Lost Fathers The Politics Of Fatherlessness:

Lost Fathers Cynthia R. Daniels, 2000-04 This book brings together the voices of a highly diverse group of scholars to reflect on the culturally and politically charged concept of fatherlessness in contemporary American politics The Myth of the Missing Black Father Roberta L. Coles, Charles St. Clair Green, 2010 Common stereotypes portray black fathers as being largely absent from their families Yet while black fathers are less likely than white and Hispanic fathers to marry their child's mother many continue to parent through cohabitation and visitation providing caretaking financial and other in kind support This volume captures the meaning and practice of black fatherhood in its many manifestations exploring two parent families cohabitation single custodial fathering stepfathering noncustodial visitation and parenting by extended family members and friends Contributors examine ways that black men perceive and decipher their parenting responsibilities paying careful attention to psychosocial economic and political factors that affect the ability to parent Chapters compare the diversity of African American fatherhood with negative portrayals in politics academia and literature and through qualitative analysis and original profiles illustrate the struggle and intent of many black fathers to be responsible caregivers This collection also includes interviews with daughters of absent fathers and concludes with the effects of certain policy decisions on responsible parenting

Essential Dads Jennifer M. Randles, 2020-10-13 In Essential Dads sociologist Jennifer Randles shares the stories of more than 60 marginalized men as they sought to become more engaged parents through a government supported responsible fatherhood program Dads experiences serve as a unique window into long standing controversies about the

importance of fathering its connection to inequality and the state's role in shaping men's parenting. With a compassionate and hopeful voice, Randles proposes a more equitable political agenda for fatherhood, one that carefully considers the social and economic factors shaping men's abilities to be involved in their children's lives and the ideologies that rationalize the necessity of that involvement. *New Family Values* Karen Struening, 2002-06-25 How many different kinds of families are there? *New Family Values* provides a critical analysis of scholars and authors who argue that law and policy should be used to foster one model of the family: the intact two-parent heterosexual family. Karen Struening argues that this position does not adequately address the problem it supposedly solves: family dissolution and unnecessarily constrains personal liberty. Healthy families may be necessary for civic unity and individual stability, but there can be many different kinds of families.

Nurturing Dads William Marsiglio, Kevin Roy, 2012-01-01 American fathers are a highly diverse group, but the breadwinning live-in biological dad prevails as the fatherhood ideal. Consequently, policymakers continue to emphasize marriage and residency over initiatives that might help foster healthy father-child relationships and creative co-parenting regardless of marital or residential status. In *Nurturing Dads*, William Marsiglio and Kevin Roy explore the ways new initiatives can address the social, cultural, and economic challenges men face in contemporary families and foster more meaningful engagement between many different kinds of fathers and their children. What makes a good father? The firsthand accounts in *Nurturing Dads* show that the answer to this question varies widely and in ways that counter the mainstream provide-and-reside model of fatherhood. Marsiglio and Roy document the personal experiences of more than 300 men from a wide range of socioeconomic backgrounds and diverse settings, including fathers-to-be, young adult fathers, middle-class dads, stepfathers, men with multiple children in separate families, and fathers in correctional facilities. They find that most dads express the desire to have strong, close relationships with their children and to develop the nurturing skills to maintain these bonds. But they also find that disadvantaged fathers, including young dads and those in constrained financial and personal circumstances, confront myriad structural obstacles such as poverty, inadequate education, and poor job opportunities. *Nurturing Dads* asserts that society should help fathers become more committed and attentive caregivers, and that federal and state agencies, work sites, grassroots advocacy groups, and the media all have roles to play. Recent efforts to introduce state-initiated paternity leave should be coupled with social programs that encourage fathers to develop unconditional commitments to children, to co-parent with mothers, to establish partnerships with their children's other caregivers, and to develop parenting skills and resources before becoming fathers via activities like volunteering and mentoring kids. Ultimately, Marsiglio and Roy argue, such combined strategies would not only change the policy landscape to promote engaged fathering but also change the cultural landscape to view nurturance as a fundamental aspect of good fathering. Care is a human experience, not just a woman's responsibility, and this core idea behind *Nurturing Dads* holds important implications for how society supports its families and defines manhood. The book promotes the progressive notion that fathers should provide

more than financial support and in the process bring about a better start in life for their children A Volume in the American Sociological Association's Rose Series in Sociology

Catholic Culture Ryan Nathan Scott Topping, Ryan Topping, 2013-01-18 Rarely does a book come along that so succinctly explains the decline of modern culture articulates a defense of the Church's teachings and offers a hope filled path for building a civilization grounded in Catholic truth In these pages Dr Ryan Topping does all three pulling back the curtain on the false philosophies of the secularists and showing that in the West today the most formidable threat to freedom is not failing economies or Islam but secularism Our best defense he claims is a vibrant Catholic culture and our best hope for creating it lies in the principles found in the Catechism of the Catholic Church In *Rebuilding Catholic Culture* you'll discover sensible ways to begin restoring Catholic culture right now in your own life and family and in our larger communities as well in the theater in the classroom in our hospitals and even in the public square This profoundly accessible book will renew your confidence in the world transforming character of our Creed and in the potency of our Faith to shape and redefine the culture of the West Book jacket

Rights, Gender and Family Law Julie Wallbank, Shazia Choudhry, Jonathan Herring, 2009-12-04 There has been a widespread resurgence of rights talk in social and legal discourses pertaining to the regulation of family life as well as an increase in the use of rights in family law cases in the UK the US Canada and Australia *Rights Gender and Family Law* addresses the implications of these developments and in particular the impact of rights based approaches upon the idea of welfare and its practical application There are now many areas of family law in which rights and welfare based approaches have been forced together But whilst to many they are premised upon different ethics respectively of justice and of care for others they can nevertheless be reconciled In this respect a central concern is the gender blind character of rights based approaches and the ontological and practical consequences of their employment in the gendered context of the family *Rights Gender and Family Law* explores the tensions between rights based and welfare based approaches explaining their differences and connections considering whether if at all they are reconcilable and addressing the extent to which they can advantage or disadvantage the interests of women children and men It may be that rights based discourses will dominate family law at least in the way that social policy and legislation respond to calls of equality of rights between mothers and fathers This collection however argues that rights cannot be given centre stage without thinking through the ramifications for gendered power relations and the welfare of children It will be of interest to researchers and scholars working in the fields of family law gender studies and social welfare
