Romance Of The Rose Critical Guides To French Texts S:

The Oxford Handbook of Chaucer Suzanne Conklin Akbari, James Simpson, 2020 This Handbook addresses Chaucer's poetry in the context of several disciplines including late medieval philosophy and science Mediterranean culture comparative European literature vernacular theology and popular devotion

The Face and Faciality in Medieval French Literature, 1170-1390 Alice Hazard, 2021 Modern theoretical approaches throw new light on the concepts of face and faciality in the Roman de la Rose and other French texts from the Middle Ages

Dreams of Lovers and Lies of Poets Sylvia Huot, 2017-07-05 The Roman de la Rose explicitly offers an art of love while also repeatedly asserting that the experience of love is impossible to put into words An examination of the intertextual density of the Rose with its citations and adaptations of a range of Latin authors shows that the discourse of bodily desire pleasure and trauma emerges indirectly from the juxtaposition and conflation of sources Huot's new book focuses on Guillaume de Lorris's use of the Ovidian corpus and on Jean de Meun's dazzling orchestration of allusions to a wider range of Latin writers principally Ovid Boethius and Virgil but also including John of Salisbury and Alain de Lille In both parts of the Rose poetic allegory is a language that can express the unspeakable and the ineffable

Medieval Mythography, Volume Three Jane Chance, 2019-11-15 With this volume Jane Chance concludes her monumental study of the history of mythography in medieval literature Her focus here is the advent of hybrid mythography the transformation of mythological commentary by blending the scholarly with the courtly and the personal No other work examines the mythographic interrelationships among these poets and their unique and personal approaches to mythological commentary

The Roman de la rose in its Philosophical Context Jonathan Morton, 2018-02-01 The Roman de la rose in its Philosophical Context offers a new interpretation of the long and complex medieval allegorical poem written by Guillaume de Lorris and Jean de Meun in the thirteenth century a work that became one of the most influential works of vernacular literature in the European Middle Ages The scope and sophistication of the poem's content especially in Jean's continuation has long been acknowledged but this is the first book length study to offer an in depth analysis of how the Rose draws on and engages with medieval philosophy in particular with the Aristotelianism that dominated universities in the thirteenth century It considers the limitations and possibilities of approaching ideas through the medium of poetic fiction whose lies paradoxically promise truth and whose ambiguities and self contradiction make it hard to discern its positions This indeterminacy allows poetry to investigate the world and the self in ways not available to texts produced in the Scholastic context of universities especially those of the University of Paris whose philosophical controversies in the 1270s form the backdrop against which the poem is analysed At the heart of the Rose are the three ideas of art nature and ethics which cluster around its central subject love While the book offers larger claims about the Rose's philosophical agenda different chapters consider the specifics of how it draws on and responds to Roman poetry twelfth century Neoplatonism and thirteenth century Aristotelianism in broaching questions about desire

