Love Detour:

Cosmically Curious Len Jepson, 2018-04-23 *Cosmically Curious* can be a convincer for being very curious about everything It can change ones views of existence which can be fun strange or creepy Len Jepson a longtime pastor and lifelong philosopher draws upon philosophies theologies and physics to reveal new curiosities about consciousness He observes that if there is anything we feel with certainty it is that the world we experience is real Each morning we take for granted that the iPhone with the alarm set is real because we can see touch and hear it and turn it off We can climb into a vehicle and drive to work We can observe the yellow arches of McDonalds still lighted in the predawn grayness and a myriad of lighted arch rivals It seems without question that out there around us independent and apart from us exists a physical world But what if our assumptions are wrong Join the author as he questions reality explores unknowns examines a spectrum of spirituality and encourages everyone to be very curious
