The Securitization of the Roma in Europe Huub van Baar, Ana Ivasiuc, Regina Kreide, 2018-05-23 This book discusses how Europe's Roma minorities have often been perceived as a threat to majority cultures and societies. Frequently the Roma have become the target of nationalism, extremism and racism. At the same time they have been approached in terms of human rights and become the focus of programs dedicated to inclusion, anti-discrimination and combatting poverty. This book reflects on this situation from the viewpoint of how the Roma are often securitized, understood and perceived as security problems. The authors discuss practices of securitization and the ways in which they have been challenged and they offer an original contribution to debates about security and human rights interventions at a time in which multiple crises both in and of Europe are going hand in hand with intensified xenophobia and security rhetoric.

Remigration to Post-Socialist Europe Caroline Hornstein Tomic, Robert Pichler, Sarah Scholl-Schneider, 2018 Returning migrants have been involved in post-socialist transformation processes all across Eastern and Southeastern Europe. Engaged in politics, the economy, science and education, arts and civil society, return migrants have often exerted crucial influence on state and nation building processes and on social and cultural transformations. However, remigration not only comprises stories of achievements but equally those of failed integration, marginalization, non-participation and lost potential. These are mostly stories untold. The contributions to this volume shed light on processes of return migration to various Eastern and Southeastern European countries from multidisciplinary perspectives. Particular attention is paid to anthropological approaches that aim to understand the complexities of return migration from individual perspectives.

Crime Prevention, Migration Control and Surveillance Practices Veronika Nagy, 2018-10-03 EU expansion has stoked fears that criminals from the East may abuse freedom of movement to exploit the benefit systems of richer states. This book examines the way in which physical state borders are increasingly being replaced by internal border controls in the form of state bureaucracies as a means of regulating westward migration. The work examines the postmodern effect of globalisation and how ontological anxieties contribute to securitisation and social sorting in Western countries. It discusses the changes in control societies and how targeted surveillance as a geopolitical tool leads to new digitalised mechanisms of population selection. The book presents a case study of Roma migrants in the UK to examine the coping strategies adopted by those targeted. The book also critically evaluates the limitations of digitalised bureaucratic systems and the dangers of reliance on virtual data and selection methods.

The Rights of Roma in European Courts Kristin Henrard, Lilla Farkas, 2025-05-26 The abundance of Roma rights cases before international and European courts reflects the Roma's systemic marginalization as well as their resolve to push the boundaries of human rights law. The Roma have increasingly raised concerns through strategic litigation, urging the courts to develop their jurisprudence and adjust the scope of human rights applications. This edited volume examines these cases, exploring the extent to which strategic litigation can and does push the boundaries of human rights. Adopting a long-needed yet untested approach, the volume situates Roma

rights within the broader human rights edifice and identifies its key contributions The volume focuses on the quasi jurisprudence of the European Court of Human Rights the Court of Justice of the EU and the European Committee of Social Rights with several chapters also drawing parallels with jurisdictions beyond Europe Its contributing authors span a broad range of disciplines including human rights law political science climate justice and ethnology Combining rich doctrinal and socio legal analysis The Rights of Roma in European Courts is an unparalleled resource for scholars and practitioners seeking to understand the systemic discrimination faced by the Roma and explore legal solutions for countering it