epistemology human nature the imagination primitivism the philosophy of art and the ethics of money *Idleness Working* Gregory M. Sadlek, 2004 Roman and medieval poets and authors not only explored the physicality and sexuality of love driven by passion and desire but also saw love as a labour a project to be worked on and achieved to reach the final goal The Romance of the Rose Illuminated Alcuin Blamires, Gail C. Holian, 2002 A central work in medieval culture and modern scholarship the Romance of the rose was among the most consistently illustrated of medieval secular texts Consequently interpretation of the visual evidence has played a significant part in elucidating the poem and its derivatives This volume reproduces in color with commentary and full contextual discussion all the miniatures from five unpublished illuminated manuscripts of Le Roman de la rose in the National Library of Wales **The Medieval Natural World** Richard Jones, 2013-11-14 How did medieval people make sense of their surroundings and how did this change over the years as understanding and knowledge expanded This new Seminar Study is designed to familiarise students of medieval history with the ways in which medieval people interpreted the world around them how they rationalised their observations and why they developed the models for understanding that they did Most importantly it shows how ideas changed over the medieval period and why With extensive primary source material this book builds up a picture using medieval encyclopedias prose literature and poetry records of estate management agricultural treatises scientific works annals and chronicles as well as the evidence from art architecture archaeology and the landscape itself An excellent introduction for undergraduate students of Medieval history or for anyone with an interest in the medieval natural world *Courtly Contradictions* Sarah Kay, 2001 Where does courtly literature come from What is the meaning of courtly love What is the relation between religious and secular culture in the Middle Ages and why does it matter This book addresses these questions by way of contradiction which is central both to medieval logic and to most modern protocols of reading *Piers Plowman and the Books of Nature* Rebecca Davis, 2016-09-08 Piers Plowman and the Books of Nature explores the relationship of divine creativity poetry and ethics in William Langland's fourteenth century dream vision These concerns converge in the poem's rich vocabulary of kynde the familiar Middle English word for nature broadly construed But in a remarkable coinage Langland also uses kynde to name nature's creator who appears as a character in Piers Plowman The stakes of this representation could not be greater by depicting God as Kynde that is under the guise of creation itself Langland explores the capacity of nature and of language to bear the plenitude of the divine In doing so he advances a daring claim for the spiritual value of literary art including his own searching form of theological poetry This claim challenges recent critical attention to the poem's discourses of disability and failure and reveals the poem's place in a long and diverse tradition of medieval humanism that originates in the twelfth century and indeed points forward to celebrations of nature and natural capacity in later periods By contextualizing Langland's poetics of kynde within contemporary literary philosophical legal and theological discourses Rebecca Davis offers a new literary history for Piers Plowman that opens up many of the poem's most perplexing interpretative problems **Reading**

the World Mary Franklin-Brown,2024-05-31 The thirteenth century saw such a proliferation of new encyclopedic texts that more than one scholar has called it the century of the encyclopedias Various referred to as a speculum thesaurus or imago mundi the term encyclopedia was not commonly applied to such books until the eighteenth century these texts were organized in such a way that a reader could easily locate a collection of authoritative statements on any given topic Because they reproduced rather than simply summarized parts of prior texts these compilations became libraries in miniature In this groundbreaking study Mary Franklin Brown examines writings in Latin Catalan and French that are connected to the encyclopedic movement Vincent of Beauvais's Speculum maius Ramon Llull's Libre de meravelles Arbor scientiae and Arbre de filosofia d amor and Jean de Meun's continuation of the Roman de la Rose Franklin Brown analyzes the order of knowledge in these challenging texts describing the wide ranging interests the textual practices including commentary compilation and organization and the diverse discourses that they absorb from preexisting classical patristic and medieval writing She also demonstrates how these encyclopedias like libraries became heterotopias of knowledge spaces where many possible ways of knowing are juxtaposed But Franklin Brown's study will not appeal only to historians she argues that a revised understanding of late medievalism makes it possible to discern a close connection between scholasticism and contemporary imaginative literature She shows how encyclopedists employed the same practices of figuration narrative and citation as poets and romancers while much of the difficulty of the imaginative writing of this period derives from a juxtaposition of heterogeneous discourses inspired by encyclopedias With rich and innovative readings of texts both familiar and neglected Reading the World reveals how the study of encyclopedism can illuminate both the intellectual work and the imaginative writing of the scholastic age

The Romance of the Rose Sarah Kay,1995 Tracing the Trails in the Medieval World Albrecht Classen,2020-10-11 Every human being knows that we are walking through life following trails whether we are aware of them or not Medieval poets from the anonymous composer of Beowulf to Marie de France Hartmann von Aue Gottfried von Strassburg and Guillaume de Lorris to Petrarch and Heinrich Kaufringer predicated their works on the notion of the trail and elaborated on its epistemological function We can grasp here an essential concept that determines much of medieval and early modern European literature and philosophy addressing the direction which all protagonists pursue as powerfully illustrated also by the anonymous poets of Herzog Ernst and Sir Gawain and the Green Knight Dante's Divina Commedia in fact proves to be one of the most explicit poetic manifestations of the fundamental idea of the trail but we find strong parallels also in powerful contemporary works such as Guillaume de Deguileville's Plerinage de la vie humaine and in many mystical tracts

