Long Nights:

The Long Night Jessica Kantrowitz, 2020-05-19 You've done what you can you've seen your doctor made an appointment with a therapist picked up the prescription for the antidepressant and swallowed that first strange pill But it can take four to eight weeks for the meds to start to work and it might take two or more tries before you and your doctor find the ones that work best for you When you're in the midst of terrible depression those weeks can feel like an eternity You just want to feel better now This book is for those who are in the long night of waiting It does not promise healing or deliverance it is not a guide to praying away the depression It is simply an attempt to sit next to you in the dark while you wait for the light to emerge Drawing on the wisdom of spiritual figures from the past and present including Henri Nouwen Thomas Merton Barbara Brown Taylor Bunmi Laditan and many others *The Long Night* is a comforting and inspirational companion for anyone in the midst of depression Writer editor and minister Jessica Kantrowitz has been where you are As a mentor and friend she will walk with you on this journey toward life and light

For the Sun After Long Nights Fatemeh Jamalpouri, Nilo Tabrizy, 2025-09-16 A moving exploration of the 2022 women-led protests in Iran as told through the interwoven stories of two Iranian journalists Unlike anything I've read A searing courageous and ultimately beautiful book filled with the spirit of the movement that it covers Ben Rhodes author of *The World as It Is* A Memoir of the Obama White House In September 2022 a young Kurdish woman Mahsa Jina Amini died after being beaten by police officers who arrested her for not adhering to the Islamic Republic's dress code Her death galvanized thousands of Iranians mostly women who took to the streets in one of the country's largest uprisings in decades the Woman Life Freedom movement Despite the threat of imprisonment or death for her work as a journalist covering political unrest state repression and grassroots activism in Iran which has led to multiple interrogation sessions and arrests Fatemeh Jamalpouri joined the throngs of people fighting to topple Iran's religious extremist regime And across the globe Nilo Tabrizy who emigrated from Iran with her family as a child covered the protests and state violence knowing that spotlighting the women on the front lines and the systemic injustice of the Iranian government meant she would not be able to safely return to Iran in the future Though they had met only once in person Nilo and Fatemeh corresponded constantly often through encrypted platforms to protect Fatemeh As the protests continued to unfold the sense of sisterhood they shared led them to embark on an effort to document the spirit and legacy of the movement and the history geopolitics and influences that led to this point At once deeply personal and assiduously reported *For the Sun After Long Nights* offers two perspectives on what it means to cover the stories that are closest to one's heart both in the forefront and from afar

Reid, 2012-12-06 R P PHARIS and D M REID The idea of a separate Encyclopaedia volume dealing with the interrelations of plant hormones with factors in the environment of the plant and its organs and tissues originated with N P KEFFORD and we are most appreciative of the help and advice provided by Prof KEFFORD in the formative stages of this volume We have thus interpreted environment very broadly to include not only factors external to the plant e g gravity light temperature wind mechanical wounding water organism s including pollen and

magnetic and electric stimuli but internal factors as well e g nutrients both inorganic and photoassimilate direction and time In our definition of hormonal effect or hormonal involvement we have asked our authors to take a broad approach and to examine not only phenomena that are mediated by the known plant hormones but to discuss as well a wide variety of processes and events where hormonal involvement is implied through more indirect analyses and observations The volume begins with environmental factors internal to the plant R J WEAVER and J O JOHNSON thus examine hormones and nutrients their inter relationship in movement accumulation and diversion As one studies a plant during its rapid growth phase and later as maturation and aging proceed it becomes apparent that time is an environmental cue of great significance one which may exert a major influence via hormonal messages
