Shelley And The Revolution In Taste The Body And The Natural World:

Shelley and the Revolution in Taste Timothy Morton, 1994 This book brings together the themes of diet consumption the body and human relationships with the natural world in a highly original study of Shelley A campaigning vegetarian and proto ecological thinker Shelley may seem to us curiously modern but Morton offers an illuminatingly broad context for Shelley's views in eighteenth century social and political thought concerning the relationships between humanity and nature The book is at once grounded in the revolutionary history of the period 1790 1820 and informed by current theoretical issues and anthropological and sociological approaches to literature Morton provides challenging new readings of much debated poems plays and novels by both Percy and Mary Shelley as well as the first sustained interpretation of Shelley's prose on diet With its stimulating literary historical reassessment of questions about nature and culture this study will provoke fresh discussion about Shelley Romanticism and modernity

Romanticism, Medicine, and the Poet's Body James Robert Allard, 2016-04-08 That medicine becomes professionalized at the very moment that literature becomes Romantic is an important coincidence and James Allard makes the most of it His book restores the physical body to its proper place in Romantic studies by exploring the status of the human body during the period With meticulous detail he documents the way medical discourse consolidates a body susceptible to medical authority that is then represented in the works of Romantic era poets In doing so he attends not only to the history of medicine's professionalization but significantly to the rhetoric of legitimation that advances the authority of doctors over the bodies of patients and readers alike After surveying trends in Romantic era medicine and analyzing the body's treatment in key texts by Wordsworth and Joanna Baillie Allard moves quickly to his central subject the Poet Physician This hybrid figure discovered in the works of the medically trained John Keats John Thelwall Thomas Lovell Beddoes embodies the struggles occasioned by the discrepancies and affinities between medicine and poetry

The Figure of Music in Nineteenth-Century British Poetry Phyllis Weliver, 2017-07-05 How was music depicted in and mediated through Romantic and Victorian poetry? This is the central question that this specially commissioned volume of essays sets out to explore in order to understand better music's place and its significance in nineteenth-century British culture. Analysing how music took part in and commented on a wide range of scientific, literary and cultural discourses, the book expands our knowledge of how music was central to the nineteenth-century imagination. Like its companion volume *The Idea of Music in Victorian Fiction* (Ashgate, 2004) edited by Sophie Fuller and Nicky Losseff, this book provides a meeting place for literary studies and musicology with contributions by scholars situated in each field. Areas investigated in these essays include the Romantic interest in national musical traditions; the figure of the Eolian harp in the poetry of Coleridge and Shelley; the recurring theme of music in Blake's verse settings of Tennyson by Parry and Elgar that demonstrate how literary representations of musical ideas are refigured in music; George Eliot's use of music in her poetry to explore literary and philosophical themes; music in the verse of Christina and Dante Gabriel Rossetti; the personification of lyric Sappho in a song cycle by Granville and Helen Bantock; and music and sexual identity in the poetry of Wilde. Symonds, Michael Field, Beardsley, Gray and Davidson.

The Cambridge History of European Romantic Literature Patrick Vincent, 2023-11-09 This wide-ranging new history of European Romantic Literature presents a pan-European phenomenon which transcended national borders and contributed to a new sense of European cultural identity across the continent. Conceived in the same spirit as Madame de Staël's cultural and political agenda at a time when her generous idea of Europe is being challenged on all sides, the volume pays close attention to the period's circulation of people, ideas and texts. It proposes to rethink the period comparatively, focusing on various forms of cultural mediation and transfer and on productive tensions, synchronicities and interactions within and across borders. Organized chronologically, its twenty chapters address over five hundred works, proposing a coherent historical narrative without completely erasing individual nations' specificities. By showcasing in particular the place of Britain within continental culture, the volume hopes to reactivate critical examinations of Romanticism from a historicised European perspective.

