

The background of the slide is a complex, colorful fractal pattern. It features a dense network of branching, vein-like structures in shades of blue and green, interspersed with numerous small, bright yellow and orange spots. The overall effect is reminiscent of a microscopic view of a mineral surface or a complex biological structure like a coral reef or a network of neurons. The colors transition from deep blues and purples at the top to vibrant greens and yellows towards the bottom.

Carpenter, 2004-11 IN this collection of poems I show you the world in a unique perspective These are the kind of poems you can't put down You will want to get copies for your friends and family I touch on many issues in my poetry such as life death love faith survival societies issues and prejudices *THE LEGEND OF THE DRUNICORN* MICHELLE MELONI, ILLUSTRATIONS BY MICHELLE MELONI AND ALIYA FURTON, 2015-04-28 A dragon and a unicorn fall in love They defy the odds and have a baby They name him Druni He is the only one of his kind in the whole world When his mommy and daddy disappear Druni is left alone and afraid Druni grows up and discovers many things in his world Not far from his home he discovers a family of humans Together Druni and his friends survive a changing world **Being Deified** David Russell Mosley, 2016-12-01 Being Deified examines the importance of deification to Christian theology and the place of human creativity in deification Deification is an explanatory force for the major categories of Christian theology creation fall incarnation theological anthropology as well as the sacraments Deification explains in part the why of creation and the what of humanity God created in order to deify humanity is created to be deified the what of the Fall the desire for divinity outside of God's gifts one of the purposes for the Incarnation to deify and what end the sacraments aid deification Essential to deification is human creativity for humans are created in the image of God the Creator In order to explore this dimension of deification this essay focuses on works of poetry and fantasy in many ways the pinnacle of human creativity since both genres cause the making strange of things familiar language and creation itself in part to make them better known particularly as creations of the Creator **Liturgical Entanglements** David Russell Mosley, 2022-03-17 In the church year in prayer in liturgy we find a comingling of time and eternity Without leaving our experience of time we somehow mystically enter into God's eternity And God without leaving his eternity has entered into our time The poems in Liturgical Entanglements seek to engage with these strange realities Starting with Advent the sonnets in this collection look to both the human and the divine everyday occurrences and the spiritual realities that uphold all of reality Read these poems as prayers and let them help you see the world around you in a new way **The Green Man** David Russell Mosley, 2021-06-15 The Green Man is a collection of poetry that looks to the world around us and asks what lies behind the things we can see smell taste touch and hear Poetry can help us see through what Coleridge called the film of familiarity These poems attempt to help the reader pierce that veil and see the world around them in a new light Recite and Refuse Nick Admussen, 2016-10-31 Chinese prose poetry today is engaged with a series of questions that are fundamental to the modern Chinese language What is prose What is it good for How should it look and sound Millions of Chinese readers encounter prose poetry every year both in the most official of state

sponsored magazines and in the unorthodox experimental work of the avant garde Recite and Refuse makes the answers to our questions about prose legible by translating surveying and interpreting prose poems and by studying the people politics and contexts that surround the writing of prose poetry Author Nick Admussen argues that unlike most genres Chinese prose poems lack a distinct size or shape Their similarity to other prose is the result of a distinct process in which a prose form is recited with some kind of meaningful difference an imitation that refuses to fully resemble its source This makes prose poetry a protean ever changing group of works channeling the language of science journalism Communist Party politics advertisements and much more The poems look vastly different as products but are made with a similar process Focusing on the composition process allows Admussen to rewrite the standard history of prose poetry finding its origins not in 1918 but in the obedient socialist prose poetry of the 1950s Recite and Refuse places the work of state sponsored writers in mutual relationship to prose poems by unorthodox and avant garde poets from cadre writers like Ke Lan and Guo Feng to the border crossing intellectual and poet Liu Zaifu to experimental artists such as Ouyang Jianghe and Xi Chuan The volume features never before seen English translations that range from the representative to the exceptional culminating with Ouyang Jianghe's masterpiece Hanging Coffin Reading across the spectrum enables us to see the way that artists interact with each other how they compete and cooperate and how their interactions as well as their creations continuously reinvent both poetry and prose

Cats, Carpenters, and Accountants Wayne de Fremery,2024-05-07 An expansive case for bibliography as infrastructure in information science Cats Carpenters and Accountants argues that bibliography serves a foundational role within information science as infrastructure and like all infrastructures it needs and deserves attention Wayne de Fremery s thoughtful provocation positions bibliography as a means to serve the many ends pursued by information scientists He explains that bibliographic practices such as enumeration and description lie at the heart of knowledge practices and cultural endeavors but these kinds of infrastructures are difficult to see In this book he reveals them and the ways that they formulate information and meaning artificial intelligence and human knowledge Drawing on scholarship from areas as diverse as data science machine learning Korean poetry and the history of bibliography de Fremery makes the case for understanding bibliography as a generative mode of accounting for what has been received as data what he calls carpentry accounting Referencing a well known debate in the Anglo American bibliographical tradition that features a willful cat he suggests that bibliography and bibliographers are intentionally marginal figures who paradoxically perform foundational work in the service of the diverse disciplinary ends that formulate however loosely information science as a field When we attend to the marginal but essential work of accounting for what humankind has fashioned as recorded knowledge it becomes easier to consider the ways that human accounts can serve and sometimes injure us Relevant to scholars and students from the sciences to the humanities Cats Carpenters and Accountants is a highly original argument for bibliography as a marginal but foundationally powerful force shaping information science as a field and the ways that we know

Poetry and Work Jo Lindsay Walton,Ed Luker,2019-11-16 Poetry and Work offers a timely and much needed re examination of the relationship between work and poetry The volume questions how lines are drawn between work and non work how social political and technological upheavals transform the nature of work how work appears or hides within poetry and asks if poetry is work or play or something else completely The book interrogates whether poetry and avant garde and experimental writing can provide models for work that is less alienated and more free In this major new collection sixteen scholars and poets draw on a lively array of theory and philosophy archival research fresh readings and personal reflection in order to consider work and poetry the work in poetry and the work of poetry Individual chapters address issues such as the many professions occupations and tasks of poets beyond and around writing poetry s special relationship with craft work s relationship with gender class race disability and sexuality how work gets recognised or rendered invisible in aesthetic production and beyond the work of poetry and the work of political activism and organising and the notion of poetry itself as a space where work and play can blur and where postwork imaginaries can be nurtured and explored
