 First published in 1988 this study explains how certain genres created by Classical poets were adapted and sometimes  
 transformed by the poets of the modern world beginning with the Tudor poets rediscovery of the Classical heritage Most of  
 the long lived poetic genres are discussed from familiar examples like the hymn elegy and eulogy to less familiar topics such  
 as the recusatio refusal to write certain kinds of poems or formal structures such as priamel By combining criticism with  
 literary history the author explores the degree to which certain poets were consciously imitating models and demonstrates  
 how various generic forms reflect the literary concerns of individual poets as well as the general concerns of their age The  
 poets discussed range over the whole of Graeco Roman antiquity and in English from Wyatt to Yeats and Auden A detailed  
 and fascinating title this study will appeal to teachers and students of both English and Classical literature The
