which the changes in history have created a present world that is in many ways superior to our own, while in other worlds, people strive to prevent their own erasure by restoring the ills to ours. *This Shared Dream* is certainly the most provocative Science Fiction speculation of the year and perhaps the decade.
