Post Reformation Reformed Dogmatics The Divine Essence And Attributes:

Post-Reformation Reformed Dogmatics Richard A. Muller, 2003-08 A major study reevaluating the primary sources of the post Reformation period to determine how consistent they are with the thinking of the Reformers on the divine essence and attributes **Post-Reformation Reformed Dogmatics: The divine essence and attributes** Richard Alfred Muller, 2003

Jonathan Edwards's Theology: A Reinterpretation Kyle C. Strobel, 2012-11-29 This volume provides an interpretative key to Jonathan Edwards's theology developed from within his own doctrinal constructs Strobel offers a dogmatic exposition of Edwards's theology by unveiling the trinitarian architecture of his thought Building upon this analysis Strobel applies his construct to reinterpret three key areas of redemption debated widely in the secondary literature spiritual knowledge regeneration and religious affection In order to achieve this purpose Strobel's approach is theological rather than philosophical employing Edwards's self confession as a Reformed theologian to guide his analysis In advancing a theological reading of Edwards Strobel focuses on the systematic nature of Edwards's theology ordering it according to his doctrinal affirmations This necessitates as many Edwards scholars now affirm a primary focus on Edwards's trinitarian theology where the Trinity serves as the key ontological principle which orders the whole of his doctrinal construction By grounding the interpretive key in Edwards's understanding of the Trinity Strobel's idiosyncratic exposition of his doctrine of the Trinity serves to recast Edwards's theology in a new light **Great Is the Lord** Ron Highfield, 2008-08-15 In keeping with the classic Christian tradition *Great Is the Lord* sets out the doctrine of God in a way that illumines the mind moves the heart and stirs the soul to praise the triune God Ron Highfield introduces students ministers and others to the traditional doctrine of God held by the majority of the church from the second to the twentieth century God is triune loving merciful gracious patient wise one simple omnipotent omniscient eternal omnipresent immutable impassible and glorious Irenically challenging open theism and process theology Highfield shows that the classical doctrine of God actually preserves our confidence in God's love and his liberating action better than its opponents do This traditional doctrine Highfield argues grounds our dignity and freedom in the center of reality the trinitarian life of God Highfield's work maintains the highest intellectual standards throughout even as it offers a true theology for the praise of God Political Church Jonathan Leeman, 2016-03-02 What is the nature of the church as an institution What are the limits of the church's political reach Drawing on covenant theology and the new institutionalism in political science Jonathan Leeman critiques political liberalism and explores how the biblical canon informs an account of the local church as an embassy of Christ's kingdom *The Beauty of the Triune God* Kin Yip Louie, 2013-07-29 The eighteenth century Puritan theologian Jonathan Edwards has become popular again in contemporary theological discussion Central to Edwards's theology is his concept of beauty Delattre wrote the standard work on this topic half a century ago However Delattre approaches Edwards mainly as a philosopher and he does not address how Edwards employs the concept of beauty to explain and defend traditional Reformed doctrines Recent writings by McClymond Holmes

and others have shown that defending the Reformed tradition is a fundamental concern of Edwards This work reveals how Edwards starting with the common notion that beauty means the appropriate proportional relationship develops a theological aesthetic that contributes to a rational understanding of major doctrines such as the Trinity Christology and eschatology It shows that Edwards is both an innovative speculative theologian and a staunch defender of Reformed orthodoxy

Christianity, Ethics and the Law Zachary R. Calo, Joshua Neoh, A. Keith Thompson, 2022-12-30 This book examines how Christian love can inform legal thought The work introduces love as a way to advance the emergent conversation between constructive theology and jurisprudence that will also inform conversations in philosophy and political theory Love is the central category for Christian ethical understanding Yet the growing field of law and religion and relatedly law and theology rarely addresses how love can shape our understanding of law This reflects in part a common assumption that law and love stand in necessary tension Love applies to the private and the personal Law by contrast applies to the public and the political realms governed by power It is thus a mistake to envisage love as having anything but a negative relationship to law This conclusion continues to govern Christian understandings of the meaning and vocation of law The animating idea of this volume is that the concept of love can and should inform Christian legal thought The project approaches this task from the perspective of both historical and constructive theology Various contributions examine how such thinkers as Augustine Aquinas and Calvin utilised love in their legal thought These essays highlight often neglected aspects of the Christian tradition Other contributions examine Christian love in light of contemporary legal topics including civility forgiveness and secularism Love the book proposes not only matters for law but can transform the terms on which Christians understand and engage it The book will be of interest to academics and researchers working in the areas of legal theory law and religion law and philosophy legal history theology and religious studies and political theory

