W. King, 2005-10 This is something different Rather than being a book about Reiki for the general public to read this is a copy of the actual training manual given to First Degree students of Reiki Evolution the well known UK Reiki training organisation The manual is different for several reasons Firstly it is easy to

read down to earth and really comprehensive a complete and clear guide to the practice of Reiki at First Degree ideal for people finding out about Reiki for the first time and ideal for practitioners and Master alike The manual is all about Reiki and Reiki alone rather than about various New Age practices that have crept into Reiki over the years like crystals and Angels and spirit guides And rather than presenting the Western style of Reiki that is covered in most Reiki books on the market usually described as traditional Usui Reiki this manual focuses on the form of Reiki that was taught by Reiki s founder Mikao Usui in the 1920s in Japan and is based on information coming from a group of elderly students of Reiki s founder In its original form Reiki was not so much a treatment method as a simple self healing and self spiritual development method which could potentially be used on other people So in this manual you will learn authentic energy practices that you can use on yourself each day to further your self healing and your spiritual development you will focus on the Reiki precepts in their original form not the altered Western version and you will learn about the role of mindfulness in the original system The manual presents a wealth of background information about Reiki including an up to date history of Reiki and you will also learn a simple and non dogmatic approach to working on yourself and treating others Many people attending Reiki courses do not receive any sort of a course manual or perhaps just a few sheets of paper and the Reiki Evolution Shoden manual will be of great help to those who have already learned Reiki but who want to have more of a solid introduction to the subject or who want to learn more about the system that Reiki s founder was teaching rather than the Western version taught on most Reiki courses It also provides a comprehensive introduction to Reiki for those who are interested in finding out about Reiki for the first time

The Hayashi Reiki Manual Frank Arjava Petter,2003-06-13 The manual consists of the story of Dr Hayashi including unpublished photos and main exercises of the Hayashi Reiki system

Reiki William Lee Rand,2000 Reiki a technique for stress reduction that also promotes healing allows everyone to tap into an unlimited supply of life energy The system of Reiki that became popular in the West was developed by Mikao Usui Sensei a Japanese Buddhist in 1922 23 It creates many beneficial effects including relaxation and feelings of peace security and well being Many have reported miraculous results Hospitals and doctors offices are beginning to include it as part of their therapy and this new edition describes several successful approaches now being used across the country to integrate Reiki into patient care This revised and expanded edition includes important new information on the theory and practice of Reiki including the Japanese Reiki techniques taught by Usui Sensei as well as the Hayashi Healing Guide Also included are pictures of the Usui Memorial in Tokyo and of Kurama Yama the sacred mountain where Reiki was rediscovered This book is a must for anyone wanting the latest information on Reiki Its referenced history of Reiki contains the most detailed and verifiable information currently available Written with inspiration clarity and vitality it captures the essence of Reiki and is an excellent introduction to the subject as well as a user friendly manual for the experienced practitioner
