Regional Development In Greece:

Regional Development in Greece Nikolaos Konsolas, A. Papadaskalopoulos, I. Plaskovitis, 2002-01-11 This book is based on the Regional Section of the Development Plan 2000 2006 prepared by the Regional Development Institute according to the Greek Ministry of National Economy's directions and available data. The different development proposals coming from the Country's Regions were also taken into account. The information contained in the Regional Development Institute's database and the conclusions of the studies made by the Institute's collaborators were also used. The thematic maps in this edition were also produced by the Regional Development Institute's GIS Geographical Information System laboratory. The Development Plan 2000 2006 was submitted by the Ministry of National Economy to the European Union in September 1999 and represents the basis for the 3rd Community Support Framework's acceptance. The book is organized into four parts. Part one contains six chapters reflecting the evolution of the Greek and European Regional Policy as well as the trends for the coming period. More specifically the first part refers to the Greek Regional Policy of the 1950 1985 period, the EEC Regional Policy, the twenty years of Operational Programme 1986 2006, the evolution of the main objectives and priorities for this period, the evolution of means and processes and the new trends in Regional Policy and Planning. In the second part the basic figures and trends of Regional Development in Greece are analysed. Specifically we refer here to the population concentration, the regional distribution of GDP, the employment and unemployment rates and the sector specialisation.

Regional Analysis and Policy Harry Coccossis, Yannis Psycharis, 2009-08-29 Regional development is attracting the attention of policy makers and scientists again as regions, urban centers and rural areas experience substantial pressures particularly in Europe as a consequence of globalization and geopolitical changes which lead to changes in spatial structures and dynamics. This book is based on the contributions of Greek regional science research presented at the 2006 Congress of the European Regional Science Association at Volos, Greece. The contributions selected to be presented in this book address these changes, offering a fresh look into regional development. They provide an overview of regional development concerns from Greek regional scientists but the issues discussed pervade Greek particularities and stimulate thinking about regional science, regional development and regional policy in the early twenty-first century.

and regional policy in the early twenty first century *Agriculture and Regional Development in Greece* Dimitrios Kyrkilis, Simeon Semasis, 2012 This paper attempts to explore the effects of post war economic development model followed in Greece The model is characterized by both the neglect of Greek agriculture and the emphasis on industrialization mainly around the two major cities Athens and Thessaloniki The model has to develop a strong industrial sector but to inflate services and it devastated agriculture At the regional level the uneven growth path that has been adopted perpetuated between urban and tourist areas on the one hand and the rural regions on the other **OECD Territorial Reviews Regional Policy for Greece Post-2020** OECD, 2020-10-01 The Territorial Review of Greece offers analysis and policy guidance to strengthen regional development and well being It examines Greece s regional development framework the EU Cohesion policy and multilevel governance in Greece Since the global financial crisis Greece has undertaken an impressive number of structural reforms Recovery initiated in 2017 but the current COVID 19 pandemic is slowing down Greece s efforts **Problems of Greek Regional Development** Benjamin N. Ward, 1962 *Regional Prospects in Greece* Nicholas Konsolas, 1993 **Greece** Antonis Tritsis, 1963 OECD Territorial Reviews Regional Policy for Greece Post-2020 Oecd, 2020-10-05 The Territorial Review of Greece offers analysis and policy guidance to strengthen regional development and well being It examines Greece s regional development framework the EU Cohesion policy and multilevel governance in Greece Since the global financial crisis Greece has undertaken an impressive number of structural reforms Recovery initiated in 2017 but the current COVID 19 pandemic is slowing down Greece s efforts The country is now facing a number of strategic development priorities including fostering digitalisation improving entrepreneurial and business ecosystems and addressing environmental challenges These new priorities must also tackle existing social challenges and mitigate rising inequalities The Review examines a range of policies that have the potential to propel inclusive growth in Greece s regions and improve the quality of life for their residents It stresses that policies for economic growth social capital and environmental sustainability are more effective when they recognise the different economic and social realities where people live and work OECD work illustrates the importance to align place based regional development strategies with sectoral policies support for private investment infrastructure and human capital policies in each place to generate multiplier effects To fulfil this task Greece will need to continue advancing the reform of its institutional and fiscal multi level governance system **Regional Development**, 1982 *Regional development in Greece* Nikolaos G. Vagionis, 1994 **Social and Political Concepts of Regional Development in Greece** Andreas Athinaios, 1978 **Greece in the European Union** Dionyssi G. Dimitrakopoulos, Argyris G. Passas, 2004-02-24 The contributors collected here discuss the patterns of continuity and change success and failure observed in seven policy areas environment social regulation regional policy the single market agriculture EMU and foreign policy in order to investigate how policy formulated and implemented in Greece has changed as a result of EU membership why Greek authorities have managed to implement EU policy more successfully in some policy

areas than in others and whether Greek public opinion vis vis the EU changed over time This book argues that although the widely held belief that Greece is a laggard in a number of policy areas is not inaccurate the pattern of Greek membership of the EU is much more complex not least because it contains success stories It will be of interest to students and researchers of the European Union public policy and Greek politics OECD Territorial Reviews: Tzoumerka, Greece 2002

