Crediford, 2009-04-19 Through interviews and a generous photograph montage stretching over two decades reveals the commonality and diversity among these people of Indian identity When DeSoto in 1540 and later Juan Pardo in 1567 marched through what was known as the province of Cofitachequi which covered the southern part of today's North Carolina and most of South Carolina the native population was estimated at well over 18 000 Most shared a common Catawba language enabling this confederation of tribes to practice advanced political and social methods cooperate and support each other and meet their common enemy The footprint of the Cofitachequi is the footprint of this book The contemporary Catawba Midland Santee Natchez Kusso Varnertown Waccamaw Pee Dee and Lumbee Indians of North and South Carolina have roots in pre contact Cofitachequi Names have changed through the years tribes split and blended as the forces of nature the influx of Europeans and the imposition of federal government authority altered their lives For a few of these tribes the system has worked well or is working well now For others the challenge continues to try to work with and within the federal government's system for tribal recognition a system governing Indians but not created by them Through interviews and a generous photograph montage stretching over two decades Gene Crediford reveals the commonality and diversity among these people of Indian identity their heritage culture frustrations with the system joys in success of the younger generation and hope for the future of those who come after them This book is the story of those who remain **Picturing Migrants** James R. Swensen, 2015-10 As time passes personal memories of the Great Depression die with those who lived through the desperate 1930s In the absence of firsthand knowledge John Steinbeck's *The Grapes of Wrath* and the photographs produced for the New Deal's Farm Security Administration FSA now provide most of the images that come to mind when we think of the 1930s That novel and those photographs as this book shows share a history Fully exploring this complex connection for the first time *Picturing Migrants* offers new insight into Steinbeck's novel and the FSA's photography and into the circumstances that have made them enduring icons of the Depression Looking at the work of Dorothea Lange Horace Bristol Arthur Rothstein and Russell Lee it is easy to imagine that these images came straight out of the pages of *The Grapes of Wrath* This should be no surprise James R. Swensen tells us because Steinbeck explicitly turned to photographs of the period to create his visceral narrative of hope and loss among Okie migrants in search of a better life in California When the novel became an instant best seller upon its release in April 1939 some dismissed its imagery as pure fantasy Lee knew better and traveled to Oklahoma for proof The documentary pictures he produced are nothing short of a photographic illustration of the hard lives and desperate reality that Steinbeck so vividly portrayed In *Picturing Migrants* Swensen sets these lesser known images alongside the more familiar work of Lange and others giving us a clearer understanding of the FSA's work to publicize the plight of the migrant

in the wake of the novel and John Ford's award winning film adaptation *A New Perspective* on an era whose hardships and lessons resonate to this day *Picturing Migrants* lets us see as never before how a novel and a series of documentary photographs have kept the Great Depression unforgettably real for generation after generation *Flash!* Kate Flint, 2017-11-28 *Flash* presents a fascinating cultural history of flash photography from its mid nineteenth century beginnings to the present day All photography requires light but the light of flash photography is quite distinctive artificial sudden shocking intrusive and extraordinarily bright Associated with revelation and wonder it has been linked to the sublimity of lightning Yet it has also been reviled it's inseparable from anxieties about intrusion and violence it creates a visual disturbance and its effects are often harsh and create exaggerated contrasts *Flash* explores flash's power to reveal shocking social conditions its impact on the representation of race its illumination of what would otherwise remain hidden in darkness and its capacity to put on display the most mundane corners of everyday life It looks at flash's distinct aesthetics examines how paparazzi chase celebrities how flash is intimately linked to crime how flash has been used to light up and interrupt countless family gatherings how flash can stop time allowing one to photograph rapidly moving objects or freeze in a strobe and it considers the biggest flash of all the atomic bomb Examining the work of professionals and amateurs news hounds and art photographers photographers of crime and of wildlife the volume builds a picture of flash's place in popular culture and its role in literature and film Generously illustrated throughout *Flash* brings out the central role of this medium to the history of photography and challenges some commonly held ideas about the nature of photography itself **The Disciplinary Frame** John Tagg, 2009 How do photographs gain their meaning and power John Tagg claims that to answer this question we must look at the ways in which everything that frames photography the discourse that surrounds it and the institutions that circulate it determines what counts as truth *Fighting the Night* Paul Hendrickson, 2024-05-07 From the acclaimed and best selling author of *Hemingway's Boat* the profoundly moving story of his father's wartime service as a night fighter pilot and the prices he and his fellow soldiers paid for their acts of selfless patriotic sacrifice In the fall of 1944 Joe Paul Hendrickson the author's father kissed his twenty one year old wife and two baby children goodbye The twenty five year old first lieutenant pilot of a famed P 61 Black Widow was leaving for the war He and his night fighter squadron were sent to Iwo Jima where for the last five and a half months of World War II he flew approximately seventy five missions largely in pitch black conditions His wife would wait out the war at the home of her small town Ohio parents one of the countless numbers of American family members shouldering the burden of being left behind Joe Paul the son of a Depression poor Kentucky sharecropper was fresh out of high school in 1937 when he enlisted in mechanic school in the peacetime Army Air Corps Eventually he was able to qualify for flight school After marriage and with the war on the young officer and his bride crisscrossed the country airfield to airfield base to base Santa Ana Yuma Kissimmee Bakersfield Orlando La Junta Fresno He volunteered for night fighters and the newly arrived and almost mythic Black Widow A world away the carnage continued As

