Rejuvenating The Humanities:

Rejuvenating the Humanities Ray Broadus Browne, Marshall William Fishwick, 1992 The humanities are the human elements in any culture In the West these humanities have ordinarily been anchored in and derivative of Eurocentric culture and have been centered on elite and art related subjects As such they have strengthened and perpetuated elite culture and have been restricted and narrow in their point of view They have enervated the modern humanities which in a democratic society insist on having democratic humanities Democratic humanities demand a new point of view which demands respect for and dignity to the common aspects of culture as well as inclusion of those elements It is time the call went ringing through the land The Old is Sick Please Bring Assistance Rejuvenate the humanities The essays in this volume are Assistance an effort to demonstrate the inalienable need for new subjects in the humanities canon and the value of those subjects as parts of the New Humanities The twenty essays in this effort to bring new vitality to the humanities range through fields familiar in life but unfamiliar in the humanities canon They include leisure folk cultures material culture pornography comics animal rights Black studies travelling and of course the bugbear of academics television The authors include some of the outstanding scholar observers of today all of whom address their subjects in cool dispassionate and convincing reason The subject of revitalizing the Humanities is important indeed This volume will go a long way toward alerting the intellectual community to the desperate need to bring new understanding to the study of the modern humanities **Eye on the Future**

Marilyn Ferris Motz, 1994 Emerging from the conference on The Future of Popular Culture Studies in the Twenty First Century held in June of 1992 at Bowling Green Ohio to honor the academic career of Ray Browne retired chair Department of Popular Culture Bowling Green State U and to chart Popular Culture Studies into the next century this collection of essays includes five of Browne s signal articles and a Ray Browne bibliography Paper edition unseen 18 95 Annotation copyright by Book News Inc Portland OR **Gatsby** Bob Batchelor, 2013-11-07 In 1925 F Scott Fitzgerald produced his third novel a slim work for which he had high expectations Despite such hopes the novel received mixed reviews and lackluster sales Over the decades however the reputation of The Great Gatsby has grown and millions of copies have been sold One of the bestselling novels of all time it is also considered one of the most significant achievements in twentieth century fiction But what makes Gatsby great Why do we still care about this book more than eighty five years after it was published And how does Gatsby help us make sense of our own lives and times In Gatsby The Cultural History of the Great American Novel Bob Batchelor explores the birth life and enduring influence of The Great Gatsby from the book s publication in 1925 through today s headlines filled with celebrity intrigue corporate greed and a roller coaster economy A cultural historian Batchelor explains why and how the novel has become part of the fiber of the American ethos and an important tool in helping readers to better comprehend their lives and the broader world around them A biography of F Scott Fitzgerald s masterpiece this book examines The Great Gatsby s evolution from a nearly forgotten 1920s time capsule to a revered cultural touchstone Batchelor

explores how this embodiment of the American Dream has become an iconic part of our national folklore how the central themes and ideas emerging from the book from the fulfillment of the American Dream to the role of wealth in society resonate with contemporary readers who struggle with similar uncertainties today By exploring the timeless elements of reinvention romanticism and relentless pursuit of the unattainable Batchelor confirms the novel's status as The Great American Novel and more importantly explains to students scholars and fans alike what makes Gatsby so great French Cultural Studies Marie-Pierre Le Hir, Dana Strand, 2000-06-22 Addresses the theoretical and pedagogical implications of redefining French Studies as an interdisciplinary field while providing practical examples of the kind of criticism that such a shift would entail *Pioneers in Popular Culture Studies* Ray Broadus Browne, Michael T. Marsden, 1999 Contains informal interviews with 13 significant figures in the development of the field of popular culture studies The interviews explore the academic revolution inaugurated in the late 1960s and early 1970s in the fields of the humanities and social sciences with the founding and subsequent influence of the Popular Culture Association and American Culture Association and the interviewees' thoughts about the changes Annotation copyrighted by Book News Inc Portland OR Teaching with Harry Potter Valerie Estelle Frankel, 2013-02-06 The Harry Potter phenomenon created a surge in reading with a lasting effect on all areas of culture especially education Today teachers across the world are harnessing the power of the series to teach history gender studies chemistry religion philosophy sociology architecture Latin medieval studies astronomy SAT skills and much more These essays discuss the diverse educational possibilities of J K Rowling's books Teachers of younger students use Harry and Hermione to encourage kids with disabilities or show girls the power of being brainy scientists Students are reading fanfiction splicing video clips or exploring Rowling's new website Pottermore Harry Potter continues to open new doors to learning Cultural Conservatism, Political Liberalism James Seaton, 1996 Examines whether cultural studies has been too dismissive of the tradition of literary cultural criticism that preceded it *The Language of Comics: Word and Image* Robin Varnum, Christina T. Gibbons, 2001 Communication Booknotes, 1992 *The Mathematical Imagination* Matthew Handelman, 2019-03-05 This book offers an archeology of the undeveloped potential of mathematics for critical theory As Max Horkheimer and Theodor W Adorno first conceived of the critical project in the 1930s critical theory steadfastly opposed the mathematization of thought Mathematics flattened thought into a dangerous positivism that led reason to the barbarism of World War II The Mathematical Imagination challenges this narrative showing how for other German Jewish thinkers such as Gershom Scholem Franz Rosenzweig and Siegfried Kracauer mathematics offered metaphors to negotiate the crises of modernity during the Weimar Republic Influential theories of poetry messianism and cultural critique Handelman shows borrowed from the philosophy of mathematics infinitesimal calculus and geometry in order to refashion cultural and aesthetic discourse Drawn to the austerity and muteness of mathematics these friends and forerunners of the Frankfurt School found in mathematical approaches to negativity strategies to capture the marginalized

