being spissid is a comment on one's girth, sobriety or resemblance to a javelin either literal or metaphorical. Endlessly fascinating, *Lost Words* continues Philip Howard's amusing and informative tour of words that enrich the English language and would otherwise have been lost forever. *Am I Someone (The Poetry)* Allen Francis Foley, 2001-03-23 AM I SOMEONE The Poetry is best described as a communion of words written from the heart, a place of truth. The author may best be described as the Rod McKuen of the 90s and beyond. He plunges deep into self, deep into glorious and painful memories and deep into a conscious/unconscious life. And then he begins all over again. Here is one heart and one mind reaching out to touch the hearts and minds of others. Dreams achieved through the words and emotions stirred through and through by never doubting he has loved. Love had. Love lost. Love abused and misused. And love, the substance of miracles when all else fails in a world that seems so lost unto itself. AM I SOMEONE The Poetry tells of life as an open invitation to cry, to laugh, to love, to live and to die. It's a connection with the emotions we all feel and hear. A communion of life from the heart, a place of truth. The Kalevala Elias Lönnrot, 2023-04-27 The Kalevala is a Finnish epic poem which tells of the creation of the world and how the heroes that inhabit it came to be and the legends of their conflicts and adventures. Spread out over fifty cantos, we hear how existence was created from the egg of a duck, how the forests were created from the chips of a world tree felled by an ancient wizard, how the mighty Sampo, a multicolored mill of plenty, was created and later stolen, how the nine dread diseases came to be and many more such stories. The tales contained here are formed from Finland's oral history. The author, Elias Lönnrot, was a Finnish doctor who was fascinated with his country's stories, so between the 1820s and 1850s he embarked on a series of expeditions to the countryside of Finland and the surrounding area to collect and transcribe the folk stories told by local people. These tales were gradually collected into several volumes, the final of which is this new Kalevala. Lönnrot collected many different variants of each story, then edited each down into a cohesive whole when composing the new verse. The distinctive Kalevala meter, that was a common feature of all the original oral stories, was kept during the process and Crawford used the same with this English translation. Lönnrot's work proved extremely influential in Finland and the national pride it imbued has been cited as a factor in the later Finnish independence movement. The Kalevala was also a source of inspiration for later authors of the twentieth century. Tolkien reused some of the themes and characters for the basis of his fictional universe; in particular, *The Silmarillion*. The Kalevala meter was used in Longfellow's *The Song of Hiawatha* and even Donald Duck has quested as the Kalevala heroes did for the legendary Sampo. This edition was translated by John Martin Crawford in the late nineteenth century and includes his introduction discussing some of the themes, characters and settings.

**Dystopia(n) Matters** Fátima Vieira,2013-07-16 The volume is divided into two parts separated by an Intermezzo The first part Dystopia Matters benefits from the contribution of reputed scholars of the field of Utopian Studies who were asked to make a statement explaining why dystopia is important The Intermezzo completes this part and offers the reader an informed discussion of the concepts of utopia dystopia and anti utopia whilst providing ground for the case studies presented in the second part in the sections devoted to literature film and theatre In one way or another despite the variety of approaches all contributors argue for the idea that if dystopia has invaded most forms of contemporary discourse its sibling utopia has not been eradicated from the scene Furthermore the studies show that the tension between the two concepts is instrumental to our cautious conscious and tentative construction of the future

**The Architecture of Ruins** Jonathan Hill, 2019-03-25

The Architecture of Ruins Designs on the Past Present and Future identifies an alternative and significant history of architecture from the sixteenth century to the twenty first century in which a building is designed occupied and imagined as a ruin This design practice conceives a monument and a ruin as creative interdependent and simultaneous themes within a single building dialectic addressing temporal and environmental questions in poetic psychological and practical terms and stimulating questions of personal and national identity nature and culture weather and climate permanence and impermanence and life and death Conceiving a building as a dialogue between a monument and a ruin intensifies the already blurred relations between the unfinished and the ruined and envisages the past the present and the future in a single architecture Structured around a collection of biographies this book conceives a monument and a ruin as metaphors for a life and means to negotiate between a self and a society Emphasising the interconnections between designers and the particular ways in which later architects learned from earlier ones the chapters investigate an evolving interdisciplinary design practice to show the relevance of historical understanding to design Like a history a design is a reinterpretation of the past that is meaningful to the present Equally a design is equivalent to a fiction convincing users to suspend disbelief We expect a history or a novel to be written in words but they can also be delineated in drawing cast in concrete or seeded in soil The architect is a physical novelist as well as a physical historian Like building sites ruins are full of potential In revealing not only what is lost but also what is incomplete a ruin suggests the future as well as the past As a stimulus to the imagination a ruin s incomplete and broken forms expand architecture s allegorical and metaphorical capacity indicating that a building can remain unfinished literally and in the imagination focusing attention on the creativity of users as well as architects Emphasising the symbiotic relations between nature and culture a building designed occupied and imagined as a ruin acknowledges the coproduction of multiple authors whether human non human or atmospheric and is an appropriate model for architecture in an era of increasing climate change
