Trials of War Criminals Before the Nuernberg Military Tribunals Under Control Council Law No. 10, Nuremberg, October 1946-April, 1949: Case 5: U.S. v. Flick (Flick case), 1949 *Reassessing the Nuremberg Military Tribunals* Kim C. Priemel, Alexa Stiller, 2012-08-01 For decades the history of the US Military Tribunals at Nuremberg NMT has been eclipsed by the first Nuremberg trial the International Military Tribunal or IMT The dominant interpretation neatly summarized in the ubiquitous formula of Subsequent Trials ignores the unique historical and legal character of the NMT trials which differed significantly from that of their predecessor The NMT trials marked a decisive shift both in terms of analysis of the Third Reich and conceptualization of international criminal law This volume is the first comprehensive examination of the NMT and brings together diverse perspectives from the fields of law history and political science exploring the genesis impact and legacy of the twelve Military Tribunals held at Nuremberg between 1946 and 1949

The Reparation System of the International Criminal Court Eva Dwertmann, 2010-03-02 When the Rome Statute for the International Criminal Court was adopted in 1998 one of its great innovations was that victims were granted an active role in the proceedings In its early jurisprudence on victims rights the International Criminal Court stated that the success of the Court is to some extent linked to the success of its reparation system This book is among the first to focus on the International Criminal Court s power to order reparations to victims It provides a comprehensive analysis of the legal framework of the reparation system taking into account relevant Court decisions Possibilities for its implementation are drawn up providing potential solutions for its multiple challenges including the distinct asymmetry between the individualized responsibility to provide reparations and the collective nature of the crimes and its consequences With its practical approach this book is particularly valuable for practitioners but also for students and researchers

Democracy, Nazi Trials, and Transitional Justice in Germany, 1945-1950 Devin O. Pendas, 2020-09-24 Post war Germany has been seen as a model of transitional justice in action where the prosecution of Nazis most prominently in the Nuremberg Trials helped promote a

transition to democracy However this view forgets that Nazis were also prosecuted in what became East Germany and the story in West Germany is more complicated than has been assumed Revising received understanding of how transitional justice works Devin O Pendas examines Nazi trials between 1945 and 1950 to challenge assumptions about the political outcomes of prosecuting mass atrocities In East Germany where there were more trials and stricter sentences and where they grasped a broad German complicity in Nazi crimes the trials also helped to consolidate the emerging Stalinist dictatorship by legitimating a new police state Meanwhile opponents of Nazi prosecutions in West Germany embraced the language of fairness and due process which helped de radicalise the West German judiciary and promote democracy *The Birth of the New Justice* Mark Lewis, 2014-02-13 Until 1919 European wars were settled without post war trials and individuals were not punishable under international law After World War One European jurists at the Paris Peace Conference developed new concepts of international justice to deal with violations of the laws of war Though these were not implemented for political reasons later jurists applied these ideas to other problems writing new laws and proposing various types of courts to maintain the post World War One political order They also aimed to enhance internal state security address states failures to respect minority rights or rectify irregularities in war crimes trials after World War Two The Birth of the New Justice shows that legal organizations were not merely interested in ensuring that the guilty were punished or that international peace was assured They hoped to instill particular moral values represent the interests of certain social groups and even pursue national agendas When jurists had to scale back their projects it was not only because state governments opposed them It was also because they lacked political connections and did not build public support for their ideas In some cases they decided that compromises were better than nothing Rather than arguing that new legal projects were spearheaded by state governments motivated by liberal legalism Mark Lewis shows that legal organizations had a broad range of ideological motives liberal conservative utopian humanitarian nationalist and particularist The International Law Association the International Association of Penal Law the World Jewish Congress and the International Committee of the Red Cross transformed the concept of international violation to deal with new political and moral problems They repeatedly altered the purpose of an international criminal court sometimes dropping it altogether when national courts seemed more pragmatic Jurisprudence générale Victor Alexis Désiré Dalloz, 1869 The Politics of International Criminal Justice Ronen Steinke, 2012-05-25 To anyone setting out to explore the entanglement of international criminal justice with the interests of States Germany is a particularly curious exemplary case Although a liberal democracy since 1949 its political position has altered radically in the last 60 years Starting from a position of harsh scepticism in the years following the Nuremberg Trials and opening up to the rationales of international criminal justice only slowly and then mainly in the context of domestic trials against functionaries of the former East German regime after 1990 Germany is today one of the most active supporters of the International Criminal Court The climax of this is its campaigning to make the ICC independent of the UN

Security Council a debate in which Germany took a position in stark contrast to the United States This book offers new insight into the debates leading up to such policy shifts Drawing on government documents and interviews with policymakers it enriches a broader debate on the politics of international criminal justice which has to date often been focused primarily on the United States

The Pathos of the Real Robert Buch, 2010-12-15 This book is about the ambition in a set of paradigmatic writers of the twentieth century to simultaneously enlist and break the spell of the real their fascination with the spectacle of violence and suffering and the difficulties involved in capturing this kind of excess by aesthetic means The works at the center of this study by Franz Kafka Georges Bataille Claude Simon Peter Weiss and Heiner Müller zero in on scenes of agony destruction and death with an astonishing degree of precision and detail The strange and troubling nature of the appeal engendered by these sights is the subject of *The Pathos of the Real* Robert Buch shows that the spectacles of suffering conjured up in these texts are deeply ambivalent available neither to cathartic relief nor to the sentiment of compassion What prevails instead is a peculiar coincidence of opposites exaltation and resignation disfiguration and transfiguration agitation and paralysis Featuring the experiences of violent excess in strongly visual and often in expressly pictorial terms the works expose the nexus between violence and the image in twentieth century aesthetics Buch explores this tension between visual and verbal representation by drawing on the rhetorical notion of pathos as both insurmountable suffering and codified affect and the psychoanalytic notion of the real that is the disruption of the symbolic order In dialogue with a diverse group of thinkers from Erich Auerbach and Aby Warburg to Alain Badiou and Jacques Lacan *The Pathos of the Real* advances an innovative new framework for rethinking the aesthetics of violence in the twentieth century

Himmler's Diary 1945: A Calendar of Events Leading to Suicide Stephen Tyas, Peter Witte, 2014-03-24 *Himmler's Diary 1945 A Calendar of Events Leading to Suicide* is an exceptional work with unpublished diary entries made by Himmler that shows in detail how The Third Reich fell to ruin in its final bloody year Reichsführer SS Heinrich Himmler was instigator of the largest programme of racial mass murder in history 1 January 1945 saw Heinrich Himmler at his peak in Nazi Germany controlling the entire German police force including the Gestapo all SS organisations and Nazi Minister of the Interior His powers extended into the German Army and included Commander of the Replacement Army and two Army Groups Two field commands revealed his limitations and failure as army commander Between January and May 1945 Heinrich Himmler vacillated showing a lack of vision action and decision At least he was able to gain control of V 2 rocket production and their launch against Britain He ordered all concentration camp inmates be shot before rescinding the order When his SS generals asked for instructions Himmler ordered them to show backbone as their commands had few bounds The Swedes and Swiss negotiated with Himmler who allowed over 10 000 concentration camp prisoners taken to safety before Hitler intervened Himmler conducted peace feelers via the Swedes before the German surrender in May 1945

while trying to make contact with British Field Marshal Montgomery These contacts went unanswered Himmler was captured by the British and then committed suicide on 23 May 1945