Paul Hendrickson tracks his parents journey together and separate both stateside and overseas he creates a vivid portrait of a hard to know father whose time in the war he comes to understand was something truly heroic but never without its hidden and unhidden psychic costs Bringing to life an iconic moment of American history and the tragedy of all wars Fighting the Night is an intense and powerful story of violence and love forgiveness and loss And it is a tribute to those who got plunged into service in the best years of their lives and the sacrifices they and their loved ones made then and thereafter

Hemingway's Boat Paul Hendrickson, 2011-09-20 National Book Critics Circle Award Finalist National Bestseller A brilliantly conceived and illuminating reconsideration of a key period in the life of Ernest Hemingway that will forever change the way he is perceived and understood Hendrickson's two strongest gifts that compassion and his research and reporting prowess combine to masterly effect Arthur Phillips The New York Times Book Review Focusing on the years 1934 to 1961 from Hemingway's pinnacle as the reigning monarch of American letters until his suicide Paul Hendrickson traces the writer's exultations and despair around the one constant in his life during this time his beloved boat Pilar Drawing on previously unpublished material including interviews with Hemingway's sons Hendrickson shows that for all the writer's boorishness depression and alcoholism and despite his choleric anger he was capable of remarkable generosity to struggling writers to lost souls to the dying son of a friend Hemingway's Boat is both stunningly original and deeply gripping an invaluable contribution to our understanding of this great American writer published fifty years after his death *Propaganda & Dreams* Leah Bendavid-Val, 1999 This book is a revealing portrait of two countries embodying the fantasies ideals and grim realities of an era But this book is also about today about how we get information and arrive at opinions about our own times

A Staggering Revolution John Raeburn, 2010-10-01 During the 1930s the world of photography was unsettled exciting and boisterous John Raeburn's A Staggering Revolution recreates the energy of the era by surveying photography's rich variety of innovation exploring the aesthetic and cultural achievements of its leading figures and mapping the paths their pictures blazed public's imagination While other studies of thirties photography have concentrated on the documentary work of the Farm Security Administration FSA no previous book has considered it alongside so many of the decade's other important photographic projects A Staggering Revolution includes individual chapters on Edward Steichen's celebrity portraiture Berenice Abbott's Changing New York project the Photo League's ethnography of Harlem and Edward Weston's western landscapes made under the auspices of the first Guggenheim Fellowship awarded to a photographer It also examines Margaret Bourke White's industrial and documentary pictures the collective undertakings by California's Group f 64 and the fashion magazine specialists as well as the activities of the FSA and the Photo League
