The background of the cover is a photograph of a beach. On the left side, there is a vertical strip showing the blue and white waves of the ocean. The rest of the image shows a wide, sandy beach. A series of footprints are visible, starting from the foreground and leading diagonally towards the horizon. The sky is a pale, hazy blue.

Nelson,2009-02-17 Over a century ago psychologists who were fascinated with religion began to study and write about it Theologians and religious practitioners have responded to this literature producing a fascinating dialogue that deals with our fundamental und standings about the human person and our place in the world This book provides an introduction to the important conversations that have developed out of these interchanges The dialogue between psychology and religion is difficult to study for a number of reasons First it requires knowledge of both psychology and religion People with a background in psychology often lack a solid understanding of the religious traditions they wish to study and theologians may not be up to date on the latest developments in psychology Second it requires conceptual tools to organize the material and understand the basic problems involved in any attempt to connect the science of psychology with religion These concepts can be found in many places for instance in the writings of philosophers of science but they are complex and often hard to follow for those without a proper theological and philosophical ba ground Finally authors who write on the topic come to the study of psychology and religion from a variety of academic and personal backgrounds This makes for wonderful diversity in conversations but it makes understanding and mastery of the material quite difficult **Choosing Our Religion** Elizabeth Drescher,2016-03-01 To the dismay of religious leaders study after study has shown a steady decline in affiliation and identification with traditional religions in America By 2014 more than twenty percent of adults identified as unaffiliated up more than seven percent just since 2007 Even more startling more than thirty percent of those under the age of thirty now identify as Nones answering none when queried about their religious affiliation Is America losing its religion Or as more and more Americans choose different spiritual paths are they changing what it means to be religious in the United States today In *Choosing Our Religion* Elizabeth Drescher explores the diverse complex spiritual lives of Nones across generations and across categories of self identification such as Spiritual But Not Religious Atheist Agnostic Humanist just Spiritual and more Drawing on more than one hundred interviews conducted across the United States Drescher opens a window into the lives of a broad cross section of Nones diverse with respect to age gender race sexual orientation and prior religious background She allows Nones to speak eloquently for themselves illuminating the processes by which they became None the sources of information and inspiration that enrich their spiritual lives the practices they find spiritually meaningful how prayer functions in spiritual lives not centered on doctrinal belief how morals and values are shaped outside of institutional religions and how

Nones approach the spiritual development of their own children These compelling stories are deeply revealing about how religion is changing in America both for Nones and for the religiously affiliated family friends and neighbors with whom their lives remain intertwined *Biblical Theology of prayer in the Old Testament* Albert J. Coetsee, Francois P.

Viljoen, 2023-08-31 Prayer is a major topic within Christian theology The biblical text has various references to various recorded and reported prayers In fact references to prayer are found within the rich diversity of the various books corpora and genres of Scripture As can be expected much has been written about prayer in the biblical text However a comprehensive Biblical Theology dealing with the concept of prayer in Scripture has not been published before and this book intends to fill this gap assuming that such an approach can provide a valuable contribution to the theological discourse on prayer and related concepts This book aims to investigate prayer and its related elements including worship praise thanksgiving adoration petition intercession lament and confession in the Old Testament on a book by book or corpus by corpus basis The investigation follows a Biblical Theological approach reading the Old Testament on a book by book basis in its final form to uncover the Old Testament s overarching theology of prayer understanding the parts in relation to the whole By doing this the discrete nuances of the prayers of the different Old Testament books and corpora can be uncovered letting the books and corpora speak for themselves In addition the advantage of this approach is that it provides findings that can benefit the modern Christian community and contribute to the practice of Reformed theology in Africa This book is of significant value to scholars It will inspire scholars to think about prayer and use the Bible as the major prayer handbook in their spiritual lives **Pseudoscience and Extraordinary Claims of the Paranormal** Jonathan C. Juliette J. Day, 2024-03-15 How do we hear our prayers In the words of philosopher Gemma Corradi Fiumara there can be no saying without hearing no speaking which is not an integral part of listening no speech which is not somehow received Therefore hearing should be considered an essential aspect of participation in Christian worship However although almost all studies of Christian worship attend to the words spoken and sung almost none consider how worshippers hear in the liturgical event In *Hearing Our Prayers* Juliette Day draws upon insights from liturgical studies philosophy psychology acoustical science and architectural studies to investigate how acts of audition occur in Christian worship The book discusses the different listening strategies worshippers use for speech chant and music as well as for silence and noise why paying attention in church can be so difficult and how what we hear is affected by the buildings in which worship takes place Day concludes by identifying liturgical listening as a particular type of ritual participation and emphasizes that liturgical listening is foundational for the way in which we pray and think about God the church and the world
