Power Struggles:

Power Struggles Allen N. Mendler, Brian D. Mendler, 2011-11-01 It's every educator's worst fear losing control of the classroom. Regain the focus of challenging and resistant students with this practical resource on classroom management, discipline, and motivation. The dedicated authors re-examine the root causes of student misbehavior and offer a range of easy-to-implement instructions and activities along with real-world stories of these strategies. **Power Struggles** Jaume

Franquesa, Jaume Franquesa Bartolome, 2018-04-23 Wind energy is often portrayed as a panacea for the environmental and political ills brought on by an overreliance on fossil fuels, but this characterization may ignore the impact wind farms have on the regions that host them. *Power Struggles* investigates the uneven allocation of risks and benefits in the relationship between the regions that produce this energy and those that consume it. Jaume Franquesa considers Spain a country where wind now constitutes the main source of energy production. In particular, he looks at the Southern Catalonia region, which has traditionally been a source of energy production through nuclear reactors, dams, oil refineries, and gas and electrical lines. Despite providing energy that runs the country, the region is still forced to the political and economic periphery as the power they produce is controlled by centralized international Spanish corporations. Local resistance to wind farm installation in Southern Catalonia relies on the notion of dignity, the ability to live within one's means, and according to one's own decisions. *Power Struggles* shows how, without careful attention, renewable energy production can reinforce patterns of exploitation even as it promises a fair and hopeful future. **Origins of Power Struggles** Youzheng Li, 2025-03-21 In terms of

humanistic epistemology, the present book presents an empirical, positive view of historical philosophy, emphasizing that the first cause of power struggles and evil doings in human history comes from the human nature rooted in biological substrate, while all related external factors act as the external conditions or secondary reasons. Therefore, enlightened progress of civilizations depends on the effective formation of political/legal institutions rather than on the improved morality that remains the effect of the sociopolitical circumstances. In light of this point of view, the book reinterprets the causal connections between ancient tyrannies, the Enlightenment, and utopian socialism, especially representing the paradoxical connections between classical Marxism and Lenin/Stalinism, and pointing out why 20th-century Communist realism betrays rather than inherits the 19th-century Socialist utopianism at the ideal level. Far from being the inheritor of socialist utopian idealism, the modern Communist movement is a modernized restoration of the traditional tyrannies at a much enlarged and more systematic scale. The Power Struggles over the Post-neoliberal Social Security System Reforms in Venezuela and Ecuador Ezequiel Luis Bistoletti,2018-08-25 This book carries out a comparative analysis of the power struggles over the post neoliberal social security reforms in Venezuela and Ecuador The research breaks down why the social security system reform initiated by Hugo Ch vez government in Venezuela has come down since its passing in 2002 whereas the social security system reform initiated by Rafael Correa s government in Ecuador has come along in spite of the obstacles since 2007 All in all the analysis determined that the struggles over the social security system reforms in both countries remarkably corresponded to each other with regard to their structural conditions points of contention and contending actors In contrast the analysis established substantial divergences regarding the ways in which the struggles over both reforms came about due to the divergent development of the struggles for hegemony between government and opposition These divergences finally brought about the indefinite stagnation of the reform in Venezuela and the advancement of subsequent partial reforms aimed at the universalization of social security in Ecuador
