Sweet Dreams Warren R. Hofstra, 2013-08-01 One of the most influential and acclaimed female vocalists of the twentieth century Patsy Cline 1932-63 was best known for her rich tone and emotionally expressive voice Born Virginia Patterson Hensley she launched her musical career during the early 1950s as a young woman in Winchester Virginia and her heartfelt songs reflect her life and times in this community A country music singer who enjoyed pop music crossover success Cline embodied the power and appeal of women in country music helping open the lucrative industry to future female solo artists Bringing together noted authorities on Patsy Cline and country music Sweet Dreams The World of Patsy Cline examines the regional and national history that shaped Cline s career and the popular culture that she so profoundly influenced with her music In detailed deeply researched essays contributors provide

an account of Cline's early performance days in Virginia's Shenandoah Valley analyze the politics of the split between pop and country music and discuss her strategies for negotiating gender in relation to her public and private persona. Interpreting rich visual images, fan correspondence, publicity tactics, and community mores, this volume explores the rich and complex history of a woman whose music and image changed the shape of country music and American popular culture. Contributors are Beth Bailey, Mike Foreman, Douglas Gomery, George Hamilton IV, Warren R. Hofstra, Joli Jensen, Bill C. Malone, Kristine M. McCusker, and Jocelyn R. Neal.

Musicological Identities Jacqueline Warwick, 2017-07-05. No music scholar has made as profound an impact on contemporary thought as Susan McClary, a central figure in what has been termed the new musicology. In this volume, seventeen distinguished scholars pay tribute to her work with essays addressing three approaches to music that have characterized her own writings: reassessing music's role in identity formation, particularly regarding gender, sexuality, and race; exploring music's capacity to define and regulate perceptions and experiences of time; and advancing new modes of analysis more appropriate to those aspects and modes of musicking ignored by traditional methods. Contributors include, in overlapping categories, many fellow pioneers, current colleagues, and former students, and their essays like McClary's own work address a wide range of repertoires, ranging from the established canon to a variety of popular genres. The collection represents the generational arrival of the new musicology into full maturity, dividing fairly evenly between pre-eminent scholars of music and a group of younger scholars who have already made their mark in significant ways. But the collection is also, and fundamentally, interdisciplinary in nature, in active conversation with such fields as history, anthropology, philosophy, aesthetics, media studies, film studies, dramatic criticism, women's studies, and cultural studies.

Sound Judgment Richard Leppert, 2023-05-31. The essays in *Sound Judgment* span the full career of Richard Leppert, from his earliest work that appears here for the first time on subjects drawn from early modernity to the present, concerning music both popular and classical, European and North American. Noted for his path-breaking interdisciplinary scholarship on music and visual culture, the collection includes key essays on music's visualization in art practices in virtually all visual media, including film. The fourteen essays comprising this volume demonstrate Leppert's many contributions to critical musicology, particularly in the areas of aesthetics, as well as social and intellectual history, all of it grounded in a heterodox body of critical and cultural theory with the work of Theodor W. Adorno, particularly noteworthy. The collection is preceded by an introduction in which Leppert traces his intellectual development, defined in large part by the social, cultural, and political upheavals of the 1960s and their aftermath, both in the academy and in society at large.
