Long Time Coming A Photographic Portrait Of America 1935 1943

James R. Swensen

Administration photographers by exploring an expanded and much more variable idea of the documentary than what New Dealers proposed. The coauthors follow in the line of scholars who have on the one hand looked critically at the FSA photography project and identified its goals, biases, contradictions, and ambivalences, and on the other hand discerned strikingly independent directions among its photographers. But what distinguishes their work from that of others is their wrestling with a specific term often applied to the Depression era trauma. If it was the case that documentary as a genre and FSA photographs as an umbrella project came to prominence during a time of trauma and in the hands of socially minded photographers was meant to address and publicize trauma, the coauthors of this volume seek to understand how trauma and photography mixed and how in the volatility of that mixture the competing ideas for documentary took shape. Among the key figures they study are some of the most beloved in American photography, including Walker Evans, Ben Shahn, and Aaron Siskind. Provided by publisher.

The Death and Life of Main Street Miles Orvell, 2012-10-01 For more than a century the term Main Street has conjured up nostalgic images of American small town life. Representations exist all around us, from fiction and film to the architecture of shopping malls and Disneyland. All the while the nation has become increasingly diverse, exposing tensions within this ideal. In *The Death and Life of Main Street*, Miles Orvell wrestles with the mythic allure of the small town in all its forms, illustrating how Americans continue to reinscribe these images on real places in order to forge consensus about inclusion and civic identity, especially in times of crisis. Orvell underscores the fact that Main Street was never what it seemed; it has always been much more complex than it appears, as he shows in his discussions of figures like Sinclair Lewis, Willa Cather, Frank Capra, Thornton Wilder, Margaret Bourke-White, and Walker Evans. He argues that translating the overly tidy cultural metaphor into real spaces, as has been done in recent decades, especially in the new urbanist planned communities of Elizabeth Plater Zyk and Andres Duany, actually diminishes the communitarian ideals at the center of this nostalgic construct. Orvell investigates the way these tensions play out in a variety of cultural realms and explores the rise of literary and artistic traditions that deliberately challenge the tropes and assumptions of small town ideology and life.

Hard Times Richard Striner, 2018-08-15 *Hard Times* presents a comprehensive account of economic depressions in America from colonial times to the great recession that began in 2008. Written in crisp prose for a general audience, the book synthesizes a narrative account presenting the known facts about how particular depressions started, the effects upon people in different walks of life, the policy debates about what, if anything, to do in order to ameliorate the situation, and how these depressions ended, with analytical commentary on the economic patterns underlying and transcending depressions and the debates among economists and policymakers in regard to their causes. While these economic downturns have created suffering and hardship, Striner also conveys how Americans have always endured and rebounded from hard times.

Picturing Migrants James R. Swensen, 2015-10 As time passes, personal memories of the Great Depression die with those who lived through the desperate 1930s. In the absence of firsthand knowledge, John

Steinbeck's *The Grapes of Wrath* and the photographs produced for the New Deal's Farm Security Administration (FSA) now provide most of the images that come to mind when we think of the 1930s. That novel and those photographs, as this book shows, share a history. Fully exploring this complex connection for the first time, *Picturing Migrants* offers new insight into Steinbeck's novel and the FSA's photography and into the circumstances that have made them enduring icons of the Depression. Looking at the work of Dorothea Lange, Horace Bristol, Arthur Rothstein, and Russell Lee, it is easy to imagine that these images came straight out of the pages of *The Grapes of Wrath*. This should be no surprise, James R. Swensen tells us, because Steinbeck explicitly turned to photographs of the period to create his visceral narrative of hope and loss among Okie migrants in search of a better life in California. When the novel became an instant best seller upon its release in April 1939, some dismissed its imagery as pure fantasy. Lee knew better and traveled to Oklahoma for proof. The documentary pictures he produced are nothing short of a photographic illustration of the hard lives and desperate reality that Steinbeck so vividly portrayed. In *Picturing Migrants*, Swensen sets these lesser-known images alongside the more familiar work of Lange and others, giving us a clearer understanding of the FSA's work to publicize the plight of the migrant in the wake of the novel and John Ford's award-winning film adaptation. A new perspective on an era whose hardships and lessons resonate to this day, *Picturing Migrants* lets us see, as never before, how a novel and a series of documentary photographs have kept the Great Depression unforgettable for generation after generation. **A Staggering Revolution** John Raeburn, 2010-10-01

During the 1930s, the world of photography was unsettled, exciting, and boisterous. John Raeburn's *A Staggering Revolution* recreates the energy of the era by surveying photography's rich variety of innovation, exploring the aesthetic and cultural achievements of its leading figures, and mapping the paths their pictures blazed in public imagination. While other studies of thirties photography have concentrated on the documentary work of the Farm Security Administration (FSA), no previous book has considered it alongside so many of the decade's other important photographic projects. *A Staggering Revolution* includes individual chapters on Edward Steichen's celebrity portraiture, Berenice Abbott's Changing New York project, the Photo League's ethnography of Harlem, and Edward Weston's western landscapes made under the auspices of the first Guggenheim Fellowship awarded to a photographer. It also examines Margaret Bourke-White's industrial and documentary pictures, the collective undertakings by California's Group f/64, and the fashion magazine specialists, as well as the activities of the FSA and the Photo League. *The Day in Its Color* Eric Sandweiss, 2013-06-01

