,2019-02-11 This new book is based on the text from two previous books I wrote about this city Discover Shanghai 2010 and Shanghai and the Yangzi Delta 2004 both issued by the same publisher in Singapore This current project started in October 2017 It was originally intended to be simply a reprint or reissue of the previous volumes without any changes but instead evolved into a more than year long complete update and revision of the text that lasted throughout all of 2018 and on into the Spring Festival of 2019 The new text has been completely updated and revised and is now fully bilingual with both phonetic pinyin and Chinese characters provided for Chinese names of significant people places and events The text begins with an introductory historical narrative in chronological order After that the contents are presented in alphabetical order from A to Z as they were in Discover Shanghai 2010 hence the subtitle A Historical Dictionary of China's Most Important City The Appendix includes a list of Shanghai's mayors and a historical street index which can be used to match the present day street names with the names they had before 1949 There are all new photos that have never been published before However the text has become so long that most of the photos will need to be in a separate Volume II This Vol I contains an appendix containing a collection of historic maps of Shanghai

Trade and Technology Networks in the Chinese Textile Industry Carles Brasó Broggi, 2016-04-29 The aim of this book is to track the historical origins of China's economic reforms From the 1920s and 1930s strong ties were built between Chinese textile industrialists and foreign machinery importers in Shanghai and the Yangzi Delta Despite the fragmentation of China the contribution of these networks to the modernization of the country was important and longstanding Facing the challenge of growing in a fragmented country Chinese textile firms such as Dafeng Dacheng and Lixin focused on urban markets and also on importing technology for upgrading their production When the war against Japan blocked trade routes inside China these networks were concentrated in Shanghai where they envisaged an export oriented development strategy for China that was based on importing machinery and exporting manufactured products However this strategy was only implemented precariously in Shanghai while the city stood as a neutral space in the first years of the Japanese occupation but was only consolidated in Hong Kong in the late 1940s where textile industrialist and most of the foreign importers migrated These networks were thus reestablished in Hong Kong where they contributed to the city's industrialization in the Cold War period Meanwhile the Chinese industrialists that stayed in Shanghai and the Yangzi Delta had to adapt to the Maoist regime and were progressively incorporated into the state owned companies or the local government agencies such as the United Front or the Textile bureaus However from the early 1970s the links between Hong Kong and Shanghai were reactivated and these networks played again a key role in the modernization of China especially regarding the imports of technology and exports of manufactured goods The book ends with the first joint ventures between Hong Kong businessmen and Chinese local

administrations that took place in the beginnings of China's economic reforms in 1979
