Karagiozis Linda Myrsiades, Kostas Myrsiades, 2021-12-14 Karagiozis a form of comic folk drama employing stock puppet figures was immensely popular in Greece until recent years when newer forms of entertainment have virtually eclipsed it Derived from ancient Byzantine and Greek sources it takes its name from the principal puppet character the clever humpbacked fool hero Karagiozis who appears in many guises surrounded by a cast of folk caricatures from all walks of life Kostas and Linda Myrsiades present here a tripartite view of Karagiozis a translation of a typical text taken directly from a live performance interviews with one of the last master Karagiozis puppeteers and an analysis of the place of this indigenous genre in Greek life and culture The first part of the book examines critical issues concerning the context of Karagiozis performance its place as an expression of an unofficial social world as a gender statement that reveals the split vision of its culture as an expression of a pluralistic society and as an indigenous event shaped by economic geographic political and social forces The second portion offers insights from interviews with Giorgos Haridimos until his retirement Greece's preeminent Karagiozis player and a translation of his classic text Karagiozis Baker reflecting an actual performance by Haridimos Through novel verbal and typographic devices Kostas Myrsiades succeeds in preserving the full flavor of his oral source its rhythms and intonations its linguistic nuances and even audience reactions to convey the actual experience of the theatergoer This unique translation thus establishes a model for collecting and disseminating oral theatrical tradition Folklorists cultural historians and students of theater will appreciate this introduction to an ancient but little known folkloric form
Trade and Famine in Classical Antiquity C. R. Whittaker, 2020-08-30 Trade in antiquity its scale status pattern and context is the subject of lively debate among historians But no analysis has made a special investigation of trade in essential food stuffs Famine and food crisis are also neglected subjects This collection of essays is structured around the two focal points of trade and famine A theme of the volume is that a combination of natural and artificial shortages made inevitable the bulk movement of staples between regions in all periods of antiquity Novel contributions are offered in addition in relation to the cost of shipping the extent of long distance trade in wine the relative demand for wheat and barley the incidence and gravity of food crises the efficiency of famine relief measures and the part played by food shortages in the collapse of the late Roman frontier system

Cults and Rites in Ancient Greece Michael H. Jameson, 2014-10-16 This volume assembles fourteen highly influential articles written by Michael H Jameson over a period of nearly fifty years edited and updated by the author himself They represent both the scope and the signature style of Jameson's engagement with the subject of ancient Greek religion The collection complements the original publications in two ways firstly it makes the articles more accessible and secondly the volume offers readers a unique opportunity to observe that over almost five decades of scholarship Jameson developed a distinctive method a signature style a particular perspective a way of looking that could perhaps be fittingly

called a Jamesonian approach to the study of Greek religion This approach recognizable in each article individually becomes unmistakable through the concentration of papers collected here The particulars of the Jamesonian approach are insightfully discussed in the five introductory essays written for this volume by leading world authorities on polis religion **Rural Lives and Landscapes in Late Byzantium** Sharon E. J. Gerstel, 2015-07-15 This is the first book to examine the late Byzantine village through written archaeological and painted sources **Fragments of Death, Fables of Identity** Eleni Neni K. Novo, 2020-11-12 This book explores the origins conduct and failure of Greek Cypriot nationalists to achieve the unification of Cyprus with Greece Andrew Novo addresses the anti colonial struggle in the context of the competition for the nationalist narrative in Cyprus between the Left and Right the duelling Greek Cypriot and Turkish Cypriot nationalisms in Cyprus the role of Turkey and Greece in the conflict on the island and the concerns of the British Empire during its retrenchment following the Second World War More than a narrative history of the period an analysis of British policy or a description of counter insurgency operations this book lays out an examination of the underpinnings of the enosis cause and its manifestation in action It argues that the strategic myopia of the enosis movement shackled the cause defined its conduct and was the primary reason for its failure Divided and occupied Cyprus and the world deal with its unresolved legacy to this day **Cults and Rites in Ancient Greece** , A Place in History Michael Herzfeld, 2020-11-10 Michael Herzfeld describes what happens when a bureaucracy charged with historic conservation clashes with a local populace hostile to the state and suspicious of tourism Focusing on the Cretan town of Rethemnos once a center of learning under Venetian rule and later inhabited by the Turks he examines major questions confronting conservators and citizens as they negotiate the ownership of history Who defines the past To whom does the past belong What is traditional and how is this determined Exploring the meanings of the built environment for Rethemnos s inhabitants Herzfeld finds that their interest in it has more to do with personal histories and the immediate social context than with the formal history that attracts the conservators He also investigates the inhabitants

social practices from the standpoints of household and kin group political association neighborhood gender ideology and the effects of these on attitudes toward home ownership In the face of modernity where tradition is an object of both reverence and commercialism Rethemnos emerges as an important ethnographic window onto the ambiguous cultural fortunes of Greece

Human Landscapes in Classical Antiquity John Salmon, Graham Shipley, 2013-02-01 Human Landscapes in Classical Antiquity shows how today's environmental and ecological concerns can help illuminate our study of the ancient world The contributors consider how the Greeks and Romans perceived their natural world and how their perceptions affected society The effects of human settlement and cultivation on the landscape are considered as well as the representation of landscape in Attic drama Various aspects of farming such as the use of terraces and the significance of olive growing are examined The uncultivated landscape was also important hunting was a key social ritual for Greek and hellenistic elites and wild places were not wastelands but played an essential economic role The Romans attempts to control their environment are analyzed This volume shows how Greeks and Romans worked hand in hand with their natural environment and not against it It represents an outstanding collaboration between the disciplines of history and archaeology

The Plain of Phaistos Harriet Blitzer, Despoina Hadzi-Vallianou, L. Vance Watrous, 2005-02-01 The Plain of Phaistos presents the results on an interdisciplinary regional field project 1984-1987 carried out on the island of Crete This volume traces the changing patterns of settlement and cycles of social complexity from the Late Neolithic period to the present day within the heartland of the state of Phaistos The authors and contributors publish geological archaeological environmental botanical historical and ethnographic studies that establish the regional identity of the Western Mesara Using a combination of empirical processual and post processual theoretical approaches the volume investigates a central problem how and why did the Bronze Age and Classical states arise at Phaistos
