Regionalism And Multilateralism Ebays On Cooperative Security In The Asia Pacific:

Regionalism and Multilateralism Amitav Acharya, 2003 These essays written between 1990 and 2000 cover the most significant phase of multilateral institution building in the Asia Pacific region They deal with the emergence of regionalism in Southeast Asia ASEAN s transition to the post Cold War era the role of the ASEAN Regional Forum the engagement of China the changing relationship between sovereignty and regionalism and prospects for the regional institutions such as ASEAN APEC and the ARF after the Asian economic crisis The essays address the most challenging issues of regional order and articulate an institutionalist understanding of international relations in the region This updated second edition includes four new chapters and two revised chapters *Multilateralism* Amitav Acharya, 1997 Asia-Pacific Security Cooperation: National Interests and Regional Order See Seng Tan, 2014-12-18 New developments in the Asia Pacific are forcing regional officials to rethink the way they manage security issues The contributors to this work explore why some forms of security cooperation and institutionalisation in the region have proven more feasible than others This work describes the emergence of the professions in late tsarist Russia and their struggle for autonomy from the aristocratic state It also examines the ways in which the Russian professions both resembled and differed from their Western counterparts Contested Multilateralism 2.0 and Asian Security Dynamics Kai He, 2020-04-28 In the 1990s there was a wave of multilateralism in the Asia Pacific led primarily by ASEAN Since the Global Financial Crisis of 2008 however many non ASEAN states have attempted to seize the initiative including the USA Japan China South Korea and Australia Kai He and his contributors debate the reasons for this contested multilateralism and the impacts it will have on the region s security and political challenges Will the Indo Pacific turn be a blessing or a curse for regional stability and prosperity Using a diverse range of theoretical and empirical perspectives these leading scholars contribute views on this question and on the diverse strategies of the great and middle powers in the region This collection will be of great interest to scholars and students of international relations in the Asia Pacific and of great value to policy makers in the region and beyond **Pacific Cooperation** John Ravenhill, Vinod Aggarwal, Paul M Evans, Pauline Kerr, 2019-06-20 Long divided by cultural economic and political differences the Asia Pacific region has little history of multilateral cooperation Alliances that once linked individual countries with one or the other superpower fostered deep mistrust among neighbouring states The end of the Cold War however has created new opportunities for multilateral coo Emerging Asian-Pacific Multilateralism Vladimir I. Ivanov, 1992 *Asia-Pacific Security* Jing Dong Yuan, 2000 *Asia's New Multilateralism* Michael J. Green, Bates Gill, 2009-02-25 Traditionally stability in Asia has relied on America s bilateral alliances with Japan Australia and the Republic of Korea Yet in recent years emergent and more active multilateral forums such as the Six Party Talks on North Korea and the East Asia Summit have taken precedence engendering both cooperation and competition while reflecting the local concerns of the region Some are concerned that this process is moving toward less inclusive bloc based talking shops and that the future direction and

success of these arrangements along with their implications for global and regional security and prosperity remain unclear. The fifteen contributors to this volume all leading scholars in the field provide national perspectives on regional institutional architecture and their functional challenges. They illuminate areas of cooperation that will move the region toward substantive collaboration, convergence of norms and strengthened domestic institutions. They also highlight the degree to which institution building in Asia, a region composed of liberal democracies, authoritarian regimes and anachronistic dictatorships, has become an arena for competition among major powers and conflicting norms and assess the future shape of Asian security architecture.

Bilateralism, Multilateralism and Asia-Pacific Security William Tow, Brendan Taylor, 2013-09-02. Many scholars of international relations in Asia regard bilateralism and multilateralism as alternative and mutually exclusive approaches to security cooperation. They argue that multilateral associations such as ASEAN will eventually replace the system of bilateral alliances which were the predominant form of U.S. security cooperation with Asia-Pacific allies during the Cold War. Yet these bilateral alliances continue to be the primary means of the United States' strategic engagement with the region. This book contends that bilateralism and multilateralism are not mutually exclusive and that bilateralism is likely to continue strong even as multilateralism strengthens. It explores a wide range of issues connected with this question. It discusses how U.S. bilateral alliances have been reinvigorated in recent years, examines how bilateral and multilateral approaches to specific problems can work alongside each other and concludes by considering how patterns of international security are likely to develop in the region in the future.
