Warren Nord, Charles Haynes, 1998-08-15 The authors chart a middle course in our war over religion and public education one that builds on a developing national consensus among educational and religious leaders While it is not proper for schools to practice religion or proselytize neither is it permissible to make them religion free zones Schools do not take religion seriously as the authors review of textbooks and the new national content standards makes clear In Part One they outline the civic constitutional and educational frameworks that should shape the treatment of religion in the curriculum and classroom In Part Two they explore major issues relating to religion in different domains of the curriculum in elementary education and in middle and high school courses in history civics economics literature and the sciences They also discuss Bible courses and world religions courses and explore the relationship of religion to moral education and sex education Note This product listing is for the Adobe Acrobat PDF version of the book Faith and Fiction Barbara Pell, 2006-01-01 Is it possible to write an artistically respectable and theoretically convincing religious novel in a non religious age Up to now there has been no

substantial application of theological criticism to the works of Hugh MacLennan and Morley Callaghan the two most important Canadian novelists before 1960 Yet both were religious writers during the period when Canada entered the modern non religious era and both greatly influenced the development of our literature MacLennan s journey from Calvinism to Christian existentialism is documented in his essays and seven novels most fully in *The Watch that Ends the Night* Callaghan s fourteen novels are marked by tensions in his theology of Catholic humanism with his later novels defining his theological themes in increasingly secular terms This tension between narrative and metanarrative has produced both the artistic strengths and the moral ambiguities that characterize his work *Faith and Fiction A Theological Critique of the Narrative Strategies of Hugh MacLennan and Morley Callaghan* is a significant contribution to the relatively new field studying the relation between religion and literature in Canada

The Oxford Handbook of Religion and the Arts Frank Burch Brown, 2014-02 This volume offers 37 original essays from leading scholars on the crucial topics issues methods and resources for studying and teaching religion and the arts

T&T Clark Handbook of Theology and the Arts Stephen M. Garrett, Imogen Adkins, 2025-04-24 This volume presents the theology arts conversation from a distinctly Christian perspective as a witness of the Gospel of Christ to the world A widespread interest in the historical socio cultural and political embeddedness of theology and the arts permeates it This theme of embeddedness tracks through several overarching and interlocking concerns the relationship between form and content in both art and theology the intensification of the metaphysical and the theological contra materialist and positivist reductionisms the expansion of the epistemological possibilities of the theology art conversation and a robust understanding of the world as the theatre of God s glory Several chapters have been co written by theologians and artists as part of demonstrating the kind of conversation that this book commends A thorough going commitment to Scripture is also woven into the many different habits of thought represented in this volume Part I surveys different approaches to the theology arts conversation Part II focuses on how particular art forms bring theological issues to the surface and how theological and denominational traditions shape the making and receiving of the arts Part III delves into key topics in the current theology arts scene and asks how artistic and theological performance can both speak to theological and artistic knowing and help to celebrate and interrogate embodied lived reality

Novel Theology Darren J. N. Middleton, 2000 Literature and theology constantly de construct each other Suggesting that this de constructive assignment is one that cannot but be in process itself Middleton returns to it throughout his study

Secular Steeples Conrad Ostwalt, 2003-03-24 Conrad Ostwalt explores the confluence of religion and popular cultural forms in the secular world demonstrating that a secular religiosity has co opted some of the functions previously reserved for religions institutions

Secular Steeples 2nd Edition Conrad Ostwalt, 2012-11-29 The Scandinavian Nordic countries of Denmark Norway Sweden and Finland experienced the effects of the German invasion in April 1940 in very different ways Collaboration resistance and co belligerency were only some of the short term consequences Each country s historiography

has undergone enormous changes in the seventy years since the invasion and this collection by leading historians examines the immediate effects of Hitler's aggression as well as the long term legacies for each country's self image and national identity The Scandinavian countries war experience fundamentally changed how each nation functioned in the post war world by altering political structures the dynamics of their societies the inter relationships between the countries and the popular view of the wartime political and social responses to totalitarian threats Hitler was no respecter of the rights of the Scandinavian nations but he and his associates dealt surprisingly differently with each of them In the post war period this has caused problems of interpretation for political and cultural historians alike Drawing on the latest research this volume will be a welcome addition to the comparative histories of Scandinavia and the Second World War *Reading for Redemption*

