Prayer In The Religious Traditions Of Africa:

Prayer in the Religious Traditions of Africa Aylward Shorter, 1975 **Prayer in the Religious Traditions of Africa** Aylward Shorter, 1976 **African Religions & Philosophy** John S. Mbiti, 1990 African Religions and Philosophy is a systematic study of the attitudes of mind and belief that have evolved in the many societies of Africa In this second edition Dr Mbiti has updated his material to include the involvement of women in religion and the potential unity to be found in what was once thought to be a mass of quite separate religions Mbiti adds a new dimension to the understanding of the history thinking and life throughout the African continent Religion is approached from an African point of view but is as accessible to readers who belong to non African societies as it is to those who have grown up in African nations Since its first publication this book has become acknowledged as the standard work in the field of study and it is essential reading for anyone concerned with African religion history philosophy anthropology or general African studies **The Religious Traditions of Africa** Elizabeth Isichei, 2004-11-23 This work is a first of its kind historical introduction to the major religions of Africa The vast majorities of Africa's peoples have been Muslim Christian or Traditionalist for a great deal of time making an inclusive study of these religions essential Isichei's work gives equal attention to all three religions and balances the elements of each to construct an easily accessible overview It is also the first book to provide a comprehensive look at the traditional religion in Africa filling the void in the literature on African religious history Written by a pioneering scholar in the African religious experience this volume blends in depth research and personnel accounts to explore the origins and effects of religion in Africa While primarily a work of history this book also incorporates the latest findings while engaging with current issues such as the interface of neo traditional religion and contemporary cultures This work includes four sections each dedicated to a separate religion detailed maps a glossary and a guide to further reading **Prayer in the Religious Traditions of Africa** Aylward Shorter (sac.), 1975 *African Church Fathers - Ancient and Modern* Hans S. A. Engdahl, 2021-01-26 This critical and close reading of two African theologians Origen 185-254 and Mbiti 1931-2019 focuses on the following areas philosophy African philosophy and religion and Platonic cosmology ecclesiology and eschatology a parallel presentation of these three themes leads to a fourth theme that of the resurrection where it is argued that there exists a consensus and a convergence between the two This reading also highlights two convictions that partly have caused strong criticism Mbiti has suggested that African philosophy and religion have a conception of time of their own Origen that all and everything is gradually moving towards an apokatastasis at which point all will be saved Yet the contention is that even more important to both Mbiti and Origen is the resurrection of Jesus Christ In order to establish the impact of the resurrection on their lives as Christians and as theologians a contrast reading has been undertaken i.e. texts are identified which underline the need to forge a link between the resurrection and the earthly ministry of Jesus These texts also underwrite the conviction of Mbiti as well as Origen of the resurrection as something which must be lived in church and society corporately as well as in personal

devotion The fact of resurrection creates a new mode of life *African Indigenous Religious Traditions in Local and Global Contexts* Ogungbile, David O.,2015-09-23 This volume honours one of the great scholars of our era Professor Jacob Olupona Although he has conducted significant portions of his career outside of Nigeria he has not separated himself from his colleagues or from interests in religions in Nigeria and elsewhere in Africa His publications and presentations offer the international scholarly community important critical insights into a range of religious activities life ways and ideas originating in Africans and the African Diaspora In spite of the diversity in the thoughts and opinions expressed and equally of the range of disciplines and topics contained in the book one can say that the contributors have developed a shared concern about the role of African Indigenous Religious Traditions in the processes of development and the context within which it development had or is taking place The book guides us to a deep understanding and appreciation of how Africans in their varied situations grapple with existential problems through philosophical ruminations complex ritual processes cultivated memory and organized coping strategies **Mapping Systematic Theology in Africa** Ernst M Conradie,Charl E Fredericks,2004-08-01 The emergence of an indigenous African theology especially since the 1960s is well documented A wealth of literature has been published in the context of African theology especially over the last two or three decades This indexed bibliography contains a number of publications in and for the African context specifically relevant to the fields of systematic theology and ethics **African Traditional Religion in the Modern World, 2d ed.** Douglas E. Thomas,2015-05-21 African traditional religion encompasses a variety of non dogmatic spiritual practices followed by millions around the world Some scholars argue it is related to the Nubian religion of Egypt s Dynastic Period In an expanded second edition this book examines the nature of African traditional religion and describes common attributes of various cultural belief systems with an emphasis on West Africa Principal elements studied include sacrifice salvation and culture modes of revelation divination and African resilience in the face of invasion and colonization The religious experiences of black people throughout the Americas are also covered The author finds the cosmology symbolism and rituals of the Yoruba culture to be the fundamental bases of African traditional religion and draws similarities between the oral and written literature of West Africans and that of New World practitioners The influence of Islam and Christianity is also discussed Instructors considering this book for use in a course may request an examination copy here Theology and Identity Kwame Bediako,2011-06-01 Kwame Bediako examines the question of Christian identity in the context of the Greco Roman culture of the early Roman Empire He then addresses the modern African predicament of quests for identity and integration Theology and Identity was one of the finalists for the 1992 HarperCollins Religious Book Award **RELIGIOUS SYNCRETISM IN AFRICAN CHRISTIANITY** ISAAH OLUWAJEMIRIYE OLATOYAN,2024-04-18 Christianity among the African people whether on the soil of Africa or in diaspora is perceived and defined differently by different people For instance among African traditional religious people and Muslims Christianity is a foreign religion that must not be allowed to thrive in Africa To

several Africans who profess Jesus Christianity is good but it is not adequate and effective enough to handle all human needs Still among some Western Christians and missionaries African Christianity is superficial and lacks total commitment to Christ Of course the Africans are a cultural people with profound religious inclinations Their traditional religion ATR has tremendously shaped their worldviews and socioeconomic and political activities Consequently when traditional Africans are converted to Christianity they do not break ties with their traditional religions completely The examination of relevant biblical texts on syncretism however reveals that God condemns the worship of many gods and places a curse on anyone who offers sacrifices to carved images and bows to them in worship Therefore this work investigates the root cause of religious syncretism among African people In the attempt to find answers to why the average African Christian finds it difficult if not impossible to abandon his her traditional religious belief systems completely to embrace Christianity the author concludes that unless the issues surrounding the African forgotten and secret covenants are exposed and decisively addressed in the light of biblical teaching syncretism will continue to be a stigma on the fabric of African Christianity Therefore to overcome the threats of syncretism in African Christianity there is a need to establish a sound theological and missiological framework that can address the problems associated with the African worldviews and belief systems This task must be carried out under the searchlight of Scriptures

