Visions of Ryukyu Gregory Smits, 1999-01-01 Between 1609 and 1879 the geographical political and ideological status of the Kingdom of Ryukyu modern Okinawa was characterized by its ambiguity It was subordinate to its larger neighbors China and Japan yet an integral part of neither A Japanese invasion force from Satsuma had conquered the kingdom in 1609 resulting in its partial incorporation into Tokugawa Japan's bakufu state Given Ryukyu's long standing ties with China and East Asian foreign relations following the rise of the Qing dynasty however the bakufu maintained only an indirect link with Ryukyu from the mid seventeenth century onward Thus Ryukyu was able to exist as a quasi independent kingdom for more than two centuries albeit amidst a complex web of trade and diplomatic agreements involving the bakufu Satsuma Fujian and Beijing During this time Ryukyu's ambiguous position relative to China and Japan prompted its elites to fashion their own visions of Ryukyuan identity Created in a dialogic relationship to both a Chinese and Japanese Other these visions informed political programs intended to remake Ryukyu In this innovative and provocative study Gregory Smits explores early modern perceptions of Ryukyu and their effect on its political culture and institutions He describes the major historical circumstances that informed early modern discourses of Ryukyuan identity and examines the strategies used by leading intellectual and political figures to fashion promote and implement their visions of Ryukyu Early modern visions of Ryukyu were based on Confucianism Buddhism and other ideologies of the time Eventually one vision prevailed becoming the theoretical basis of the early modern state by the middle of the eighteenth century Employing elements of Confucianism the scholar and government official Sai On 1682-1761 argued that the kingdom's destiny lay primarily with Ryukyuan themselves and that moral parity with Japan and China was within its grasp Despite Satsuma's control over its diplomatic and economic affairs Sai envisioned Ryukyu as an ideal Confucian state with government and state rituals based on the Chinese model In examining Sai's thought and political program this volume sheds new light on Confucian praxis and conversely uncovers one variety of an East Asian prenational imagined political cultural community

Metaphors of ANGER across Languages: Universality and Variation Zoltan Kövecses, Réka Benczes, Veronika Szelid, 2024-11-04 Anger is one of the basic emotions of human emotional experience informing and guiding many of our choices and actions Although it has received considerable scholarly attention in a number of disciplines including linguistics a basic question has still remained unresolved why do variations in the folk model of anger exist across languages if it is indeed a basic emotion rooted in largely universal bodily experience By drawing on a wide selection of comparable linguistic data from dozens of languages including a number of less researched languages this volume provides the most comprehensive account of what is universal and what is variable in the folk model of anger and why It also investigates the role that metonymies might play in the emergence of anger related metaphors and in what ways context influences or shapes anger metaphors and thereby the resulting folk model of anger No such volume exists in the cognitive linguistic literature on anger or on emotions for that matter The book is thus an essential contribution to the study of anger and will serve as basic

reading for any researcher interested in how the conceptualization of anger is constructed via the interplay of bodily experience language and the larger cultural context **Punch** Mark Lemon, Henry Mayhew, Tom Taylor, Shirley Brooks, Francis Cowley Burnand, Owen Seaman, 1924
