Regional Convention On Protection Of Human Rights:

Regional Protection of Human Rights Dinah Shelton, Paolo G. Carozza, 2013-05-30 In the second edition of *Regional Protection of Human Rights* Dinah Shelton examines the development of regional organizations and the role that human rights plays in them

International Handbook of Inter-religious Education Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity

Europe and Asia as a Legal Area for Fundamental Rights Masahisa Deguchi, Kimio Yakushiji, 2023-05-05 This book explores the possibility of an Asian legal sphere based on the model of Europe It features articles written by leading experts from Europe and Asia After centuries of violent conflicts Europe began a process of integration which leads to 75 years of peace and a community with the common values of freedom fundamental rights and the rule of law But the circumstances that lead to the unification of Europe differ from current day Asia Besides the huge economic gaps between neighboring countries and a wide variety of political forms of government Asia also does not share the unifying narrative of post WWII Europe From an economic point of view Asia is a highly developed region despite the differences between the political systems the region has grown together economically and in recent times also politically However the legal systems of the respective countries have not created the necessary conditions for a peaceful coexistence Can Europe be a model for Asia Based on the history and development of the European unification process this book asks the question to what extent Asia can look to Europe as a model and what lessons can be learned

The Future of the United Nations System Chadwick F. Alger, 1998 What does the future hold for the UN In this book twenty two scholars from all continents contribute twelve chapters that cover prevention of violence creating economic and social structures that sustain human fulfillment sharing and protecting the commons and peace education The search for future potential based on experience in these twelve

laboratories leads to sixty six recommendations for new institutions and programs on issues that include controlling weapons humanitarian intervention collaboration between UN peacekeepers and NGOs human rights economic policies advancement of women refugees ecological security communications and peace education These recommendations are brought together in a concluding chapter and summarized in the appendix Most of the recommendations do not require amendments to the UN Charter or to the treaties establishing the UN Specialized Agencies Instead their implementation would require creative efforts of Member States secretariats NGOs and dedicated individuals that are pointed toward attainment of multilateral capacity for coping with an array of global problems that increasingly threaten the quality of human life This is stimulating reading for anyone who wants to be challenged to think creatively about the potential for coping with a growing array of global problems

Japan and International Law, Past, Present and Future Nisuke Ando, 2023-12-11 This book is a record of the international symposium held at the Kyoto International Conference Hall to mark the centennial of the Japanese Association of International Law The purpose of the symposium was to reflect on past Japanese practice to analyze current problems affecting Japan and to seek to clarify the future role of Japan in the global community in terms of international law After joining the international community in the middle of the nineteenth century Japan adopted a policy of wealth creation and armament in order to maintain its independence against the expanding Western States At the same time on the domestic scene Japan vigorously promoted the modernization Westernization of its political economic and social institutions Japan emerged as one of the victorious Principal Allied and Associated Powers in World War I and started asserting its place in the international order However in the aftermath of the Great Depression Japan failed to reach agreement with the international community eventually left the

League of Nations invaded the Asian continent and met with complete military defeat in World War II. In the subsequent years Japan toiled to rebuild its economy and to rejoin the world community but despite its miraculous economic recovery and expansion Japan remains ambivalent in its policy of contributing to the maintenance of international peace and security. During these one and a half centuries the Japanese practice of international law has covered a wide range of fields. From these various fields the symposium took up three specific topics: War and Peace, Economy and Human Rights, because of their relevance to past Japanese practice and because future Japanese practice in these areas would be bound to affect international law in the coming century. In addition the symposium discussed Japanese transactions in general with international law. The period covered by the symposium has witnessed many drastic changes in the world and international law which used to be applied almost exclusively to relations among the Western States has now come to be applied universally. The Association wished to emphasize that an analysis of Japanese practice should be of significance for anyone interested in promoting and consolidating the rule of law in the world community at large.

Brownlie's Principles of Public International Law Ian Brownlie, James Crawford, 2012-09-27. Serving as a single volume introduction to the field as a whole, this book seeks to present international law as a system that is based on and helps structure relations among states and other entities at the international level. It identifies the constituent elements of that system in a clear and accessible fashion.

Public Interest Rules of International Law Teruo Komori, 2016-04-15. This book clarifies factors that play an important role in securing the effectiveness of legal regimes that aim to protect public interests of the international community. In Part 1 the authors focus on theoretical problems arising in the implementation process of those legal regimes from both a constitutional and functional perspective. In Parts 2 through Part 4 they pay attention to practical issues in the implementation process of particular legal regimes in light of what interpretation or measures are legitimate from the perspective of protecting public interests. This book incorporates an idea of public law into the theoretical framework of international law which has been mainly constructed on the theory of private law in domestic legal systems. In contrast to many books which focus on the role of the procedural and material factors in the implementation process of various institutions and rules, this book emphasises the role of normative factors in securing effectiveness of public interests oriented rules and is a valuable resource for both academics and policy makers working in this area.

