Holding a Mirror up to Nature James Gilligan, David A.J. Richards, 2021-12-02 Shakespeare has been dubbed the greatest psychologist of all time This book seeks to prove that statement by comparing the playwright's fictional characters with real life examples of violent individuals from criminals to political actors For Gilligan and Richards the propensity to kill others even or especially when it results in the killer's own death is the most serious threat to the continued survival of humanity In this volume the authors show how humiliated men with their desire for retribution and revenge apocryphal violence and political religions justify and commit violence and how love and restorative justice can prevent violence Although our destructive power is far greater than anything that existed in his day Shakespeare has much to teach us about the psychological and cultural roots of all violence In this book the authors tell what Shakespeare shows through the stories of his characters what causes violence and what prevents it

The Oxford Handbook of Shakespeare's Poetry Jonathan Post, 2013-07-18 The Oxford Handbook of Shakespeare's Poetry contains thirty eight original essays written by leading Shakespeareans around the world Collectively these essays seek to return readers to a revived understanding of Shakespeare's verbal artistry in both the poems and the drama The volume understands poetry to be not just a formal category designating a particular literary genre but to be inclusive of the dramatic verse as well and of Shakespeare's influence as a poet on later generations of writers in English and beyond Focusing on a broad set of interpretive concerns the volume tackles general matters of Shakespeare's style earlier and later questions of influence from classical continental and native sources the importance of words line and rhyme to meaning the significance of songs and ballads in the drama the place of gender in the verse including the relationship of Shakespeare's poetry to the visual arts the different values attached to speaking Shakespeare in the theatre and the adaptation of Shakespearean verse as distinct from performance into other periods and languages The largest section with ten essays is devoted to the poems themselves the Sonnets plus A Lover's Complaint the narrative poems Venus and Adonis and The Rape of Lucrece and The Phoenix and the Turtle If the volume as a whole urges a renewed involvement in the complex matter of Shakespeare's poetry it does so as the individual essays testify by way of responding to critical trends and discoveries made during the last three decades

Reason Not Omry Smith,2009 This theoretical study guides the reader through some of Shakespeare's most emotionally turbulent dramatic worlds offering a close examination of the fascinating emotional rhetoric employed by several key characters These characters manipulate others and sometimes even themselves using a device broadly known in the terminology of rhetoric as emotional appeal Although Shakespeare displays immense interest in the human passions and makes frequent use of the tools of classical rhetoric this study presents the first systematic inquiry into the emotional component of rhetoric in his drama The book also offers the reader a broad perspective on Shakespearean drama by highlighting diverse characters who embody the human tendency to worship reason and rationalise reality In contrast to those emotionally intelligent characters who acknowledge the crucial power of emotion in life and their inability to neutralise

it other characters deny this reality Ironically it is precisely those who deny emotion and obsessively seek rationality that eventually fall victim to their own intense passion in some cases in response to emotional appeals from others
