How to Manage a Successful Business in China Johan Björkstén, Anders Högglund, 2010 This unique book discusses how to manage an organization in China. It is based on the invaluable practical experience of entrepreneur Johan Björkstén who successfully built a local consulting business with over 100 employees and Anders Högglund a seasoned manager who set up high growth and highly profitable operations in China for a major industrial multinational. The book provides widely applicable advice based on experiences from different industries including but not limited to those of the authors. Most books about business in China belong to one of two categories: autobiographical success stories or academic treatises. *Managing in China* goes beyond these genres to provide highly relevant practical advice and checklists as well as concrete and illustrative examples from the authors' own experience. *Managing in China* succinctly explains how historical, cultural and social factors influence today's Chinese business environment and how managers should take this into account in day-to-day operations. The book focuses on managing in a rapid growth environment but also provides advice on how to ensure sustainable operations and profitability in mature industries or a temporary downturn.

Featuring a rich tapestry of narratives that span adventure, social critique, and existential exploration, this collection showcases London's trademark blend of realism and romanticism. With a keen eye for the natural world and the struggles of the human spirit, London's prose is characterized by vivid imagery and robust dialogue reflecting the tumultuous backdrop of early 20th-century America, a time marked by social upheaval, industrialization, and a burgeoning interest in socialism.
