Religion And Politics In Spain The Spanish Church In Transition 1962 96:

Religion and Politics in Spain Audrey Brassloff, 1998 Having disengaged from Francoism the Spanish Church embraced democracy but found itself somewhat at odds with various aspects of the modernisation process This volume examines the political history of the Spanish Church since 1962

Religion and Politics in Spain A. Brassloff, 1998-06-17 An examination of the Spanish Church in transition over recent decades as it responded to far reaching societal change Having disengaged from Francoism it embraced democracy but found itself somewhat at odds with various aspects of the modernisation of Spain the ongoing process of secularisation and the supermarket approach to doctrine of its own membership In its goal of maintaining influence its long established strategy of alliances with secular political and socio economic power groups became pointless in a society not so much hostile as indifferent to institutionalised religion The challenges facing the Spanish Church are placed in the context of Vatican and grassroots Church developments as well as within the sweep of Spanish history

Religion and Politics in Comparative Perspective Ted Gerard Jelen, Clyde Wilcox, 2002-04 This book examines religion and politics in diverse countries or regions

The Catholic Church and the Nation-State Paul Christopher Manuel, Lawrence C. Reardon, Clyde Wilcox, 2006-08-16 Presenting case studies from sixteen countries on five continents The Catholic Church and the Nation State paints a rich portrait of a complex and paradoxical institution whose political role has varied historically and geographically In this integrated and synthetic collection of essays outstanding scholars from the United States and abroad examine religious diplomatic and political actions both admirable and regrettable that shape our world Kenneth R Himes sets the context of the book by brilliantly describing the political influence of the church in the post Vatican II era There are many recent instances the contributors assert where the Church has acted as both a moral authority and a self interested institution in the United States it maintained unpopular moral positions on issues such as contraception and sexuality yet at the same time it sought to cover up its own abuses it was complicit in genocide in Rwanda but played an important role in ending the horrific civil war in Angola and it has alternately embraced and suppressed nationalism by acting as the voice of resistance against communism in Poland whereas in Chile it once supported opposition to Pinochet but now aligns with rightist parties With an in depth exploration of the five primary challenges facing the Church theology and politics secularization the transition from serving as a nationalist voice of opposition questions of justice and accommodation to sometimes hostile civil authorities this book will be of interest to scholars and students in religion and politics as well as Catholic Church clergy and laity By demonstrating how national churches vary considerably in the emphasis of their teachings and in the scope and nature of their political involvement the analyses presented in this volume engender a deeper understanding of the role of the Roman Catholic Church in the world

The Changing Face of Motherhood in Spain Catherine Bourland Ross, 2015-12-24 This book investigates the perceptions of motherhood in Spanish author Luc a Etxebarria s fiction and offers views of the importance of motherhood in society Traditional expectations for women as

mothers persist despite the fact that they no longer match Spain's cultural and economic reality. These issues of gender equality and societal perceptions stand out in the novels and screenplays of Etxebarria. Her work at times resists and at times affirms patriarchal constructs associated with traditional Spanish motherhood and ultimately I argue enacts the very complexity of contemporary Spanish motherhood ideals. By showing the tension between the past constructs of the mother and the possible future outcomes of gender equality, Etxebarria's works navigate the complexity between past and future, illuminating the current and future uncertainties and the ambivalent nature of change. Each chapter views motherhood from a different perspective and focuses on particular works of Etxebarria. Through the depiction of a variety of mother characters, these different perspectives as showcased in Etxebarria's narratives together compose an understanding of Spanish maternal identity.