Christian R. Davis, 2011-02-07 The goal of this book is to define and explain the archetypal pattern of redemption that underlies our whole notion of resolution in literature and to demonstrate through multiple examples that successful literature poems and stories that have shown endurance or popularity uses this pattern in specific ways This theory should help readers to interpret both particular works of literature and the general notion of literature The pattern of redemption employed here in its ideal form involves the sacrifice of an innocent redeemer to save something that has been lost Because this pattern of redemption is typically associated with Christianity this book can be taken as proposing a Christian theory of criticism Current textbooks on literary criticism and theory cover a range of perspectives such as Marxism feminism multiculturalism reader response and queer theory but they invariably ignore the field of Christian criticism Therefore this book may be most useful as a supplementary text for courses in literary criticism that might include a Christian perspective At the same time however the terms and methodology proposed here are not exclusive to or dependant on Christian beliefs so readers of all types may find this approach useful The greatest strength of this book is its application of the theory to numerous examples from a wide range of genres and periods of literature testing the theory on classical and Shakespearean works such as the Iliad and Odyssey Hamlet and Coriolanus best sellers such as The Lord of the Rings Le Petit Prince Valley of the Dolls and Harry Potter and the Deathly Hallows horror stories such as Frankenstein postcolonial novels such as Things Fall Apart and The Kite Runner and lyric poems Consequently even readers who are skeptical of the assumptions used here should find the many concrete examples thought provoking **Reading Deconstruction/Deconstructive Reading** George Douglas

Atkins, 2021-05-11 Deconstruction a mode of close reading associated with the contemporary philosopher Jacques Derrida and other members of the Yale School is the current critical rage and is likely to remain so for some time Reading Deconstruction Deconstructive Reading offers a unique informed and badly needed introduction to this important movement written by one of its most sensitive and lucid practitioners More than an introduction this book makes a significant addition to the current debate in critical theory G Douglas Atkins first analyzes and explains deconstruction theory and practice Focusing on such major critics and theorists as Derrida J Hillis Miller and Geoffrey Hartman he brings to the fore issues

previously scanted in accounts of deconstruction especially its religious implications Then through close readings of such texts as *Religio Laici* *A Tale of a Tub* and *An Epistle to Dr Arbuthnot* he proceeds to demonstrate and exemplify a mode of deconstruction indebted to both Derrida and Paul de Man This skillfully organized book designed to reflect the both and nature of deconstruction thus makes its own contribution to deconstructive practice The important readings provided of Dryden Swift and Pope are among the first to treat major Augustan texts from a deconstructive point of view and make the book a valuable addition to the study of that period Well versed in deconstruction the variety of texts he treats and major issues of current concern in literary study Atkins offers in this book a balanced and judicious defense of deconstruction that avoids being polemical dogmatic or narrowly ideological Whereas much previous work on and in deconstruction has been notable for its thick prose jargon and general obfuscation this book will be appreciated for its clarity and grace as well as for its command of an impressively wide range of texts and issues Without taming it as an instrument of analysis and potential change Atkins makes deconstruction comprehensible to the general reader His efforts will interest all those concerned with literary theory and criticism Augustan literature and the relation of literature and religion

The Faith of Jesus Christ Richard B. Hays, 2002 In this important study Hays argues against the mainstream that any attempt to account for the nature and method of Paul's theological language must first reckon with the centrality of narrative elements in his thought Through an in depth investigation of Galatians 3:1-4:11 Hays shows that the framework of Paul's thought is neither a system of doctrines nor his personal religious experience but the sacred story of Jesus Christ

What If the Bible Had Never Been Written? D. James Kennedy, Jerry Newcombe, 2008-01-01 But the Bible

more than any other book is also the most maligned on the market Many of the cities of our culture dismiss the Word of God In What If the Bible Had Never Been Written D James Kennedy and Jerry Newcombe show that this collection of books was indeed the inspiration for almost all of the great explorers scientists writers artists politicians and educators the world has ever known That such a book which has influenced so many and stood the test of time for so long is dismissed as folklore or myth just goes to show what extremes nonbelievers will go to rationalize their behavior From the Ten Commandments which many of our laws and government are based upon to the Golden Rule a verse taken straight out of the New Testament to many of today s most common phrases and expressions there is no doubt as to the influence the Bible has on everyone in some degree every day What If the Bible Had Never Been Written provides a well documented and in depth look at the impact the Book of Books has had on humanity pointing to specific areas in today s society that would not be as they are now if it were not for the Bible

Religious Feeling and Religious Commitment in Faulkner, Dostoyevsky, Werfel and Bernanos Jeremy Smith,2016-07-28 First published in 1988 the aim of this study is to define the role of religious meaning in the modern novel and to demonstrate that the novel can successfully express a religious feeling but not a religious commitment Through the analysis of four novels by Faulkner Dostoyevsky Werfel and Bernanos the work explains why novels with a single definite commitment tend to be implausible and lacking in aesthetic unity This book will be of interest to those studying religion in 19th Century literature

Guide to Literary Criticism and Research Bonnie Klomp Stevens, Larry L. Stewart, 1996 Like the first two editions of A Guide
to Literary Criticism and Research this edition is based both on a recognition of a practical need felt in many literature
courses and a view of literary study It attempts to meet the practical need by offering upper level students a condensed but
adequate guide to the range of modern criticism and to basic methods of research In addition it is a hope that the book will
give students a more comprehensive view of literary study by helping them to recognize criticism and research as two closely
linked parts of a single process
