It combines the spirit of Luther's 95 Theses with depth of insight akin to Luther's reformation catechism. This book will be essential for every congregational, denominational, and seminary bookshelf. Church leaders and members all yearn for a new Reformation that will realign Christian congregations with God's mission. This book frames the right questions and focuses the right answers. It helps church leaders do the hard work of assessment and planning. The next Reformation will be an extraordinarily practical endeavor. Leaders need to apply the tactics that will leverage the greatest change and guide the church deeper into the mystery of Christ and further in companionship with Christ. We want to be faithful. Now we know how to be faithful.

The Shape of God's Reign Philip D. Kenneson, Debra Dean Murphy, Jenny Williams, Stephen E. Fowl, James W. Lewis, 2008-07-05 About The Ekklesia Project The Ekklesia Project is a network of Christians from across the Christian tradition who rejoice in a peculiar kind of friendship rooted in our common love of God and the Church. We come together from Catholic parishes, Protestant congregations, communities in the Anabaptist tradition, house churches, and more, as those who are convinced that to call ourselves Christian means that following Jesus Christ must shape all areas of life. Seeing Christ's Body as our first family, the Ekklesia Project aims to put discipleship and the Church as an alternative community of practices, worship, and integration at the center of contemporary debates on Christianity and society. For more information about The Ekklesia Project, see its website: www.ekklesiaproject.org.

About the Congregational Formation Initiative The overarching goal of The Ekklesia Project's Congregational Formation Initiative (CFI) is to develop creative and effective ways of supporting congregations that are committed to making lifelong formation and discipleship central to their life together. Historical Trajectories of Catholicism in Africa Valentine Ugochukwu Iheanacho,2021-10-21 The book masterfully knits together the various curves and routes traveled so far by the Catholic Church in Africa From an African perspective the book presents a general trajectory of Catholicism on the continent by highlighting some significant events and moments in the evolution of the Catholic Church in Africa It equally profiles the Vatican's policy of indigenization as realized on the continent through the Africanization of the local episcopate That policy prepared the way for the emergence of the local churches in Africa on the heels of the post missionary phase that terminated with the convocation of the First African Synod of Bishops in 1994 Beyond the vicissitudes of the relatively recent past the book boldly indicates the likely future shape and direction of African Catholicism It contends that the future shape of the church in Africa may not be determined by a belabored inculturation but instead by how the local churches concern themselves with concrete realities such as poverty lack of opportunities and ecological issues It envisages a church that may not shy away from asserting itself within the mainstream ecclesiastical politics of global Catholicism where it must connect compete and collaborate
