Wallace, 2019-09-28 In this established textbook Wallace provides a succinct overview of the European Reformation interweaving the influential events of the religious reformation with the transformations of political institutions socio economic structures gender relations and cultural values throughout Europe Examining the European Reformation as a long term process he reconnects the classic 16th century religious struggles with the political and religious pressures confronting late medieval Christianity and argues that the resolutions proposed by reformers such as Luther were not fully realised for most Christians until the early 18th century This new edition features a brand new chapter on the Reformation from a global perspective updated historiography a new chronology and updated material throughout including on the interrelationship between religion and politics after 1648 The Long European Reformation provides an even handed and detailed account of

this complex topic providing a clear overview that is perfect for undergraduate and postgraduate students of history and religious studies New to this Edition New chapter on the Reformation in global perspective Incorporates new perspectives and current debates on Luther and the place of the Reformation within Western history including consideration of how people lived with their religious differences Expanded conclusion with references to the 500th anniversary and religious continuities *Early Modern Literature and England's Long Reformation* David Loewenstein, Alison Shell, 2020-12-17 Assessing early modern literature and England's Long Reformation this book challenges the notion that the English Reformation ended in the sixteenth century or even by the seventeenth century Contributions by literary scholars and historians of religion put these two disciplines in critical conversation with each other in order to examine a complex messy and long drawn out process of reformation that continued well beyond the significant political and religious upheavals of the sixteenth century The aim of this conversation is to generate new perspectives on the constant remaking of the Reformation or Reformations as some scholars prefer to characterize the multiple religious upheavals and changes both Catholic and Protestant of the early modern period This interdisciplinary book makes a major contribution to debates about the nature and length of England's Long Reformation *Early Modern Literature and England's Long Reformation* is essential reading for scholars and students considering the interconnections between literature and religion in the early modern period The chapters in this book were originally published as a special issue of the journal *Reformation* Reformations Carlos M. N. Eire, 2016-06-28 This fast paced survey of Western civilization's transition from the Middle Ages to modernity brings that tumultuous period vividly to life Carlos Eire popular professor and gifted writer chronicles the two hundred year era of the Renaissance and Reformation with particular attention to issues that persist as concerns in the present day Eire connects the Protestant and Catholic Reformations in new and profound ways and he demonstrates convincingly that this crucial turning point in history not only affected people long gone but continues to shape our world and define who we are today The book focuses on the vast changes that took place in Western civilization between 1450 and 1650 from Gutenberg's printing press and the subsequent revolution in the spread of ideas to the close of the Thirty Years War Eire devotes equal attention to the various Protestant traditions and churches as well as to Catholicism skepticism and secularism and he takes into account the expansion of European culture and religion into other lands particularly the Americas and Asia He also underscores how changes in religion transformed the Western secular world A book created with students and nonspecialists in mind *Reformations* is an inspiring provocative volume for any reader who is curious about the role of ideas and beliefs in history

Western Europe changed the way they thought about the concept of time over the early modern period by examining reactions to the 1688 1689 revolution in England and how people understood their own place in history and modernity through political and social transformation Worship, Civil War and Community, 1638-1660 Chris R. Langley, 2015-10-23

This is the first study of the interaction between warfare and national religious practice during the British Civil Wars Using hundreds of neglected local documents this work explores the manner in which civil conflict invasion and military occupation affected religious practice As Churches elsewhere in Britain and Ireland were dismantled and the country was invaded by a foreign English army mid seventeenth century Scotland provides an important yet neglected point of entry in exploring the intersection between early modern warfare and religious practice The book establishes a fresh way of looking at the conflicts of the mid seventeenth century No other study has explored how soldiers were quartered or marched in close proximity to parish worship how their presence affected worship patterns and how the very idea of conflict in the mid seventeenth century impacted upon the day to day lives of worshippers Using the signing of the National Covenant in 1638 as its starting point this perspective emphasises flexibility in religious practice and the dialogue between local communities religious leaders and troops as a critical element in the experience of war *Persuasion and Conversion* Torrance Kirby, 2013-08-22

The early modern public sphere emerges out of a popular culture of persuasion fostered by the Protestant Reformation By 1600 religious identity could no longer be assumed as given within the hierarchical institutions and elaborate apparatus of late medieval sacramental culture Reformers insisted on a sharp demarcation between the inner subjective space of the individual and the external public space of institutional life Gradual displacement of sacramental culture was achieved by means of argument textual interpretation exhortation reasoned opinion and moral advice exercised through both pulpit and press This alternative culture of persuasion presupposes a radically distinct notion of mediation The common focus of the essays collected here is the dynamic interaction of religion and politics which provided a crucible for the emerging modern public sphere **Cardiganshire County History Volume 2** Geraint H. Jenkins, Richard Suggett, Eryn Mant White, 2019-09-15