Charles Cushman, 1896-1972, photographed a disappearing world in living color. Cushman's midcentury America, a place normally seen only through a scrim of gray, reveals itself as a place as vivid and real as the view through our window. *The Day in Its Color* introduces readers to Cushman's extraordinary work: a recently unearthed archive of photographs that is the largest known body of early color photographs by a single photographer. 14,500 in all, most shot on vivid color-saturated Kodachrome stock. From 1938 to 1969, Cushman, a sometime businessman and amateur photographer with an uncanny eye for everyday detail, travelled constantly shooting

everything he encountered as he ventured from New York to New Orleans Chicago to San Francisco and everywhere in between His photos include portraits ethnographic studies agricultural and industrial landscapes movie sets and media events children playing laborers working and thousands of street scenes all precisely documented in time and place The result is a chronicle of an era almost never seen or even envisioned in color This well preserved collection is all the more remarkable for having gone undiscovered for decades What makes the photos most valuable however is the wide range of subjects landscapes and moods it captures snapshots of a lost America as yet untouched by a homogenizing overlay of interstate highways urban renewal chain stores and suburban development a world of hand painted signs state fairs ramshackle shops small town living and bustling urban scenes The book also reveals the fascinating and startling life story of the man who stood unseen on the other side of the lens surely one of America s most impressive amateur photographers and outsider artists With over 150 gorgeous color prints *The Day in Its Color* gives us one of the most evocative visual histories of mid 20th century America that we have

World War II and the Postwar Years in America William H. Young, Nancy K. Young, 2010-09-17 More than 150 articles provide a revealing look at one of the most tempestuous decades in recent American history describing the everyday activities of Americans as they dealt first with war and then a difficult transition to peace and prosperity The two volume *World War II and the Postwar Years in America A Historical and Cultural Encyclopedia* contains over 175 articles describing everyday life on the American home front during World War II and the immediate postwar years Unlike publications about this period that focus mainly on the big picture of the war and subsequent economic conditions this encyclopedia drills down to the popular culture of the 1940s bringing the details of the lives of ordinary men women and children alive The work covers a broad range of everyday activities throughout the 1940s including movies radio programming music the birth of commercial television advertising art bestsellers and other equally intriguing topics The decade was divided almost evenly between war 1940 1945 and peace 1946 1950 and the articles point up the continuities and differences between these two periods Filled with evocative photographs this unique encyclopedia will serve as an excellent resource for those seeking an overview of life in the United States during a decade that helped shape the modern world

The Great Depression in Literature for Youth Rebecca L. Berg, 2004-11-17 No area of the United States was untouched by the Great Depression but the severity in which people experienced those significant years depended in large part on where in the nation they lived While dust choked the life out of Americans in the plains apples grew in abundance in the Northwest Unemployment driven poverty robbed urban dwellers of hearth and home while Upper plains farm women traded eggs and chickens like money This bibliography describes the youth literature and relevant resources written about the Great Depression all categorized by geographical location Students educators historians and writers can use this book to find literature specific to their state or region gaining a greater understanding of what the Great Depression was like in their locale The Great Depression was a pivotal period in our nation s history This annotated bibliography guides readers to

Exposing Mississippi Annette Trefzer, 2022-03-25 WINNER OF THE 2022 EUDORA WELTY PRIZE

Internationally known as a writer Eudora Welty has as well been spotlighted as a talented photographer The prevalent idea remains that Welty simply took snapshots before she found her true calling as a renowned fiction writer But who was Welty as a photographer What did she see How and why did she photograph And what did Welty know about modern photography In *Exposing Mississippi* Eudora Welty's Photographic Reflections Annette Trefzer elucidates Welty's photographic vision and answers these questions by exploring her photographic archive and writings on photography The photographs Welty took in the 1930s and 40s frame her visual response to the cultural landscapes of the segregated South during the Depression The photobook *One Time One Place* which was selected curated and shaped into a visual narrative by Welty herself serves as a starting point and guide for the chapters on her spatial hermeneutic The book is divided into sections by locations and offers how the framing of these areas reveals Welty's radical commentary of the spaces her camera captured There are over eighty images in *Exposing Mississippi* including some never before seen archival photographs and sections of the book draw on over three hundred more The chapters on institutional leisure and memorial landscapes address how Welty's photographs contribute to reflect on and intervene in customary visual constructions of the Depression era South

The Angelic Mother and the Predatory Seductress Ashley Craig

Lancaster, 2012-06-20 In *The Angelic Mother and the Predatory Seductress* Ashley Craig Lancaster examines how converging political and cultural movements helped to create dualistic images of southern poor white female characters in Depression era literature While other studies address the familial and labor issues that challenged female literary characters during the 1930s Lancaster focuses on how the evolving eugenics movement reinforced the dichotomy of altruistic maternal figures and destructive sexual deviants According to Lancaster these binary stereotypes became a new analogy for hope and despair in America's future and were well utilized by Depression era politicians and authors to stabilize the country's economic decline As a result the complexity of women's lives was often overlooked in favor of stock characters incapable of individuality Lancaster studies a variety of works including those by male authors William Faulkner Erskine Caldwell and John Steinbeck as well as female novelists Mary Heaton Vorse Myra Page Grace Lumpkin and Olive Tilford Dargan She identifies female stereotypes in classics such as *To Kill a Mockingbird* and in the work of later writers Dorothy Allison and Rick Bragg who