Charismatic Renewal and Pentecostalism Isidore Iwejuo Nkwocha, 2021-09-30 The Holy Spirit is a sine qua non in the life of the church and in all Christian life and experience The importance of the experiential and praxis oriented theology of the Charismatic Renewal and Pentecostalism cannot be overemphasized in the realization of the potentials of a Spirit animated church In fact Charismatic Renewal in the Nigerian Catholic Church is an essential part of the changing face of the Catholic Church in Nigeria This work is therefore using Charismatic and Pentecostal theology and praxes to argue for the renewal of the Nigerian Catholic Church It avers that the praxis oriented and experiential theology of the Charismatics and Pentecostals which characterize them as Spirit filled groups and churches are enabling the Nigerian Catholic Church to realize the potentials of a Spirit driven church It upholds that the Nigeria Catholic Church through the Nigerian Catholic Charismatic Renewal which is an indispensable part of the changing face of the Catholic Church in Nigeria has wittingly or unwittingly begun the renewal of her pneumatological ecclesiological and liturgical doctrines and practices in accord with those of a truly Spirit animated church

Roots of Haiti's Vodou-Christian Faith R. Murray Thomas, 2014-06-19 This book traces the development of Haiti's combined Vodou Christian religion from 1500 to the present and explains how this combination of distinct faiths coalesces in a coherent belief system What are the historical reasons for the popularity of two contradictory worldviews in Haiti Vodou and Catholicism What elements of Vodou and Catholicism are alike and how are they drastically different What is the connection between indigenous African religions and Vodou And why has religion in Haiti evidenced an accelerating rate of change in recent decades *Roots of Haiti's Vodou-Christian Faith* African and Catholic Origins answers these questions and more in its examination of the highly unique and often

misunderstood religious practices in Haiti Reaching back half a millennium to the European conquest of the island of Haiti author R Murray Thomas inspects the origins and nature of these two competing and complementary religious traditions the traditional African faiths brought by the slaves who were imported to Haiti to labor in the fields and mines and the Catholicism promoted often violently by Spanish and French colonial authorities Following a historical background the subsequent chapters focus on the organization of Haitian religion spirits creation belief causes and ceremonies maxims and tales symbols and sacred objects sacred sites religious societies and the future of the Vodou Christian faith

Theology and Social Issues in Africa Francis Anekwe Oborji, 2020-11-22 The Volume speaks to us from the heart and engages the socio political concerns in the Nigerian context through the lens of a theological approach The author reflects historically the numerous consequences of the amalgamation of the ethnic groups of different orientations in Nigeria into one socio political structure of the colonizers interests This sociopolitical structure raises several questions than answers it pretends to offer the indigenous people From a Nigerian point of view the articles in this volume critically challenge the unjust formation of any nationhood in the Africa context It points out how the sustenance of an unjust nation formation betrays the creed on which such a nation is established Truth conquers all is the spirit with which this Volume is written It is the truth that will set a nation like Nigeria free from the spirit of confusion and unperceived religio socio political syncretism The awareness emanating from this volume suggests liberating steps from the unsuspecting colonial interests and the sustained feigned relationship with the colonizers which militate against the socio political and economic growth and theological orthodoxy of such a growing nation

The Sacred Books of China ,1976 A Praying People James Spencer, Ashish Varma, 2023-06-16 Dwight L Moody s ministry was fueled by prayer The church today would do well to return to prayer It is not something we do having already decided what we are going to do anyway Instead it must become our first thought Prayer must become as natural as breathing A Praying People is inspired by Dwight L Moody and offers insights regarding a range of topics associated with prayer Our hope is that as you read these essays you will not only gain new knowledge about prayer but that you will be motivated to engage in the practice of prayer so that like Dwight Moody you see prayer as a vital part of your Christian life and ministry

Doing Theology at the Grassroots Kalilombe, Patrick A., 2018-05-22 Patrick Kalilombe has been distinguished for more than twenty years as a pioneering theologian and ecclesiologist Circumstances have determined that much of his best work has been produced and published outside Malawi and through such diversity of outlets that it is very difficult for students and others to have access to his work as a whole Hence we are convinced that his collection of his essays will have a very wide appeal both in Malawi and beyond The chapters are quite varied in their origins and subjects but the reader will not take long to notice recurrent themes the author's missionary vocation the critical role of the grassroots in theological construction the integrity of Chewa traditional beliefs the combination of Catholic commitment with radical openness to all religious and cultural traditions Throughout the book is a series of photographs which lead progressively through the events of Bishop Kalilombe's 25th Jubilee celebration at Mua in 1997

Reinventing Christianity John Parratt, 1995 Follownig an introduction that charts the growth and development of African theology Parratt examines the differing theological assumptions and methodologies throughout the continent He also shows how Africans are rethinking the central dogmas of the Christian faith Scripture God christology the church and eschatology and evaluates Africa's political theologies giving special attention to theological approaches to African socialism and to South African black theology