OECD,2002-02-21 OECD s territorial review of the Tzoumerka region of Greece Greece's Horizons Pantelis Sklias,Nikolaos Tzifakis,2013-04-12 The Greek economic crisis has imperilled the stability of the eurozone generating much global anxiety Policymakers analysts and the media have daily debated the course of the Greek economy prescribing ways to move forward This collection of essays progressively moves from an analysis of the causes of the crisis and the policy responses so far to a debate on some of the country s advantages and capabilities that should underpin its new development model and propel the return to growth The book analytically chooses to view the glass as half full and seeks to provide motivation and inspiration for change by indicating some of the economic sectors where Greece maintains a comparative advantage Therefore it challenges the emerging picture of Greece as a country doomed to failure where everything falls apart **Horizontal Intergovernmental Coordination at Local and Regional Levels** Nathalie Behnke,Bettina

Petersohn,2025-09-30 The most pressing policy challenges of our time require complex and coordinated strategies that transcend territorial borders Issues such as climate mitigation sustainable development and the migration crisis all require policy solutions that compel sub national governments at regional and local level to coordinate intensely with others across policy sectors territorial units and state boundaries Yet horizontal coordination is often rendered difficult due to complexities and high transaction costs both in terms of time and effort Adopting a comparative approach this open access volume provides a unifying perspective and a shared conceptual tool kit for analysing the nature intricacies and possibilities of horizontal coordination at local and regional level It also offers guidelines and recommendations for achieving coordination in everyday policymaking Bringing together scholars and practitioners from twenty European countries the book provides profound insights into patterns of horizontal coordination across the continent It will appeal to scholars and students of public administration public policy governance and territorial politics as well as practitioners and policy makers

European Socio-Economic Integration Elias G. Carayannis,George M. Korres,2012-12-06 Economic integration is one of the most noteworthy issues in international economic policy at the end of the twentieth century The recent examples of the European Union EU and the North American Free Trade Association NAFTA have raised important questions about the economic integration process and the possible establishment of economic unions in other parts of the world Against the backdrop of the financial crisis in Europe and prospects of increasing integration in Asia this volume showcases research from an international array of researchers to provide a basic understanding of the current issues problems challenges and opportunities for achieving integration addressing both empirical and theoretical aspects of such topics as monetary union

social policy reform and social union public finance and technology policy The chapters in Part 1 are focused primarily on economic issues while Part 2 covers on social policy the welfare state and political reforms with a particular emphasis on the European Union Among the questions addressed What are the main determinants and implications for socio economic integration How can economic policy influence the growth and integration process Why is innovation important for regional economic development What has been the policy response so far and what lessons have we learned from it And finally what are our action lines for the future Eurasian Economic Perspectives Mehmet Huseyin Bilgin,Hakan Danis,Ender Demir,Sofia Vale,2021-01-12 This book gathers selected papers from the 29th Eurasia Business and Economics Society EBES Conference held in Lisbon Portugal While the theoretical and empirical papers presented cover diverse areas of economics and finance in various geographic regions the main focus is on the latest research concerning accounting audits banking the economics of innovation and empirical studies on emerging economies and international trade Studies on labor economics and public economics as well as regional studies round out the coverage Greek Agriculture in a Changing International Environment Dimitris Damianos,Efthalia Dimara,Katharina Hassapoyannes,Dimitris Skuras,2018-12-21 Published in 1998 the aim of this text is to promote awareness of the evolution of Greek agriculture as well as of the development of national strategies in conformity with the Common Agricultural Policy provision which is important for a successful confrontation of modern and prospective international challenges It offers a case study developing integrated policies for unemployment for prevention of diversification of rural areas and for provision of solutions to the problem of increasing competition while enhancing environmental quality and making rational use of productive resources The Impact of European Integration on Regional Structural Change and Cohesion Christiane Krieger-Boden,Edgar Morgenroth,George Petrakos,2008-03-31 Edited by three European editors and spanning across Europe this excellent study focuses on the effects of the European integration process on the inter regional division of labour in both western and Eastern European countries Using extensive empirical analysis of the changes of regional specialization over a period of two decades observing its