The Development of

Disability Rights Under International Law Arlene S. Kanter, 2014-11-27. The adoption of the Convention on the Rights of People with Disabilities (CRPD) by the United Nations in 2006 is the first comprehensive and binding treaty on the rights of people with disabilities. It establishes the right of people with disabilities to equality, dignity, autonomy, full participation, as well as the right to live in the community and the right to supported decision making and inclusive education. Prior to the CRPD, international law had provided only limited protections to people with disabilities. This book analyses the development

of disability rights as an international human rights movement Focusing on the United States and countries in Asia Africa the Middle East the book examines the status of people with disabilities under international law prior to the adoption of the CRPD and follows the development of human rights protections through the convention s drafting process Arlene Kanter argues that by including both new applications and entirely new approaches to human rights treaty enforcement the CRPD is significant not only to people with disabilities but also to the general development of international human rights by offering new human rights protections for all people Taking a comparative perspective the book explores how the success of the CRPD in achieving protections depends on the extent to which individual countries enforce domestic laws and policies and the changing public attitudes towards people with disabilities This book will be of excellent use and interest to researchers and students of human rights law discrimination and disability studies

The Foundations of International Investment Law Zachary Douglas,Joost Pauwelyn,Jorge E. Viñuales,2014-05-01 International investment law is one of the fastest growing areas of international law It has led to the signing of thousands of agreements mostly in the form of investment contracts and bilateral investment treaties Also in the last two decades there has been an exponential growth in the number of disputes being resolved by investment arbitration tribunals Yet the legal principles at the basis of international investment law and arbitration remain in a state of flux Perhaps the best illustration of this phenomenon is the wide disagreement among investment tribunals on some of the core concepts underpinning the regime such as investment property regulatory powers scope of jurisdiction applicable law or the interactions with other areas of international law The purpose of this book is to revisit these conceptual foundations in order to shed light on the practice of international investment law It is an attempt to bridge the growing gap between the theory and the practice of this thriving area of international law The first part of the book focuses on the infrastructure of the investment regime or more specifically on the structural arrangements that have been developed to manage foreign investment transactions and the potential disputes arising from them The second part of the book identifies the common conceptual bases of an array of seemingly unconnected practical problems in order to clarify the main stakes and offer balanced solutions The third part addresses the main sources of regime stress as well as the main legal mechanisms available to manage such challenges to the operation of the regime Overall the book offers a thorough investigation of the conflicting theoretical positions underlying international investment law testing their worth by reference to concrete issues that have arisen in the jurisprudence It demonstrates that many of the most important practical questions arising in practice can be addressed by a carefully dosed resort to theory

Protecting the Environment During Armed Conflict Elizabeth Mrema,Carl Bruch,Jordan Diamond,2009 This report inventories and analyses the range of international laws that protect the environment during armed conflict With a view to identifying the current gaps and weaknesses in this system the authors examine the relevant provisions within four bodies of international law environmental humanitarian IHL international criminal law ICL international environmental law IEL and international human rights law HRL The report

concludes with twelve concrete recommendations on ways to strengthen this legal framework and its enforcement The Environment and Natural Resources are crucial for building and consolidating peace it is urgent that their protection in times of armed conflict be strengthened There can be no durable peace if the natural resources that sustain livelihoods are damaged or destroyed This report provides a basis upon which Member States can draw upon to clarify expand and enforce international law on environmental protection in times of war *Conflict of Norms in Public International Law* Joost Pauwelyn,2003-07-31

One of the most prominent and urgent problems in international governance is how the different branches and norms of international law interact and what to do in the event of conflict With no single international legislator and a multitude of states international organisations and tribunals making and enforcing the law the international legal system is decentralised This leads to a wide variety of international norms ranging from customary international law and general principles of law to multilateral and bilateral treaties on trade the environment human rights the law of the sea etc Pauwelyn provides a framework on how these different norms interact focusing on the relationship between the law of the World Trade Organisation WTO and other rules of international law He also examines the hierarchy of norms within the WTO treaty His recurring theme is how to marry trade and non trade rules or economic and non economic objectives at the international level **Mutual Trust in Regional and Interregional Cooperation on Counterterrorism** Céline C. Cocq,2024-07-29

This book provides a detailed theoretical and practical analysis of a key concept in cooperation namely mutual trust in the EU and ASEAN regions It particularly looks at the issue of counterterrorism It analyses the differences in the legalistic approach of the EU and the consultation and consensus based approach in the ASEAN region and the correlation between mutual trust and regional and interregional cooperation against terrorism Thereby this book extends the well known concept of counterterrorism in EU criminal law to another regional case in order to analyse its possible use and operationalisation in other regions It provides important findings on whether and if so how the EU and ASEAN legal frameworks have facilitated intra regional and potentially interregional cooperation In order to measure trust it focuses on information sharing and discusses the terminology related to this matter the mechanisms of cooperation and the difficulties and successes of information sharing This book is of great interest for academics doing research on trust transnational cooperation regional counterterrorism legal architecture in the EU and ASEAN and comparative legal regional and interregional analysis and officials and practitioners involved in transnational cooperation in criminal matters especially terrorism *Non-Governmental Organisations and International Law* Prahlad Rai,2024-08-27

This book explores how non governmental organizations NGOs with their sphere of influence within the State and beyond enrich the international community by working on critical areas affecting people s lives and expectations to facilitate a more humanising international law It provides ideas highlights issues and identifies actors actions and the scope of NGOs in international law It charts possibilities and limitations of NGOs within the legal framework of a State and its evolution over the years The book

highlights how NGOs having obtained consultative status from the UN Economic and Social Council have now extended their access and area of influence to international actors like inter governmental organisations international courts and tribunals It provides an overview of NGO s performance and the important role they play in the making of human rights protection of environment and business ethics The book is primarily doctrinal containing case studies of important NGOs The purview is an inquiry analysis and overview of literature of NGOs in international law from a wide range of sources The book will help shape the debate over power and functions of NGOs in the background of new loci of NGOs work It is useful for students research scholars the NGO community corporations CSR departments and concerned governmental agencies Additionally being interdisciplinary in nature it caters to the demands of politics sociology management public policy and social work apart from law