Romanticism and Colonial Disease Alan Bewell, 2003-05-22 Colonial experience was profoundly structured by disease as expansion brought people into contact with new and deadly maladies. Pathogens were exchanged on a scale far greater than ever before. Native populations were decimated by wave after wave of Old World diseases. In turn, colonists suffered disease and mortality rates much higher than in their home countries. Not only disease but the idea of disease and the response to it deeply affected both colonizers and those colonized. In *Romanticism and Colonial Disease*, Alan Bewell focuses on the British response to colonial disease as medical and literary writers in a period roughly from the end of the eighteenth century to the middle of the nineteenth century grappled to understand this new

world of disease Bewell finds this literature characterized by increasing anxiety about the global dimensions of disease and the epidemiological cost of empire Colonialism infiltrated the heart of Romantic literature affecting not only the Romantics framing of disease but also their understanding of England's position in the colonial world The first major study of the massive impact of colonial disease on British culture during the Romantic period *Romanticism and Colonial Disease* charts the emergence of the idea of the colonial world as a pathogenic space in need of a cure and examines the role of disease in the making and unmaking of national identities **A Centre of Wonders** Janet Moore Lindman, Michele Lise Tarter, 2018-05-31 Images of bodies and bodily practices abound in early America from spirit possession Fasting Days and infanticide to running the gauntlet going naked as a sign flogging bundling and scalping All have implications for the study of gender sexuality masculinity illness the body politic spirituality race and slavery The first book devoted solely to the history and theory of the body in early American cultural studies brings together authors representing diverse academic disciplines Drawing on a wide range of archival sources including itinerant ministers journals Revolutionary tracts and broadsides advice manuals and household inventories they approach the theoretical analysis of the body in exciting new ways *A Centre of Wonders* covers such varied topics as dance and movement among Native Americans invading witch bodies in architecture and household spaces rituals of baptism conversion and church discipline eighteenth century women's journaling and the body as a rhetorical device in the language of diplomacy *Poetic Form and Romantic Provocation* Carmen Faye Mathes, 2022-06-28 Critics have long understood the development of Romantic aesthetics as a turning point in the history of literary theory a turn that is responsible for theories of mind and body that continue to inform our understandings of subjectivity and embodiment today Yet the question of what aesthetic experience can do grates against the fact that much Romantic writing represents subjects as not actually in charge of the feelings they feel the dreams they dream or the actions they take In response to this dilemma *Poetic Form and Romantic Provocation* argues that being moved contrary to one's will is itself an aesthetic phenomenon explored by Romantic poets whose experiments with poetic form and genre provoke unanticipated feelings through verse By analyzing how Romantic poets intervene affectively and aesthetically in readerly expectations of form and genre Mathes shows how provocations disrupt and invite disturb and compel interrupting or suspending or retreating in ways that ask readers to orient themselves materially and socially in relation to literary experiences that are at once virtual and embodied Examining the formal tactics of Charlotte Smith William Wordsworth Samuel Taylor Coleridge John Keats and Percy Bysshe Shelley alongside their reactions to historical events such as Toussaint Louverture's revolt and the Peterloo Massacre Mathes reveals that an aesthetics of radical openness is central to the development of literary theory and criticism in Romantic Britain *The Progressive Environmental Prometheans* William B. Meyer, 2016-06-30 This book is devoted to the exploration of environmental Prometheanism the belief that human beings can and should master nature and remake it for the better Meyer considers among others the question of why Prometheanism

today is usually found on the political right while environmentalism is on the left Chapters examine the works of leading Promethean thinkers of nineteenth and early and mid twentieth century Britain France America and Russia and how they tied their beliefs about the earth to a progressive left wing politics Meyer reconstructs the logic of this progressive Prometheanism and the reasons it has vanished from the intellectual scene today The Progressive Environmental Prometheans broadens the reader s understanding of the history of the ideas behind Prometheanism This book appeals to anyone with an interest in environmental politics environmental history global history geography and Anthropocene studies

Morton,2004-01-16 Cultures of Taste Theories of Appetite brings two major critical impulses within the field of Romanticism to bear upon an important and growing field of research appetite and its related discourses of taste and consumption As consumption in all its metaphorical variety comes to displace the body as a theoretical site for challenging the distinction between inside and outside food itself has attracted attention as a device to interrogate the rhetoric and politics of Romanticism In brief the volume initiates a dialogue between the cultural politics of food and eating and the philosophical implications of ingestion digestion and excretion
