Narratives Of Greater Mexico Essays On Chicano Literary History Genre And Borders Cmas History:

Narratives of Greater Mexico Héctor Calderón, 2004 Once relegated to the borders of literature neither Mexican nor truly American Chicana o writers have always been in the vanguard of change articulating the multicultural ethnicities shifting identities border realities and even postmodern anxieties and hostilities that already characterize the twenty first century Indeed it is Chicana o writers very in between ness that makes them authentic spokespersons for an America that is becoming increasingly Mexican Latin American and for a Mexico that is ever more Americanized In this pioneering study Hector Calder n looks at seven Chicana and Chicano writers whose narratives constitute what he terms an American Mexican literature Drawing on the concept of Greater Mexican culture first articulated by Americo Paredes Calder n explores how the works of Paredes Rudolfo Anaya Tomás Rivera Oscar Zeta Acosta Cherr e Moraga Rolando Hinojosa and Sandra Cisneros derive from Mexican literary traditions and genres that reach all the way back to the colonial era His readings cover a wide span of time 1892 2001 from the invention of the Spanish Southwest in the nineteenth century to the Am rica Mexicana that is currently emerging on both sides of the border In addition to his own readings of the works Calder n also includes the writers perspectives on their place in American Mexican literature through excerpts from their personal papers and interviews correspondence and e mail exchanges he conducted with most of them

Latinos and Nationhood Nicolás Kanellos, 2023-10-03 Spanning from the early nineteenth century to today this intellectual history examines the work of Latino writers who explored the major philosophic and political themes of their day including the meaning and implementation of democracy their democratic and cultural rights under U S dominion their growing sense of nationhood and the challenges of slavery and disenfranchisement of women in a democratic republic that had yet to realize its ideals Over the course of two centuries these Latino or Hispanic intellectuals were natural born citizens of the United States immigrants or political refugees Many of these intellectuals whether citizens or not strove to embrace and enliven such democratic principles as freedom of speech and of the press the protection of minorities in the Bill of Rights and in subsequent laws and the protection of linguistic and property rights among many others guaranteed by treaties when the United States incorporated their homelands into the Union The first six chapters present the work of lesser known historical figures most of whom have been consistently ignored by Anglo and Euro centric history and whose works have

been widely inaccessible until recently who were revolutionaries editors of magazines and newspapers and speechmakers who influenced the development of a Latino consciousness The last three chapters deal with three foundational figures of the Chicano Movement the last two of whom either subverted the concept of nationhood or went beyond it to embrace internationalism in an outreach to humanity as a whole Latinos and Nationhood sheds new light on the biographies of Félix Varela Jos Alvarez de Toledo y Dubois Francisco Ramirez Tom s Rivera Rolando Hinojosa Smith and Gloria E Anzald a among others *The Hispanic American Historical Review* James Alexander Robertson,2005 Includes Bibliographical section

Iberoamericana ,2007 **Bridges, Borders, and Breaks** William Orchard,Yolanda Padilla,2018-10-26 This volume reassesses the field of Chicana o literary studies in light of the rise of Latina o studies the recovery of a large body of early literature by Mexican Americans and the transnational turn in American studies The chapters reveal how Chicano defines a literary critical sensibility as well as a political one and show how this view can yield new insights about the status of Mexican Americans the legacies of colonialism and the ongoing prospects for social justice Chicana o literary representations emerge as significant examples of the local that interrogate globalization s attempts to erase difference They also highlight how Chicana o literary studies interests in racial justice and the minority experience have produced important intersections with new disciplines while also retaining a distinctive character The recalibration of Chicana o literary studies in light of these shifts raises important methodological and disciplinary questions which these chapters address as they introduce the new tools required for the study of Chicana o literature at this critical juncture *Chicano Narrative* Ramón Saldivar,1990 In struggling to retain their cultural unity the Mexican American communities of the American Southwest in the nineteenth and twentieth centuries have produced a significant body of literature Chicano Narrative examines representative narratives including the novel short story narrative verse and autobiography that have been excluded from the American canon

Historia Louis Gerard Mendoza,2001 The nature of ethnic identity has been a major issue in the Mexican American community for decades now Historia The Literary Making of Chicana and Chicano History makes a superb contribution to the multidisciplinary exploration of ways Mexican Americans have chosen to present their past through both factual and fictional narratives Whereas history has offered frameworks for interpreting generational changes in the understanding of identity literature has been particularly rich in exploring themes of power and domination and of intragroup complexities Louis Gerard Mendoza argues in this innovative look at historical and imaginative literatures and their role in the formation of ethnic identity Focusing on late twentieth century literature and history by American writers of Mexican descent Mendoza

examines how style purpose and context function to facilitate or constrain the understanding of the past By juxtaposing the literary and the historical he provides new insight on culture agency and experience Mendoza accepts as his starting point the generational model posited by historian Mario Garc a then contrasts for each generation the nuances and contradictions offered by one or more Chicana o creative writers Other historians whose works are centrally considered include Juan Gomez Qui ones Rodolfo Alvarez Ricardo Romo David Montejano and Carlos Mu oz while the literary writers featured include Jovita Gonz lez Alejandro Morales Sara Estela Ram rez Teresa Paloma Acosta Oscar Zeta Acosta and Am rico Paredes Mendoza argues that history is the narrative battleground upon which literature is based the writing and rewriting of Chicano history thus becomes an important subtext of Chicana o literature However he contends that most Chicana o historical narratives are integrated uncritically into literary analysis to establish background resulting in the invocation of the histories as representations of the real Libraries Borderlands scholars and those interested in the broad issues of cultural studies will want to own Mendoza s innovative book which instead of insisting on the strict separation of the two genres of history and literature seeks ways to integrate them through the new critical analysis

BOOK JACKET *Criticism in the Borderlands* Héctor Calderón, José David Saldívar, 1991-05-30 This pathbreaking anthology of Chicano literary criticism with essays on a remarkable range of texts both old and new draws on diverse perspectives in contemporary literary and cultural studies from ethnographic to postmodernist from Marxist to feminist from cultural materialist to new historicist The editors have

organized essays around four broad themes: the situation of Chicano literary studies within American literary history and debates about the canon; representations of the Chicana/o subject; genre, ideology, and history; and the aesthetics of Chicano literature. The volume as a whole aims at generating new ways of understanding what counts as culture and theory and who counts as a theorist. A selected and annotated bibliography of contemporary Chicano literary criticism is also included. By recovering neglected authors and texts and introducing readers to an emergent Chicano canon by introducing new perspectives on American literary history, ethnicity, gender, culture, and the literary process itself, *Criticism in the Borderlands* is an agenda-setting collection that moves beyond previous scholarship to open up the field of Chicano literary studies and to define anew what is American literature.
