Sharing The World Sustainable Living And Global Equity In The 21st Century:

Sharing the World Michael Carley, Phillipe Spapens, 2017-09-25 This work proposes a framework based on the concept of a fair distribution of environmental space to include the diverse needs of North and South Drawing on research in 38 countries it aims to give an equitable basis for global development in order to achieve sustainable consumption by the year 2050 The environmental space approach seeks to explain the limitations of the global market economy as a tool of development and to give us the means to alter it in order to achieve a genuine quality of life rather than simple economic growth In addition this book seeks to urge all countries and peoples to consider and evaluate the environmental space approach and to join in a movement towards sustainable production and consumption for the 21st century *Sustainable Cities Revisited* - 7055iied International Institute for Environment & Development, 1998 **Planet Dialectics** Wolfgang Sachs, 2015-03-12 All effects of human action will inevitably be played out within our planet's limits any hope of infinity is an illusion And yet as Wolfgang Sachs warned almost twenty years ago environmental concerns have been assimilated into the rhetoric dynamics and power structures of development This classic collection of trenchant and elegant explorations addresses the crisis of the Western world's relations with nature and social justice Examining the notions of efficiency speed globalization and development Sachs shows that sustainability truly conceived is incompatible with the worldwide rule of economism Planet Dialectics reveals that the Western development model is fundamentally at odds with both the quest for justice among the world's people and the aspiration to reconcile humanity and nature *Environments in a Changing World* John Huckle, Adrian Martin, 2014-09-19 While there is no shortage of books on the environment there are few introductory texts that outline the social theory that informs human geographical approaches to the interactions between ecology and society Students arriving at university often lack the understanding of history economics politics sociology and philosophy that contemporary human geography requires Environments in a Changing World addresses this deficit providing foundation knowledge in a form that is accessible to first year students and applied to the understanding of both contemporary environmental issues and the challenge of sustainability Students are challenged to develop and defend their own ethical and political positions on sustainability and respond to the need for new forms of ecological citizenship **Ethics and the Built Environment** Warwick Fox, 2012-10-12 Much has been written in recent years on environmental ethics relating to the more general natural environment but little specifically written about ethics of the built environment Ethics and the Built Environment responds to this need and offers a debate on the ethical dimension of building in all its forms from a variety of disciplinary perspectives and approaches This book should be of interest to architects students of building and building design environmentalists politicians and general readers with an interest in ethics *The Sustainable Development Paradox* Rob Krueger, David Gibbs, 2007-08-30 Sustainability with its promise of economic prosperity social equity and environmental integrity is hardly a controversial goal Yet scholars have generally overlooked the ways that policies aimed at promoting

sustainability at local national and global scales have been shaped and constrained by capitalist social relations This thought provoking book reexamines sustainability conceptually and as it actually exists on the ground with a particular focus on Western European and North American urban contexts Topics include critical theoretical engagements with the concept of sustainability how sustainability projects map onto contemporary urban politics and social justice movements the spatial politics of conservation planning and resource use and what progressive sustainability practices in the context of neoliberalism might look like

Constructing Local Environmental Agendas Susan Buckingham-Hatfield, Susan Percy, 2005-06-23 Constructing Local Environmental Agendas provides an invaluable insight into the experiences of parallel projects across the world particularly in the UK and the rest of Europe Australia Sri Lanka and Pakistan

The Environment and Social Policy Michael Cahill, 2018-10-24 Focusing on human welfare and the environment from a social policy perspective this text shows how environmental concerns are becoming increasingly central to policy making and discusses the roles of central and local government in relation to environmental issues The Environment and Social Policy covers the following contemporary topics sustainability Local Agenda 21 green ideas environmental health housing and urban development food work globalisation Each chapter starts with an overview of the topics and ends with a list of key points and a guide to further reading Core concepts are clearly explained and illustrated throughout this text which provides students with a concise and up to date summary of what they need to know

Ibss: Economics: 1999 Compiled by the British Library of Political and Economic Science, 2000-12-07 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

Environment, Capitalism & Socialism, 1999 Our planet is gripped by twin crises of the most fundamental nature social mass poverty austerity militarism etc and environmental In this document the Democratic Socialist Party argues that they spring from the same cause the capitalist system which places the ruthless pursuit of profit by the few before the needs of the vast majority of humanity Environment Capitalism and Socialism provides a comprehensive overview of the environmental crisis the various explanations advanced for it and the responses to it The document argues strongly for the need to build a mass popular movement to fight corporate planet wreckers and create a socialist order in which human beings will be in harmony with their environment Included here as an appendix is editor Dick Nichols thorough critique of so called green taxation often put forward as the answer to the crisis Provided by publisher

