Films about education provide many of the most popular interpretations of what teaching and learning mean in schools. An analysis of this medium reveals much about the historical, cultural, political, and philosophical dimensions of education. Timely and engaging, this book fills a gap for scholarly and informed public commentary on the portrayal of education in film, offering a wide range of conceptual and interpretive perspectives. *Teaching, Learning, and Schooling in Film* explores several key questions, including: What does it mean to be a good teacher? How do these good teachers instruct? When is and what makes teaching complex? What constitutes learning? Do educational reforms work? The book's interdisciplinary group of contributors answers these important questions in essays highlighting Hollywood, independent, and documentary films. Prospective and practicing teachers will engage with the thought-provoking educational issues raised in this book and gain insight into the complexities of teaching and learning portrayed in film.

We Hold Our Breath Micah Fields, 2023-06-20

Houston's story has always been one of war waged relentlessly against water. Houston spread like a glass of milk spilled on the wobbling table of Texan plains. Micah Fields writes in this unique and poetic blend of reportage, history, and memoir. Developed as the commercial hub of the Texas cotton and sugarcane industries, Houston was designed for profit, not stability. Its first residents razed swamplands into submission to construct a maze of highways and suburbs, giving the city a sprawling, centerless energy where feral cats, alligators, and poisonous snakes flourished in the bayous as storms and floods rattled coastal Texas. When Hurricane Harvey made landfall in 2017, Fields set off from his home in Iowa back to the battered city of his childhood to rescue his mother, who was hell-bent on staying no matter how many feet of rain surged in from the Gulf. Along the way, he traded a Jeep for a small boat and floated among the storm's detritus in search of solid ground. With precision and eloquence, Fields tracks the devastation of Hurricane Harvey, one storm in a long lineage that threatens the fourth largest city in America. Fields depicts the history of Houston with reverence and lyrical certainty, investigating the conflicting facets of Texan identity that are as resilient as they are catastrophic, steeped in racial subjugation, environmental collapse, and capitalist greed. He writes of the development of the modern city in the wake of the destruction of Galveston in 1900, of the wealthy Menil family and self-taught abstract painter Forrest Bess, a queer artist and fisherman born in 1911 who hardly ever left the Gulf Coast of the oil booms and busts that shaped the city of the unchecked lust for growth that makes Houston so expressive of the American dream. *We Hold Our Breath* is a portrait of a city that exists despite it all, a city whose story has always been one of war waged relentlessly against water.

Redefining the Immigrant South Uzma Quraishi, 2020-03-25 In the early years of the Cold War, the United States mounted expansive public diplomacy programs in the Global South, including initiatives with the recently partitioned states of India and Pakistan. U.S. operations in these two countries became the second and fourth largest in the world, creating migration links that resulted in the emergence of American universities such as the University of Houston as immigration hubs for the highly selective student-led South Asian migration stream starting in the 1950s. By the late twentieth century, Houston's South Asian community had become one of the most prosperous in the metropolitan area and one of the largest in the country. Mining archives and using new oral histories, Uzma Quraishi traces this pioneering community from its midcentury roots to the early twenty-first century, arguing that South Asian immigrants appealed to class conformity and endorsed the model minority myth to navigate the complexities of a shifting Sunbelt South. By examining Indian and Pakistani immigration to a major city transitioning out of Jim Crow, Quraishi reframes our understanding of twentieth-century migration, the changing character of the South, and the tangled politics of race, class, and ethnicity in the United States.
