

**PRAYERS OF THE EUCHARIST
EARLY AND REFORMED
R. C. D. Jasper and G. J. Cuming**

From the Jewish Blessing for Food, through the early Christian liturgies, the liturgies of the middle ages, the Reformation, to the Prayer Book of 1662 – this is a new presentation of 36 texts that show the development of the liturgy of the eucharist.

The editors' aim has been to indicate how each rite handles the four main eucharistic actions: taking, giving thanks, breaking, giving. Successive versions of a rite are indicated wherever possible, and the general structure of the liturgy from which each text is taken is outlined.

Every effort has been made to utilize the oldest and most reliable sources, including some which have come to light in the last ten years. The translations are based on the best available texts of the originals, and provide a clear modern English version for the student. (Prayers originally composed in English are modernised in spelling, but otherwise unaltered.)

Introductions to each text help the student to situate the prayer in its historical and liturgical context. Bibliographies indicate where the original is to be found, and easily accessible commentaries.

The Eucharistic Prayer Barry Hudock,2010-10-01 We somehow think that during the eucharistic prayer at Mass we are expected to be quiet prayerful and attentive if we can be with our children or other neighbors in the pews distracting us In this inviting book Barry Hudock shows us that the eucharistic prayer is indeed the most dynamic and explosive moment of Christian worship in fact of Christian life Hudock takes us back to the beginnings of formal eucharistic worship in the early church then forward to Vatican II and beyond unpacking and exploring the eucharistic prayers old and new in words and concepts accessible to all of us He also offers us as the fruit of the journey a set of points for a eucharistic prayer spirituality to prepare us for the explosion into life that is the whole purpose of our being

From the Lord and "The Best Reformed Churches" Bryan D. Spinks,2004-05-05

The Eucharistic Liturgy Jameson K. Pallikunnil,2017-03-20 The Malankara Mar Thoma Syrian Church exists as a hybrid church by blending the Eastern liturgical elements of the Oriental Orthodox Church and the evangelical ideas of the Protestant Reformation of the sixteenth century This Church is a bridging church connecting Protestantism and Oriental Orthodoxy The reformation in the Malankara Church 1836 instigated a new impetus for this church in constructing an ecclesial identity and pattern of mission A major missiological imperative employed by CMS missionaries in India was solely centered on the scripture Against this popular understanding the Mar Thoma Church

through its reformation process showed that liturgy can also be an imperative for mission The translation and revision of the Eucharistic liturgy is the basic visible expression of reformation in the Malankara Church Hence this book explicitly places how the Eucharistic liturgy of the Mar Thoma Church is observed as the foundation for mission in its course of growth In order to accomplish this objective the writer has examined the historical evolution and the developmental process of the Eucharistic liturgy of the church which is a revised version of the liturgy of St James In a nutshell this study is an appraisal of various missiological themes reflected in the Eucharistic liturgy of the church This study throws ample light on how the Mar Thoma Church integrated liturgy and evangelism in its course of development The writer systematically illustrates how the church made a serious effort to bring missional themes employed in the liturgy into the practical realm by its ancillary organizations convention gatherings and sociocharitable works This volume asserts that an emphasis on Eucharist centred ecclesiology guides and motivates the church to enliven a mission oriented life which is crucial for accomplishing a relevant mission

A Companion to Anglican Eucharistic Theology Brian Douglas, 2011-11-25 Anglican eucharistic theology varies between the different philosophical assumptions of realism and nominalism Whereas realism links the signs of the Eucharist with what they signify in a real way nominalism sees these signs as reminders only of past and completed transaction This book begins by discussing the multifomity of the philosophical assumptions underlying Anglican eucharistic theology and goes on to present extensive case study material which exemplify these different assumptions from the Reformation to the Nineteenth century By examining the multiformity of philosophical assumptions this book avoids the hermeneutic idealism of particular church parties and looks instead at the Anglican eucharistic tradition in a more critical manner

Understanding the Jewish Roots of Christianity Gerald McDermott, 2021-03-17 How Jewish is Christianity The question of how Jesus followers relate to Judaism has been a matter of

debate since Jesus first sparred with the Pharisees The controversy has not abated taking many forms over the centuries In the decades following the Holocaust scholars and theologians reconsidered the Jewish origins and character of Christianity finding points of continuity Understanding the Jewish Roots of Christianity advances this discussion by freshly reassessing the issues Did Jesus intend to form a new religion Did Paul abrogate the Jewish law Does the New Testament condemn Judaism How and when did Christianity split from Judaism How should Jewish believers in Jesus relate to a largely gentile church What meaning do the Jewish origins of Christianity have for theology and practice today In this volume a variety of leading scholars and theologians explore the relationship of Judaism and Christianity through biblical historical theological and ecclesiological angles This cutting edge scholarship will enrich readers understanding of this centuries old debate