Christianity and democratisation John Anderson, 2013-07-19. This book examines the contribution of different Christian traditions to the waves of democratisation that have swept various parts of the world in recent decades. It offers a historical overview of Christianity's engagement with the development of democracy before focusing in detail on the period since the 1970s. Successive chapters deal with the Roman Catholic conversion to democracy and the contribution of that church to democratisation, the Eastern Orthodox hesitation about democracy, the alleged threat to American democracy posed by the politicisation of conservative Protestantism and the likely impact on democratic development of the global expansion of Pentecostalism. The author draws out several common themes from the analysis of these case studies, the most important of which is the liberal democracy paradox. This ensures that there will always be tensions between faiths that proclaim some notion of absolute truth and political orders that are rooted in the idea of compromise, negotiation and bargaining. Written in an accessible style, this book will appeal to students of politics, sociology and religion and prove useful on a range of advanced undergraduate and postgraduate courses.

Juan Carlos Paul Preston, 2004-06-29. Preston explores the political and personal mysteries of the former Spanish monarch's life in a story of unprecedented sweep and exquisite detail which is at once a history of modern Spain and an indispensable exegesis of how democracies come to be.

Working on Rights Anna Delius, 2023-11-20. This book is the first to connect global labor history and the history of human rights. By focusing on democratic labor oppositions in Spain and Poland between 1960 and 1990, it shows how workers in authoritarian regimes addressed repression and whether they developed a language of rights in the light of a globally dynamic human rights discourse. The study argues that the democratic labor oppositions in Spain and Poland were both variants of emancipatory and democracy-oriented social movements with global interconnections that emerged in the 1960s. It reveals that the demands for free and independent trade unions, which in both countries became a flashpoint in the fight for broader democratic demands, was not always discussed in rights terms but rather presented as an inevitable necessity. At the same time, these labor movements and their intellectual allies morally delegitimized state repression against workers and thereby employed the concepts of democracy.

One day in 1599 in the Spanish village of Saria seven year old Maria Angela Astorch fell ill and died after gorging herself on unripened almonds Maria s sister Isabel a nun came to view the body with her mother superior an ecstatic mystic and visionary named Maria Angela Serafina Overcome by the sight of the dead girl s innocent face Serafina began to pray fervently for the return of the child s soul to her body Entering a trance she had a vision in which the Virgin Mary gave her a sign At once little Maria Angela started to show signs of life A moment later she scrambled to the ground and was soon restored to perfect health During the Counter Reformation the Church was confronted by an extraordinary upsurge of feminine religious enthusiasm like that of Serafina Inspired by new translations of the lives of the saints devout women all over Catholic Europe sought to imitate these athletes of Christ through extremes of self abnegation physical mortification and devotion As in the Middle Ages such women s piety often took the form of ecstatic visions revelations voices and stigmata Stephen Haliczzer offers a comprehensive portrait of women s mysticism in Golden Age Spain where this enthusiasm was nearly a mass movement The Church s response he shows was welcoming but wary and the Inquisition took on the task of winnowing out frauds and imposters Haliczzer draws on fifteen cases brought by the Inquisition against women accused of feigned sanctity and on more than two dozen biographies and autobiographies The key to acceptance he finds lay in the orthodoxy of the woman s visions and revelations He concludes that mysticism offered women a way to transcend though not to disrupt the control of the male dominated Church **Religion and Politics** John W. Storey,Glenn H. Utter,2002-02-01

Focusing on religions such as Islam and Buddhism this volume shows how religion influences politics and vice versa Delving into such subjects as the separation of church and state in the United States the domination of the state by religion in Iran and the control of religion by the state in China this survey illuminates cultural differences This book gives a revealing look at the numerous relationships between religion and politics In the Church of England for example the 26 most senior Anglican bishops have seats in the House of Lords Religion and Politics also includes biographical sketches of thinkers and doers whose careers intersected religion and politics in significant ways from the Berrigan brothers to Osama bin Laden Also included are data and quotes a directory of politically active religious groups and a 150 page annotated bibliography