experiences and perspectives of Jews in Germany Their vocabulary in which theory could be both mathematical and critical is missing from the intellectual history of critical theory whether in the work of second generation critical theorists such as Jürgen Habermas or in contemporary critiques of technology The Mathematical Imagination shows how Scholem Rosenzweig and Kracauer's engagement with mathematics uncovers a more capacious vision of the critical project one with tools that can help us intervene in our digital and increasingly mathematical present The Mathematical Imagination is available from the publisher on an open access basis

Congress. House. Committee on Appropriations. Subcommittee on Department of the Interior and Related Agencies,1987 **Envisioning the Future of Doctoral Education** Chris M. Golde,George E. Walker,2006-01-30 The development of students as stewards of the discipline should be the purpose of doctoral education A steward is a scholar in the fullest sense of the term someone who can imaginatively generate new knowledge critically conserve valuable and useful ideas and responsibly transform those understandings through writing teaching and application Stewardship also has an ethical and moral dimension it is a role that transcends a collection of accomplishments and skills A steward is someone to whom the vigor quality and integrity of the field can be entrusted The most important period of a steward s formation occurs during formal doctoral education Envisioning the Future of Doctoral Education is a collection of essays commissioned for the Carnegie Initiative on the Doctorate The question posed to the essayists in this volume was If you could start de novo what would be the best way to structure doctoral education in your field to prepare stewards of the discipline The authors of the essays are respected thinkers researchers and scholars who are experienced with and thoughtful about doctoral education The essays in this lively and provocative volume focus on six fields of study chemistry education English history mathematics and neuroscience Three commentaries look across the broad themes of the essays and consider the implications for action for institutional leaders faculty members and graduate and postdoctoral students Each of the book s essayists consider the goals and purposes of doctoral education in their particular field and offer new and invigorating ideas about the doctorate Taken together the essays in the volume provide opportunities to compare and contrast doctoral education among the disciplines The essays provide ideas for fruitful practice a perspective on doctoral education as a larger enterprise and visions of what is possible for the future *Department of the Interior and related agencies appropriations for 1988* United States. Congress. House. Committee on Appropriations. Subcommittee on Department of the Interior and Related Agencies,1987 *The Self-assertion of Chinese Academia and Marxist Philosophy* WU Xiaoming,2021-09-29 From a Marxist philosophical perspective this collection of essays investigates the maturing self consciousness and self assertion of Chinese academia especially within the humanities and social sciences permitting more penetrating insights and critical engagement with the social reality of China The author elaborates on the relationship between Hegel and Marx s philosophy and their concepts of reality thereby accounting for the historic and philosophical conditions for the autonomy of Chinese academia Drawing on intellectual resources from both Eastern and Western archives including phenomenology philosophical hermeneutics Western Marxism and China s pacifist tradition the book refutes Huntington s speculation about Chinese imperialism and delineates how China s development can contribute to a fundamental critique of capitalist civilisation and a new paradigm of global governance In addition the book challenges the thinking of Chinese neo liberals and nationalist conservatives and their understandings of

the history and social reality of China Hence the author advocates a reconstruction of the spiritual and intellectual realm within society based on Marxism in order to counter Sinophobia neo liberalism and nationalism at the same time The book will appeal to readers interested in social and political philosophy philosophy of history Marxism and China studies