Theology of the Open Table Eojin Lee, 2016-11-23 Theology of the Open Table begins with research on the traditional eucharistic understanding in the Presbyterian Church of Korea PCK through cultural and social analyses In developing his argument Eojin Lee has especially researched the biblical theological and early church sources in relation to his subject the Eucharist and the open table This book seeks to provide sound theological justification for the open table with an introduction of practices of the open table in the Uniting Church in Australia UCA *Prayer and the Priesthood of Christ* Graham Redding, 2005-03-29 In this book Graham Redding provides a detailed account of prayer in the Reformed tradition and a critical examination of its present place in the Reformed Churches From its inception the Christian church thought of worship and prayer in trinitarian terms At the heart of this trinitarian concept lay the doctrine of the priesthood of Christ which in its liturgical expression presented Christ not merely as the object of prayer but also as its mediator prayers were directed to the Father through Christ The author traces the idea of the priesthood of Christ and its effects on Christian worship and prayer from its origins with the earliest Christians and through the Arian and Apollinarian debates He then focuses on the Reformed tradition and the influences of John Calvin John Knox John Craig John McLeod Campbell William Milligan Theodore Beza William Perkins federal theology and the Westminster tradition and through to the present day This is an important history of an important doctrine showing in a remarkable way how the doctrinal struggles within the church have been reflected in the worshipping life of the church and how they continue to be reflected today Redding concludes with a number of key affirmations for a Reformed understanding of prayer and a critique of certain modern tendencies and practices in the church

seeks to broaden the engagement beyond the British context to consider the wider global context *Gender Differences and the Making of Liturgical History* Teresa Berger, 2020-03-26 Mapping uncharted territory in the study of liturgy's past this book offers a history to contemporary questions around gender and liturgical life Teresa Berger looks at liturgy's past through the lens of gender history understood as attending not only to the historically prominent binary of men and women but to all gender identities including inter-sexed persons ascetic virgins eunuchs and priestly men Demonstrating what a gender attentive inquiry is able to achieve Berger explores both traditional fundamentals such as liturgical space and eucharistic practice and also new ways of studying the past for example by asking about the developing link between liturgical presiding and priestly masculinity Drawing on historical case studies and focusing particularly on the early centuries of Christian worship this book ultimately aims at the present by lifting a veil on liturgy's past to allow for a richly diverse notion of gender differences as these continue to shape liturgical life **A Companion to the Book of Common Prayer** Gerald Bray, 2024-02-29 The Book of Common Prayer stands as one of the greatest achievements of the English Reformation Although increasingly replaced by more modern forms it remains the foundation of Anglican worship and a succinct expression of Anglican doctrine as received by its sixteenth and seventeenth century authors It is therefore a text to be treasured and used both for its historical insight into the Church of England's theological origins and for its continued value as an enriching liturgical resource In this Companion Gerald Bray provides a practical guide to the 1662 text and its underlying doctrinal basis Outlining its development from the first version of the prayer book in 1549 through the Elizabethan settlement and the upheaval of the civil war and protectorate he shows that many of the liturgical controversies and debates we see today are nothing new With the inclusion of a summary of the history of the text and an extensive bibliography for further reading A Companion to the Book of Common Prayer will unlock this seminal text for a fresh generation of worshippers *Primary Readings on the Eucharist* Thomas Fisch, 2004 This collection of essays covers fundamental aspects of the Eucharist from the Biblical notion of memorial to the issues of intercommunion and the relationship between the Eucharist and the Church The chapters give evidence of increasing theological convergence in the thinking of contemporary Eastern and Western theologians on the Eucharist This consensus is the result of developments in Biblical studies our increasing knowledge of the Fathers and the findings of liturgical studies and the historical study of the Church's liturgy in the East and the West Back cover *The Christian Liturgical Papyri: An Introduction* Ágnes T. Mihálykó, 2019-06-18 Liturgical papyri are prime witnesses to the history of liturgy and the religious and theological currents in late antique Egypt These items from the third to ninth century preserve hundreds of Greek and Coptic hymns prayers and acclamations most otherwise unknown but some still recited by the Coptic Church Agnes T Mihalyko offers the first extensive introduction to the liturgical papyri facilitating the reader's access to them with a detailed inventory of edited manuscripts and an extensive discussion of their date and provenance She also examines liturgical papyri as the first preserved liturgical