A Critical Examination of the Doctrine of Revelation in Evangelical Theology Carisa A. Ash, 2015-07-14 How God reveals himself is an important matter for Christians especially evangelicals For too long Carisa Ash contends evangelicals have rightly affirmed that God reveals through the created world but then they functionally neglect such revelation In this monograph Ash offers a corrective to this practice by presenting a theology of revelation that explores the commonalities between various forms of revelation world written and spoken word and Incarnate Word Particularly aimed at theologians interested in theological method Ash's study will also benefit people interested in faith and learning or interdisciplinary integration Ash argues that evangelicals must strive to align more closely their affirmations and their practice Her critique of current practices in theological method and integration along with the proposed theology of revelation are designed to help move the conversation forward

Patience—A Theological Exploration Paul Dafydd Jones, 2022-11-17 What does it mean to exercise patience What does it mean to endure to wait and to persevere and on other occasions to reject patience in favor of resistance haste and disruptive action And what might it mean to describe God as patient Might patience play a leading role in a Christian account of God's

creative work God's relationship to ancient Israel God's governance of history and God's saving activity The first instalment of *Patience A Theological Exploration* engages these questions in searching imaginative and sometimes surprising ways Following reflections on the biblical witness and the nature of constructive theological inquiry its interpretative chapters engage landmark works by a number of ancient medieval modern and contemporary authors disclosing both the promise and peril of talk about patience *Patience* stands at the center of this innovative account of God's creative work God's relationship with ancient Israel creaturely sin scripture and God's broader providential and salvific purposes **An American**

Augustinian Oliver D. Crisp, 2007-11-01 William G T Shedd has been hailed as one of America's most important dogmatic theologians Yet until now there has been no systematic study of his work In this volume two central themes in his theology are explored with particular emphasis upon the philosophical issues Shedd's work raises and his significance as a dialogue partner for contemporary theologians **The Son Who Learned Obedience** D. Glenn Butner Jr., 2018-09-07 This book

offers a fresh perspective on the ongoing evangelical debate concerning whether the Son eternally submits to the Father Beginning with the pro Nicene account of will being a property of the single divine nature Glenn Butner explores how language of eternal submission requires a modification of the classical theology of the divine will This modification has problematic consequences for Christology various atonement theories and the doctrine of God because as historically developed these doctrines shared the pro Nicene assumption of a single divine will This new angle on an old debate challenges the reader to move beyond the inaccurate characterization of views on eternal submission as Arian or feminist toward a more accurate understanding of the real theological issues at stake **Kierkegaard and the Changelessness of God** Craig A. Hefner, 2023-08-22 Living what he perceived to be a culturally lukewarm Christianity Søren Kierkegaard was often critical of his contemporary church This volume explores his reading of Scripture and theology to argue not only that he was a modern defender of the doctrine of divine immutability but that his theology can be a surprising resource today

The Perfectly Simple Triune God D. Stephen Long, 2016-08-01 A particularly nettlesome question is that around the relationship of the confession of God as a simple yet threefold being the treatises of the one God and the Trinity Although God as simple and Triune was widely accepted for over a millennium simplicity has been widely critiqued and rejected by modern theology The purported error is in conceiving God's unity prior to the Triune persons an error begun by Augustine and crystallized in Aquinas *The Perfectly Simple Triune God* challenges this critique and reading of Aquinas as a misunderstanding of his doctrine of God By refusing to begin theology with God's oneness who God is collapses into who God is for us a loss of the biblical and dramatic character of God for us D Stephen Long posits that the two treatises were never independent but inextricably related and entailing one another Long provides a constructive rereading of Thomas Aquinas tracing antecedents to Aquinas in the patristic tradition and readings of him through to the Reformers taking into account challenges to the classical tradition posed by modern and contemporary theology and philosophy to offer a robust

articulation of divine Trinitarian agency for a contemporary age that adheres to broadly considered orthodox and ecumenical parameters *Early Modern Philosophy of Religion* Graham Oppy, N. N. Trakakis, 2014-09-11 The early modern period in philosophy encompassing the 16th to the 18th centuries reflects a time of social and intellectual turmoil The Protestant Reformation the Catholic Counter Reformation and the birth of the Enlightenment all contributed to the re evaluation of reason and faith The revolution in science and in natural philosophy swept away two millennia of Aristotelian certainty in a human centred universe Covering some of the most important figures in the history of Western thought notably Descartes Locke Hume and Kant *Early Modern Philosophy of Religion* charts the philosophical understanding of religion at a time of intellectual and spiritual revolution *Early Modern Philosophy of Religion* will be of interest to historians and philosophers of religion while also serving as an indispensable reference for teachers students and others who would like to learn more about this formative period in the history of ideas **Analytic Christology and the Theological Interpretation of the New**