Confessional Cinema Jorge Perez,2017-06-16 In Confessional Cinema Jorge P rez analyzes how cinema engaged the shifting role of religion during the last fifteen years of Francisco Franco s dictatorship P rez interrogates the assumption that after 1957 when the Franco regime recast itself in a secular and modernizing fashion religion vanished from the cultural field Instead Spanish cinema addressed the transformation within Spanish Catholicism following Vatican II and Spain s modernization processes Confessional Cinema offers the first analysis of a neglected body of Spanish films nun films which

focus on the active role of religious women in the transformation of Spanish Catholicism Pérez argues that commercial films despite being less aesthetically accomplished delved more than oppositional art house films into the fluctuating zeitgeist of the development years regarding the transformations within Spanish Catholicism Confessional Cinema offers a provocative and original analysis of the significance of religion not from a theological point of view but rather as a socio political force and cultural determinant in the Spanish public sphere of this period known as desarrollismo development years from 1960 1975

Religion and Regimes Mehran Tamadonfar, Ted G. Jelen, 2013-11-26 This work is a collection of essays that describe and analyze religion and regime relations in various nations in the contemporary world The contributors examine patterns of interaction between religious actors and national governments that include separation support and opposition In general the contributors find that most countries have a majority or plurality religious tradition which will seek a privileged position in public life The nature of the relationship between such traditions and national policy is largely determined by the nature of opposition A pattern of quasi establishment is most common in settings in which opposition to a dominant religious tradition is explicitly religious However in some instances the dominant tradition is associated with a discredited prior regime in which a pattern of legal separation is most common Conversely in some nations a dominant religion is for historical reasons strong associated with national identity Such regimes are often characterized by a lazy monopoly in which the public influence of religion is reduced

The Rise of the Left in Southern Europe Sotiris Rizas, 2015-10-06 This study looks at the influence of the Anglo American special relationship on the rise of the left in southern Europe and concurrent European influence on the Atlantic alliance

The Secular and the Sacred William Safran, 2004-08-02 What is the place of religion in modern political systems This volume addresses that question by focusing on ten countries across several geographic areas Western and East Central Europe North America the Middle East and South Asia These countries are comparable in the sense that they are committed to constitutional rule have embraced a more or less secular culture and have formal guarantees of freedom of religion Yet in all the cases examined here religion impinges on the political system in the form of legal establishment semi legitimation subvention and or selective institutional arrangements and its role is reflected in cultural norms electoral behaviour and public policies The relationship between religion and politics comes in many varieties in differing countries yet all are faced with three major challenges modernity democracy and the increasingly multi ethnic and multi religious nature of their societies

Religion and Politics in Europe, the Middle East and North Africa Jeffrey Haynes, 2009-10-16 This book examines the political activities of selected religious actors in Christian Muslim and Judaist contexts in Europe and the Middle East It explores the challenges these religious actors face in terms of citizenship democracy and secularisation

discussing history politics institutions parties economy and foreign policy at an introductory level **Priests, Prelates and People** Nicholas Atkin, Frank Tallett, 2003-09-26 The Catholic Church has always been a major player in European and world history Whether it has enjoyed a religious dominance or existed as a minority religion Catholicism has never been diverted from political life Priests Prelates and People records the Church struggling to adapt to the new political landscape ushered in by the French Revolution and shows how the formation of nation states and identities was both helped and hindered by the Catholic establishment It portrays the Vatican increasingly out of step in the wake of world war Cold War and the massive expansion of the developing world with its problems of population growth and under development Identity and Institutions Neal G. Jesse, Kristen P. Williams, 2012-02-01 How can conflicts between various nationalist ethnic groups be reduced Combining theory with case studies of Spain and Ireland Neal G Jesse and Kristen P Williams develop an argument favoring a solution that links resolving issues of identity and perceptions of inequality to the establishment of cross national democratic institutions These institutions can affect deeply held attitudes by promoting overlapping identities and pooling sovereignty Overlapping identities reduce tension by creating an atmosphere where different ethnic groups lose their strict definitions of Self and Other Pooling sovereignty across a number of international and national representative bodies leads to increased access to governmental policymaking for all parties involved with each nationalist ethnic group having a stake in government Increased access moreover reduces threat perceptions and ethnic security dilemmas and increases trust all of which play an important role in overcoming such conflicts
