Louis Xiii The Making Of A King:

Louis the Thirteenth Louis the XIII Elizabeth W. Marvick,1986 The Making of a King [i.e. Louis XIII., King of France]. ... With 17 Illustrations, Etc Ida Ashworth TAYLOR,1910 **Louis XIII, the Just** A. Lloyd Moote,1991-08-08 In this fascinating biography A Lloyd Moote provides the first authoritative account of one of the most enigmatic figures of seventeenth century Europe Contrary of popular portrayals of the monarch as a hapless kind Moote argues that Louis XIII was a ruler who powerfully shaped his people s destiny The Formation of the Child in Early Modern Spain Grace E. Coolidge,2016-03-16 Drawing on history literature and art to explore childhood in early modern Spain the contributors to this collection argue that early modern Spaniards conceptualized childhood as a distinct and discrete stage in life which necessitated special care and concern The volume contrasts the didactic use of art and literature with historical accounts of actual children and analyzes children in a wide range of contexts including the royal court the noble family and orphanages The volume explores several interrelated questions that challenge both scholars of Spain and scholars specializing in childhood How did early modern Spaniards perceive childhood In what framework literary artistic did they think about their children and how did they visualize those children s roles within the family and society How do gender and literary genres intersect with this concept of childhood How did ideas about childhood shape parenting parents and adult life in early modern Spain How did theories about children and childhood interact with the actual experiences of children and their parents The group of international scholars contributing to this book have developed a variety of creative interdisciplinary approaches to uncover children s lives the role of children within the larger family adult perceptions of childhood images of children and childhood in art and literature and the ways in which children and childhood were vulnerable and in need of protection Studying children uncovers previously hidden aspects of Spanish history and allows the contributors to analyze the ideals and goals of Spanish culture the inner dynamics of the Habsburg court and the vulnerabilities and weaknesses that Spanish society fought to overcome *Richelieu* R J Knecht,2014-01-09 This concise and up to date assessment of Richelieu s career provides an enthralling introduction to the character and exercise of his power Richelieu governed France for 18 years until his death and until the mid 20th century was viewed by Anglo Saxon historians as cold clever and ruthless Recent interpretations have been more favourable and in this incisive study R J Knecht uses recent research to reassess Richelieu s career and achievements Music and Power at the Court of Louis XIII Peter Bennett,2021-05-27 What role did sacred music play in mediating Louis XIII s grip on power in the early seventeenth century How can a study of music as sounding liturgy contribute to the wider discourse on absolutism and the arts in early modern France Taking the scholarship of the so called ceremonialists as a point of departure Peter Bennett engages with Weber s seminal formulation of power to consider the contexts in which liturgy music and ceremonial legitimated the power of a king almost continuously engaged in religious conflict Numerous musical settings show that David the psalmist musician king and agent of the Holy Spirit provided the

most enduring model of kingship but in the final decade of his life as Louis dedicated the Kingdom to the Virgin Mary the model of Christ the King became even more potent a model reflected in a flowering of musical publication and famous paintings by Vouet and Champaigne

The Limits of Absolutism in ancien régime France Richard Bonney, 2024-10-28 This selection of articles is organized around three broad themes the nature of the governing system in France Absolutism the political crisis of the mid 17th century the Fronde and the development of royal finance The author first considers the growth of the French state in its ideological and institutional aspects then the opposition such developments provoked much centred on the figure of Cardinal Mazarin In the last section particular attention is given to fiscal history including a comparison of mid 18th century France with the other states of Europe Professor Bonney would argue that the fiscal imperative the increased requirements posed by the costs of war and the long term consequences of fiscal growth may be seen as one of the decisive factors in the development of the modern state

King of the World Philip Mansel, 2020-09-01 Louis XIV was a man in pursuit of glory Not content to be the ruler of a world power he wanted the power to rule the world And for a time he came tantalizingly close Philip Mansel's *King of the World* is the most comprehensive and up to date biography in English of this hypnotic flawed figure who continues to captivate our attention This lively work takes Louis outside Versailles and shows the true extent of his global ambitions with stops in London Madrid Constantinople Bangkok and beyond We witness the importance of his alliance with the Spanish crown and his success in securing Spain for his descendants his enmity with England and his relations with the rest of Europe as well as Asia Africa and the Americas We also see the king's effect on the two great global diasporas of Huguenots and Jacobites and their influence on him as he failed in his brutal attempts to stop Protestants from leaving France Along the way we are enveloped in the splendor of Louis's court and the fascinating cast of characters who prostrated and plotted within it *King of the World* is exceptionally researched drawing on international archives and incorporating sources who knew the king intimately including the newly released correspondence of Louis's second wife Madame de Maintenon Mansel's narrative flair is a perfect match for this grand figure and he brings the Sun King's world to vivid life This is a global biography of a global king whose power was extensive but also limited by laws and circumstances and whose interests and ambitions stretched far beyond his homeland Through it all we watch Louis XIV progressively turn from a dazzling attractive young king to a belligerent reactionary who sets France on the path to 1789 It is a convincing and compelling portrait of a man who three hundred years after his death still epitomizes the idea of le grand monarque