Testament Thomas H. McCall, 2021-03-04 This study draws upon the resources of both contemporary analytic theology and the theological interpretation of the New Testament in order to investigate a set of important issues in Christology It is the first work in analytic Christology to draw upon both recent scholarship in biblical studies and recent contributions to analytic philosophy and theology Thomas H McCall explores the themes of union with Christ and the faith of Christ as these are developed by the apocalyptic and New Perspective interpreters of Pauline theology The volume offers a careful analysis of recent dogmatic proposals about the identity of Christ and the doctrine of election and provides an examination of debates over the subordination of the Son in Hebrews It also probes the relationship of the incarnate Son to his Father in Johannine theology McCall presents an exegetically grounded theological engagement with recent work on the place of logic in the doctrine of the incarnation **Christ Alone---The Uniqueness of Jesus as Savior** Stephen Wellum, 2017-04-18 Professor

of theology Stephen Wellum considers Christ's singular uniqueness and significance biblically historically and today in our pluralistic and postmodern age *Christ Alone* is a much needed study and defense of the doctrine that provides coherency to the Christian faith If the church is to proclaim the same Christ as the Reformers we must understand and embrace *solus Christus* with the same clarity conviction urgency and abundance of joy as the Reformers To that end Wellum Recovers the Reformers basic insights by focusing first on two teachings the exclusive identity of Christ and his sufficient work Follows the historical roots of the doctrine and its developments to show how the uniqueness of Christ has come under specific attack today Retraces the storyline of Scripture from Christ's unique identity and work as prophet priest and king to the application of his work to believers and our covenantal union with him *Christ Alone* seeks to recover a robust biblical and theological doctrine of Christ's person and work and a renewed understanding that apart from Christ there is no salvation in the face of today's challenges unpacking why a fresh appraisal of the Reformation understanding of Christ alone is so important today THE FIVE SOLAS Historians and theologians have long recognized that at the heart of the sixteenth century Protestant

Reformation were five declarations often referred to as the solas. These five statements summarize much of what the Reformation was about and they distinguish Protestantism from other expressions of the Christian faith that they place ultimate and final authority in the Scriptures, acknowledge the work of Christ alone as sufficient for redemption, recognize that salvation is by grace alone through faith alone, and seek to do all things for God's glory. The Five Solas Series is more than a simple rehashing of these statements but instead expounds upon the biblical reasoning behind them, leading to a more profound theological vision of our lives and callings as Christians and churches.

The End of the Timeless God R. T. Mullins, 2016. This book considers two approaches to the philosophy of time: presentism and eternalism.

Jonathan Edwards, 2019. Drawing primarily from sermons, letters, and notes, this volume showcases Puritan theologian and pastor Jonathan Edwards's spiritual theology.

Reading Scripture Canonically Mark S. Gignilliat, 2019-06-18. Veteran Old Testament teacher Mark Gignilliat explores the theological and hermeneutical instincts that are necessary for reading, understanding, and communicating Scripture faithfully. He takes seriously the gains of historical criticism while insisting that the Bible must be interpreted as Christian Scripture, offering students a third way that assigns proper proportion to both historical and theological concerns. Reading and engaging Scripture requires not only historical tools, Gignilliat says, but also recognition of the living God's promised presence through the Bible.

For the Healing of the Nations Peter Escalante, W. Bradford Littlejohn, 2014-11-04. The doctrine of creation is obviously one of the first things, but it is also one of the last things, since the world to come is also, by definition, creation. The simple truth that it is so is incontestable, since neither the world to come nor those whose dwelling it is built to be are God. But the way in which this is so is the subject of a long, long debate in Christendom, with the question of whether and in what degree the life to come is continuous with this one. How common is the thing in first thing and last thing? Our answer to this question conditions our answer to many others: the relationship of philosophy to theology, of the church to the saeculum, of the kingdom of Christ to the visible church. This volume brings together the careful investigations of established and emerging historians and theologians exploring how these questions have been addressed at different points in Christian history and what they mean for us today. Includes contributions from James Bratt, E. J. Hutchinson, Matthew Tuininga, Andrew Fulford, Laurence O'Donnell, Benjamin Miller, Brian Auten, and Joseph Minich.