Language and the Declining World in Chaucer, Dante, and Jean de Meun John M. Fyler,2007-07-16 Medieval commentaries on the origin and history of language used biblical history from Creation to the Tower of Babel as their starting point and described the progressive impairment of an originally perfect language Biblical and classical sources raised questions for both medieval poets and commentators about the nature of language its participation in the Fall and its

possible redemption John M Fyler focuses on how three major poets Chaucer Dante and Jean de Meun participated in these debates about language He offers fresh analyses of how the history of language is described and debated in the Divine Comedy the Canterbury Tales and the Roman de la Rose While Dante follows the Augustinian idea of the Fall and subsequent redemption of language Jean de Meun and Chaucer are skeptical about the possibilities for linguistic redemption and resign themselves at least half comically to the linguistic implications of the Fall and the declining world *Mixed Metaphors* Stefanie Knöll, Sophie Oosterwijk, 2015-06-18 This groundbreaking collection of essays by a host of international authorities addresses the many aspects of the Danse Macabre a subject that has been too often overlooked in Anglo American scholarship The Danse was once a major motif that occurred in many different media and spread across Europe in the course of the fifteenth century from France to England Germany Scandinavia Poland Spain Italy and Istria Yet the Danse is hard to define because it mixes metaphors such as dance di French Literature: A Comprehensive Guide Pasquale De Marco, 2025-03-09 Journey through the rich tapestry of French literature with this comprehensive guide spanning from its medieval origins to the vibrant contemporary scene Discover the major periods genres and authors that have shaped this literary landscape exploring the cultural historical and intellectual forces that have influenced its development From the chansons de geste and fabliaux of the medieval period to the humanism and classicism of the Renaissance and 17th century this book delves into the origins and evolution of French literature Explore the works of iconic authors such as François Rabelais Pierre Corneille and Michel de Montaigne and gain insights into the social political and religious contexts that shaped their writings Moving through the Enlightenment of the 18th century encounter the writings of Voltaire Rousseau and Diderot and witness their profound influence on French literature and society Discover the rise of the novel and the theater and delve into the complex interplay between literature and philosophy during this period of intellectual and cultural ferment With a focus on the medieval period to the 18th century this book provides a comprehensive overview of the major works authors and themes that have shaped French literature Whether you are a student scholar or simply a lover of literature this guide offers a captivating exploration of the rich and diverse literary heritage of France If you like this book write a review **Queering the Middle Ages** Glenn Burger, Steven F. Kruger, 2001 The essays in this volume present new work that in one way or another queers stabilized conceptions of the Middle Ages allowing us to see the period and its systems of sexuality in radically different off center and revealing ways While not denying the force of gender and sexual norms the authors consider how historical work has written out or over what might have been non normative in medieval sex and culture and they work to restore a sense of such instabilities At the same time they ask how this pursuit might allow us not only to re envision medieval studies but also to rethink how we study culture from our current set of vantage points within postmodernity The authors focus on particular medieval moments Christine de Pizan's representation of female sexuality chastity in the Grail romances the illustration of the sodomite in manuscript commentaries on Dante's Commedia the

complex ways that sexuality inflected English national politics at the time of Edward II's deposition the construction of the sodomitic Moor by Reconquista Spain Throughout their work seeks to disturb a logic that sees the past as significant only insofar as it may make sense for and of a stabilized present **The Saturday Review of Politics, Literature, Science and Art** ,1902 **Sick Heroes** Allan H. Pasco,1997 Making use of new research materials Sick Heroes offers fresh insight into the romantic spirit It sheds light on the particular creations of the romantic world on the causes for Romanticism on French Romanticism as an aesthetic and social reality and on the period's collective mentality The Facts on File Companion to the French Novel Karen L. Taylor,2006 French novels such as Madame Bovary and The Stranger are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization
