Romanian Agriculture And Transition Toward The Eu:

Romanian Agriculture and Transition Toward the EU Kenneth J. Thomson, 2003-01-01 Of the ten Central and Eastern European countries that have applied for membership in the European Union Romania ranks among the largest and most impoverished Romania represents the final challenge in the European Union's enlargement to the east largely due to its major but underdeveloped agriculture and food sectors The agriculture industry which is a major component of the national economy extends its pervasive influence to both Romanian social life and environment Consequently the transition towards a market oriented economic system will pose new obstacles for the country's farmers processors traders and policymakers While identifying the impediments that surround Romanian agriculture and its inevitable progression towards transition is a simple task the challenges lie in recommending solutions Through careful analysis of numerous recent studies on reform policies in the Romanian agri food sector during its economic transition this comprehensive examination offers perspicacious suggestions and insights on the following topics in particular international trade credit for agricultural development price policies and rural development The conclusions reached are not only of domestic importance and application they are also of immediate relevance for many post socialist countries for which the agri food sector is a principal vehicle for rural development

Rural Transition in Azerbaijan Zvi Lerman, David Sedik, 2010-02-15 In 1995-96 the President of Azerbaijan Heydar Aliyev launched a program of agrarian reforms that caused a sweeping and irreversible shift from Soviet style collective agriculture to individual farming in his country These reforms led to an impressive recovery and substantial productivity improvements in agriculture The agrarian transition in Azerbaijan contrasts with that in Russia Ukraine and Kazakhstan where land privatization has been accompanied by policies encouraging the persistence of large corporate farms and where agricultural recovery has been much less impressive For this reason Azerbaijan is today viewed as one of the few examples of successful land reform in the former Soviet Union The impact of the Aliyev agrarian reforms went far beyond the recovery of agricultural production The new policies had a significant impact on rural poverty and they were instrumental in increasing the incomes of Azerbaijan's large rural population which relies on agriculture for a substantial part of the family budget To understand the successes and limitations of land reform Rural Transition in Azerbaijan evaluates the record of rural reforms focusing on policy change farm level performance and the impact of reforms on rural incomes and rural family well being issues that today are at the core of the agenda in many international organizations
