James, Morpeth, by W.F. Hook [and others]. Morpeth St. James, Walter Farquhar Hook, 1847 *An Order of Worship, with Forms of Prayer for Divine Service* Benjamin Bartis Comegys, 1885 Seven Services for Public Worship with Special Prayers and Thanksgivings American Unitarian Association, 1900 **Prayers in Stone** Paul Eli Ivey, 1999 The classical revival style of architecture made famous by the 1893 World s Columbian Exposition in Chicago left its mark on one of the most sustained classical building movements in American architectural history the Christian Science church building movement By 1920 every major American city and many smaller towns contained an example of this architecture financed by the followers of Mary Baker Eddy the church s founder These buildings represented a new burgeoning American institution that appealed to business people and to young men and women working to succeed Characterized by middle class congregations that in the early part of the century were over 75 percent women Christian Science suggested radical civic

reform solutions based on an idealistic and pragmatic individualism. It attracted criticism from traditional churches and from the medical establishment due to its rapid growth and to its reinstatement of primitive Christianity's lost elements of physical healing and moral regeneration. Prayers in Stone spins out the close connections between Christian Science church architecture and its social context. This architecture served as a focal point for debates over the possibilities for a new twentieth century urban architecture that proponents believed would positively shape the behavior of citizens. Thus these buildings played a critical role in discussions concerning religious and secular architecture as major elements of religious and social reform. Drawing on a wide range of documentary evidence including material from the archives of the Mother Church in Boston, Paul Ivey uses Christian Science architecture to explore the social implications of architectural styles and new building technologies to illuminate class based notions of civic reform and beautification and to investigate the use of architecture to bring about religious and social change. In addition, the book explores complex gender issues including early attempts to define a professional space for women as Christian Science practitioners. Lavishly illustrated, Prayers in Stone focuses on four major city arenas of Christian Science building: Boston, Chicago, New York, and the San Francisco Bay area, to demonstrate the vital intersection of architecture and religion at the so-called margins of American society.

American Methodist Worship Karen B. Westerfield Tucker, 2011-04-27 American Methodist Worship is the most comprehensive history of worship among John Wesley's various American spiritual descendants that has ever been written. It will be a foundational book for anyone who wishes to understand how American Methodists have worshipped. Sacramental Life: This groundbreaking study will help to reshape the way that we think about early American Methodist worship and how it connects to more recent trends. The Journal of Religion Karen Westerfield Tucker's exhaustive examination of the history of American Methodist worship may indeed launch a new genre in liturgical historiography: denominational liturgical histories. The genius of this contribution is its comprehensiveness in examining for the first time the worship life of an American ecclesiological tradition.

Doxology: Praying the Scriptures Jeremiah Williamson, 2014-10 The Prayers of the People is the place where liturgy is most likely to lose energy. Of course that should not be the case; it is a great privilege to offer our prayers to God as a congregation. But the Book of Common Prayer provides a limited number of forms, and although it also provides guidelines for composition of original prayers, many parishes have prayed just a couple of the forms over and over again for 35 years. Williamson began to compose these new prayers for his parish, posting them on a blog as they were used each Sunday. He discovered in the process that the congregational urge to move beyond the Prayer Book's six forms is a common one. These new prayers bring freshness to corporate prayer, carrying the lectionary-based themes of the hymns, lessons, and sermon into the service, creating a fresh and focused worship experience. Lectionary-based prayers in a call and response format. Written in language that is fresh and well-crafted.
