The State of Nonprofit Sector Research in Japan Aya Okada, Yu Ishida, Takako Nakajima, Yasuhiko

Kotagiri, 2017-11-06 Despite a long history the organized field of research on voluntaristics in Japan has emerged only in the past two decades This article presents a comprehensive review of voluntaristics research in Japan through an overview of past studies and recent hot topics Nonprofit sector and voluntary action research now termed voluntaristics Smith 2016 is reviewed here using four approaches organizational economic employment and charitable giving Discussion of recent changes in the political legal environment for nonprofit agencies and associations as well as of collaboration among nonprofits governments and businesses are presented The article also covers some of the key topics in recent years including rising social movements and advocacy social impact bonds social capital and information and communication technologies ICT and social media In discussing the emergence expansion and diversification of nonprofit research in Japan the article makes two main arguments First we argue that studies of voluntaristics are rather recent in Japan still in pursuit of their own originality Second we argue that nonprofit research in Japan is constantly looking for an ideal relationship with practice Research appears to have not fully caught up with the changing landscape of nonprofits in action and research has not been able to guide practice into the best next steps The article highlights characteristics of nonprofit sector research in Japan as well as suggesting key questions for future research

The Nonprofit Sector in Japan Tadashi Yamamoto, 1998-07-15 This volume provides the first systematic analysis of the Japanese nonprofit sector ever undertaken Using a broad range of qualitative and quantitative data the authors show that Japan has a much larger nonprofit sector than is recognized even in Japan Three quarters of all university students attend nonprofit institutions significant shares of hospital beds are in nonprofit institutions and nonprofit agencies are active in the field of social services Yet in comparative terms the Japanese nonprofit sector lags significantly behind that of other developed economies One reason for this the authors argue is the generally hostile attitude the government has historically taken towards nonprofit organizations in Japan nonprofit organizations wishing to attain legal status have to secure the approval of a competent Ministry and this is often given begrudgingly or not at all The nonprofit sector in Japan has only just begun to flex its muscles as an independent force in very recent years and is now on the brink of a new phase in its development

The Voluntary and Non-Profit Sector in Japan Stephen Osborne, 2003-09-02 The voluntary and non profit sector is an important and emerging feature of Japanese society It is a response both to the changing nature of this society and to political and social trends that have encouraged the Japanese government to see this sector as a potential provider of public services It is also part of the emergence of civil society in Japan This book explores the roots of the societal challenges that voluntary and non profit organisations face in Japan and evaluates their future impact on Japanese society Containing contributions from leading researchers internationally as well as from key practitioners from Japan this book is essential reading for any student of Japanese studies
