Imagining Punjab, Punjabi and Punjabi in the Transnational Era

Anjali Roy, 2017-10-02 This book moves away from originary myths of region and identity that have dominated academic and mediatized representations of Punjab a land locked region divided between India and Pakistan after the Partition of 1947 and instead focuses on the role of the imagination in producing Punjab It deconstructs Punjab as an ethno spatial ethno linguistic and ethno cultural construct produced by the communities who dwell there those who have left it and those formed by new narratives of the region By isolating imaginings of Punjab that are not centred on exclusivist regional linguistic sectarian or caste perspectives contributions to this book propose the concept of free flowing cartographies in relation to Punjab which facilitate its imaginings as a geographical region a social construct and a state of consciousness The region is simultaneously imagined as a small place a neighbourhood a city and a village but also as a performative practice and a certain ways of doing things Through focusing on a number of Punjabi spaces and communities and engaging with Punjab as a geographical region social construct and state of consciousness the papers in the book hope to contribute to broader debates on transnationalism postnationalism micronationalism and new identity narratives emerging in the twenty first century This book was originally published as a special issue of South Asian Diaspora

Exploring Gender and Sikh Traditions Doris R.

Jakobsh,2021-09-01 This volume gathers scholars who focus on gender through a variety of disciplines and approaches to Sikh Studies The intersections of religion and gender are here explored based on an understanding that both are socially constructed Far from being static as so often presented in world religions textbooks religious traditions are constantly in flux responding to historical cultural and social contexts So too is the Sikh tradition in terms of practices ideologies rituals and notions of identity We here conclude that a Sikh tradition does not exist instead there are numerous forms thereof In this volume Sikhism is presented as a collection of Sikh traditions Gender studies in line with women s liberation masculine and feminist studies have long examined and have long deconstructed the patriarchy but also move to identify other subordinate dominant relations between individuals Indeed there are numerous forms of discrimination and power structures that simultaneously create a multiplicity of oppression Intersectionality has become the basis of an increasingly systematized production of contemporary discourses on feminism and gender analysis as is evidenced by the varied contributions in this volume
