Sharpened Edge Women Of Color Resistance:

Sharpened Edge Stephanie Athey, 2003-12-30 This collection of essays examines the relationship of women of color's armed resistance to their aesthetic struggles, tension and transformation in feminist practice and the impact of the gender-based design of state-sponsored terror, human rights debates and the economic development for women of color. Athey brings together new scholarship testing the possibility of transnational feminist action and theorizing historical and contemporary aspects of resistance for women of color. Included are essays by and about women of Africa, India and the Americas, including women of African American, Chicana, Puerto Rican and Yaqui origins. Essays examine regional and historical contexts to demonstrate the central role of women of color in armed resistance struggle and in sustaining cultures of resistance despite the fact that the agency speech and writing of women of color have received the least attention in studies of resistance. Contributors challenge thinking across many disciplines: sociology, literary and cultural studies, history, political science and education. Resistance struggles examined include women in armed struggle for national self-determination, political and economic struggle for human rights and against state-sponsored repression and women sustaining political and cultural resistance against specific religious, feminist or nationalist doctrines and against the repression of multiple forms of political, sexual, intellectual and artistic expression. *Women of Color and Feminism (Large Print 16pt)* Maythee Rojas, 2010-07 In this Seal Studies title, author and professor Maythee Rojas offers a look at the intricate crossroads of being a woman of color. *Women of Color and Feminism* tackles the question of how women of color experience feminism and how race and socioeconomics can alter this experience. Rojas explores the feminist woman of color's identity and how it relates to mainstream culture and feminism. Featuring profiles of historical women of color, including Hottentot Venus, Josefa Loaiza and Anna Mae Pictou Aquash, a discussion of the arts and a vision for developing a feminist movement built on love and community healing, Rojas examines the intersectional nature of being a woman of color and a feminist. Covering a range of topics including sexuality, gender politics, violence, stereotypes and reproductive rights, *Women of Color and Feminism* offers a far-reaching view of this multilayered identity. This powerful study strives to rewrite race and feminism, encouraging women to take back the body in a world of new activism. *Women of Color and Feminism* encourages a broad conversation about race, class and gender and creates a discourse that brings together feminism and racial justice movements. *Encyclopedia of African American Women Writers* Yolanda Williams Page, 2007-01-30 African American women writers published extensively during the Harlem Renaissance and have been extraordinarily prolific since the 1970s. On the Very Edge Ian Kinane, 2025-01-15 *On the Very Edge* Bidentities in Michelle Cliff's Fiction uses the life and work of bisexual biracial and bicultural author Michelle Cliff 1946-2016 to develop an entirely new approach to intersectional cultural race and gender sexuality studies that prioritizes bi-ness as a methodological tool The book focuses not simply on bisexuality biracialism or biculturalism as isolated identity concepts rather it explores the very nature of these intersectional identity categories as configured by Cliff The text therefore represents a reclamation of bi-identity in Cliff's work as a much broader cultural and not just sexual or racial category arguing that Cliff's spaces and/or stages of bi-ness are in themselves significant in understanding contemporary global identity politics as well as in navigating complex and often damaging identity constructs Michelle Cliff partnered with poet Adrienne Rich and passing as white had an often invisible sexuality and cultural identity Yet her acclaimed work *Abeng* *No Telephone to Heaven* *Bodies of Water* *If I Could Write This in Fire* *Free Enterprise* and others demonstrates the intersections between bisexuality biracialism and biculturalism in often profound ways Drawing on original research interviews diaries editorials and other correspondences *On the Very Edge* will have far reaching implications in the understanding of complex Caribbean identity politics and intersectional race gender and sexuality studies at large

Wayne, 2014-12-09 A comprehensive encyclopedia tracing the history of the women's rights movement in the United States from the American Revolution to the present day Few realize that the origin of the discussion on women's rights emerged out of the anti-slavery movement of the 19th century and that suffragists were active in the peace and labor movements long after the right to vote was granted Thus

Handbook of American Poetry Sabine Sielke,2025-01-27 This handbook offers scholars an overview of the state of research and students a sense of how American poetry from its first forms evolving in the 17th century settler colonies to its current digital modes has addressed issues and experiences central to human consciousness and to political life over five centuries of cultural practice At the same time it aims to show how poetry philosophy and theory have always been involved in productive dialogues

The Aztec Palimpsest Daniel Cooper Alarcón,1997-03-01 Mexico is more than a country it is a concept that is the product of a complex network of discourses as disparate as the rhetoric of Chicano nationalism English language literature about Mexico and Mexican tourist propaganda The idea of Mexicanness says Daniel Cooper Alarcón has arisen through a process of erasure and superimposition as these discourses have produced contentious and sometimes contradictory descriptions of their subject By considering Mexicanness as a palimpsest of these competing yet interwoven narratives Cooper offers a paradigm through which the construction and representation of cultural identity can be studied He shows how the Chicano myth of Aztlan was constructed upon earlier Mesoamerican myths discusses representations of Mexico in texts by nineteenth and twentieth century writers and analyzes the content of tourist literature thereby revealing the economic social and political interests that drive the production of Mexicanness today This original linking of seemingly incongruous discourses corrects the misconception that Mexicanness is produced only by hegemonic groups Cooper shows how Mexico has been defined and represented by both Mexicans and non Mexicans as more than a political or geographic entity and he particularly reveals how Mexicanness has been exploited by Mexicans themselves through the promotion of tourism as a form of neocolonialism Cooper s work is valuable both for identifying attempts to revise and control Mexican myth history and culture and for defining the intricate relationship between history historiography and cultural nationalism The Aztec Palimpsest extends existing analyses of Mexicanness into new theoretical realms and provides a fresh perspective on the relationship between the United States and Mexico at a time when these two nations are becoming more intimately linked

Torture in the National Security Imagination Stephanie Athey, 2024-01-23 Reassessing the role of torture in the context of police violence mass incarceration and racial capitalism At the midpoint of a century of imperial expansion marked on one end by the Philippine American War of 1899 1902 and on the other by post 9 11 debates over waterboarding the United States embraced a vision of national security torture one contrived to cut ties with domestic torture and mass racial terror and to promote torture instead as a minimalist interrogation tool Torture in the National Security Imagination argues that dispelling this vision requires a new set of questions about the everyday work that torture does for U S society Stephanie Athey describes the role of torture in the proliferation of a U S national security stance and imagination as U S domestic tortures were refined in the Philippines at the turn of the twentieth century then in mid century counterinsurgency theory and the networks that brought it home in the form of law and order policing and mass incarceration Drawing on examples from news to military reports legal writing and activist media Athey shows that torture must be seen as a colonial legacy with a corporate future highlighting the centrality of torture to the American empire including its role in colonial settlement American Indian boarding schools and police violence She brings to the fore the spectators and commentators the communal energy of violence and the teams and target groups necessary to a mass undertaking equipment suppliers contractors bureaucrats university researchers and profiteers to demonstrate that at base torture is propelled by local social functions conducted by networked professional collaborations and publicly supported by a durable social imaginary

Culture, Trauma, and Conflict Nico Carpentier, 2015-06-18 War was pervasive in the 20th century and the 21st century seems to hold little promise of improvement It remains one of the world s most destructive forces which on a daily basis touches the lives of millions of people To increase an understanding of the pervasiveness and destructiveness of the institution of war all possible frameworks of knowledge must be mobilized Cultural War Studies has an important role to play in adding to this knowledge by putting the critical vocabulary of
