Reinventing the West Ansel Adams, Robert Adams, Allison N. Kemmerer, John R. Stilgoe, 2001 In 1976 Robert Adams shot Fort Collins Colorado a nighttime picture of a lone tree in a Colorado parking lot the crescent moon hanging in the sky above More than 30 years earlier Ansel Adams had captured Moonrise Hernandez New Mexico showing a magnificent vista of desert scrub and clustered buildings snow capped mountains in the distance the full moon majestically presiding in the expansive sky overhead These two pictures could be neither more different nor more similar nor could the younger Adams have made his photograph without knowledge of his greatly admired predecessor s If Ansel Adams created singular images in search of a platonic ideal of nature Robert Adams explored repetition and conformity both were responding in their own personal and aesthetic way to the landscape of the American West The first book to juxtapose bodies of work by these two 20th century master photographers *Reinventing the West* reveals how their photographs reflect changing attitudes toward the western landscape and the natural world **Encyclopedia of Twentieth-Century Photography, 3-Volume Set** Lynne Warren, 2005-11-15 The Encyclopedia of Twentieth Century Photography explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner This unique approach covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force This Encyclopedia presents the important developments movements photographers photographic institutions and theoretical aspects of the field along with information about equipment techniques and practical applications of photography To bring this history alive for the reader the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included *The Grove Encyclopedia of American Art* Joan M. Austin's Taos Pueblo was awarded the 2010 Arthur Miller Essay Prize. This book offers a collection of essays on the interface between literature and photography as exemplified in important North American texts. The National Park to Come Margret Grebowicz, 2015-03-11. Historians of wilderness have shown that nature reserves are used ideologically in the construction of American national identity. But the contemporary problem of wilderness demands examination of how profoundly nature in reserve influences something more fundamental, namely, what counts as being well, having a life and having a future. What is wellness for the citizens to whom the parks are said to democratically belong? And how does the presence of foreigners threaten this wellness? Recent critiques of the Wilderness Act focus exclusively on its ecological effects, ignoring the extent to which wilderness policy affects our contemporary collective experience and political imagination. Tracing the challenges that migration and indigenism currently pose to the national park system and the Wilderness Act, Grebowicz foregrounds concerns with social justice against the ecological and aesthetic ones that have created and continue to shape these environments. With photographs by Jacqueline Schlossman. *BRICS or Bust?* Hartmut Elsenhans, Salvatore Babones, 2017-09-12. Once among the fastest developing economies, growth has slowed or stalled in Brazil, Russia, India, China, and South Africa. What policies can governments enact to jumpstart the rise of these middle-income countries? Hartmut Elsenhans and Salvatore Babones argue that economic catch-up requires investment in the productivity of ordinary citizens. Diverging from the popular narrative of increased liberalization, this book argues specifically for direct government investment in human infrastructure, policies that increase wages and the bargaining power of labor, and the strategic use of exchange rates to encourage export-led growth. These measures raise up the majority and finance future productivity by driving broader consumption and fostering investment within national borders. Though strategies like full employment, mass education, and progressive taxation are not especially controversial, none of the BRICS have truly embraced them. Examining barriers to implementation, Elsenhans and Babones find that the main obstacle to such reforms is an absence of political will stemming from closely guarded elite privilege under the current laws. *BRICS or Bust* is a short, incisive read that underscores the need for demand-driven growth and why it has yet to be achieved. **Ansel Adams** Ansel Adams, Karen E.