Sustainable by 2020? Carley, Michael, Kirk, Karryn, 1998-06-03 The conclusions of a major research programme on strategic city wide urban regeneration are set out in this report Building on case studies in Birmingham Glasgow and Edinburgh it proposes an agenda of organisational innovation for the 21st Century a first step to sustainable cities

City-Region 2020 Joe Ravetz, 2016-05-13 Based on analysis of the Manchester city region this book offers a vision of a sustainable urban future through integrated strategic management of the entire city region It translates principles into

practice for achieving the necessary balance to ensure a higher standard of living and safe environment The text presents a 25 year horizon for the evolution and restructuring of the urban system a focus for linkages and synergies between economic social and environmental sectors technical scenarios for land use energy and material flows spatial scenarios for each area and settlement type and lateral thinking on cultural information localization and globalization trends Also included are practical actions methods and tools such as sustainability indicators and appraisals that can be applied anywhere in the western world

Managing Sustainable Development Michael Carley,Ian Christie,2017-09-25 In a world where environmental problems spill across political administrative and disciplinary boundaries there is a pressing need for a clear understanding of the kinds of organizations management structures and policy making approaches required to bring about socially equitable and ecologically sustainable development In this second edition the authors incorporate lessons from a decade of work on the conditions of sustainability in both developed and developing countries They prescribe action networks partnerships of flexible achievement oriented actors and present new case studies demonstrating the success of organizations that have applied this approach They also introduce case studies on action networks that work simultaneously on international national and local levels

Environment and Tourism , The ^AOxford Handbook of U.S. Environmental Policy Sheldon Kamieniecki,Michael Kraft,2012-10-10 The Oxford Handbook of U S Environmental Policy is a state of the art work on all aspects of environmental policy in America This is a topic that will only grow in importance in the coming years and this handbook serves as an authoritative guide to any scholar interested in the issue

Environment and Tourism Andrew Holden,2000 Considers the relationship that exists between tourism society and the environment It discusses how the tourism industry markets environments and suggests ways in which the economics of tourism can be adopted to aid conservation

Planning for a Sustainable Future Sue Batty,Simin Davoudi,Antonia Layard,2012-09-10 Sustainable Development is now firmly on the planning agenda and is an issue neither practitioner nor academic can afford to ignore Planning for a Sustainable Future provides a multi disciplinary overview of sustainability issues in the land use context focusing on principles and their application the legal political and policy context and the implication of sustainable development thinking for housing urban design and property development as well as waste and transport The book concludes by considering how sustainable and unsustainable impacts alike can be measured and modelled providing real tools to move beyond rhetoric into practice

The Business of Sustainable Mobility Paul Nieuwenhuis,Philip Vergragt,Peter Wells,2017-09-08 In many parts of the world there is a crisis of mobility This book shows that technology may well not be enough in itself and that for a genuinely sustainable transport future far more radical change affecting many aspects of society is needed It is useful for academics practitioners and policy makers

Urban Development and Civil Society Michael Carley,Harry Smith,2013-11-05 The world s population is rapidly urbanizing but the affluence and development often associated with cities are far from equitably or sustainably distributed Where it was once taken for granted that

responsibility for urban development lay with the state increasingly the emphasis has shifted to market driven and public private sector initiatives which can marginalize the intended beneficiaries the urban poor from decision making and implementation This text outlines the essential conditions for effective urban planning and management by placing bottom up community initiatives at the heart of the push for equitable and sustainable development in cities Crucially the state must engage with both the market and civil society in pursuit of sustainable cities Presenting a wide ranging selection of case studies in rapidly urbanizing and transitional countries from the poorest parts of Africa and Asia to the relatively developed United Kingdom the authors describe and analyze innovations in how globally disadvantaged urban communities can be engaged in improving their living environments *Scotland: the Challenge of Devolution* Alex Wright, 2018-02-06 This title was first published in 2000 Linking politics with culture and society this collection provides an overview of the Scottish Parliament and analyzes it in relation to UK European and global regionalization
