Pre Reformation Germany:

Pre-Reformation Germany Gerald Strauss, 1972 *Religion and Culture in Germany (1400-1800)* Robert Scribner, 2021-10-18 The late Bob Scribner was one of the most original and provocative historians of the German Reformation His truly pioneering spirit comes to light in this collection of his most recent essays In the years before his death Scribner explored the role of the senses in late medieval devotional culture and wondered how the Reformation changed sensual attitudes Further essays examine the nature of popular culture and the way the Reformation was institutionalised considering Anabaptist ideals of the community of goods literacy and heterodoxy and the dynamics of power as they unfold in a case of witchcraft The final section of the book consists of three iconoclastic essays which together form a sustained assault on the argument first advanced by Max Weber that the Reformation created a rational modern religion Scribner shows that far from being rationalist and anti magical Protestants had their own brand of magic These fine essays are certain to spark off debate not only among historians of the Reformation but also among art historians and anyone interested in the nature of culture

The Common Lawyers of Pre-Reformation England E. W. Ives, 1983-04-07 The English common lawyers wielded their greatest influence in the late fifteenth and early sixteenth centuries with names like Fortescue Littleton and More In these years they were more than the only organized lay profession in the infancy of statute they more than anyone shaped and changed the law they were the managerial elite of the country they were the single most dynamic group in society This book is a study of their formative impact on the whole of English life Part I examines the legal profession its position recruitment training and career structure taking as an example the career of Thomas Kebell a serjeant at law from Leicestershire for whom documentation is unusually complete Part II analyses legal practice how the lawyer acquired and kept clients his relationship with them the pattern of employment the nature of practice as revealed in the year books and the attitudes and approaches of the lawyer to the law The third part considers the impact of the lawyers on substantive law and legal organization

The European Reformation, 1500-1610 Alastair Armstrong, 2002 A study of the European Reformation from 1500 to 1610 It is designed to fulfil the AS and A Level specifications in place from September 2000 The AS section deals with narrative and explanation of the topic The A2 section reflects the different demands of the higher level examination

Challenges to Authority Peter Elmer, 2000-01-01 The evolution and reception of the Renaissance was mediated by developments in various other spheres of early modern life and culture Foremost among these were the religious changes initiated by the Protestant Reformation which are discussed in the opening chapters of this book Religious and cultural developments in Germany are contrasted with sixteenth century Spain and are further explored through the study of the picaresque novel *Lazarillo de Tormes* Subsequent chapters explore the Renaissance fascination with witchcraft and demonology in both learned discourse Pico's *Strix* and popular drama *The Witch of Edmonton* The volume concludes with a study of one of the most influential and provocative writers of the sixteenth century Michel de Montaigne whose *Essays*

provide stimulating material for a reassessment of the impact of the Renaissance on contemporary thought *The German Reformation* Robert W. Scribner, 1986 In recent years new approaches to the history of the Reformation of the Church have radically altered our understanding of that event within its broadest social and cultural context In this concise study R W Scribner provides a synthesis of the main research with special emphasis on the German Reformation and presents his own interpretation of the period The second edition of this successful text now includes a new Introduction a supplementary chapter and a supplementary bibliography by C Scott Dixon The European Reformation Euan Cameron, 2012-03-01 Since its first appearance in 1991 The European Reformation has offered a clear integrated and coherent analysis and explanation of how Christianity in Western and Central Europe from Iceland to Hungary from the Baltic to the Pyrenees splintered into separate Protestant and Catholic identities and movements Catholic Christianity at the end of the Middle Ages was not at all a uniformly decadent or corrupt institution it showed clear signs of cultural vigour and inventiveness However it was vulnerable to a particular kind of criticism if ever its claims to mediate the grace of God to believers were challenged Martin Luther proposed a radically new insight into how God forgives human sin In this new theological vision rituals did not purify people priests did not need to be set apart from the ordinary community the church needed no longer to be an international body For a critical Reformation moment this idea caught fire in the spiritual political and community life of much of Europe Lay people seized hold of the instruments of spiritual authority and transformed religion into something simpler more local more rooted in their own community So were born the many cultures liturgies musical traditions and prayer lives of the countries of Protestant Europe This new edition embraces and responds to developments in scholarship over the past twenty years Substantially re written and updated with both a thorough revision of the text and fully updated references and bibliography it nevertheless preserves the distinctive features of the original including its clearly thought out integration of theological ideas and political cultures helping to bridge the gap between theological and social history and the use of helpful charts and tables that made the original so easy to use **Handbook of European History 1400-1600: Late Middle Ages, Renaissance and Reformation** Thomas Brady, Oberman, James D. Tracy, 2018-11-12 The Handbook of European History 1400 1600 brings together the best scholarship into an array of topical chapters that present current knowledge and thinking in ways useful to the specialist and accessible to students and to the educated non specialist Forty one leading scholars in this field of history present the state of knowledge about the grand themes main controversies and fruitful directions for research of European history in this era Volume 1 Structures and Assertions described the people lands religions and political structures which define the setting for this historical period Volume 2 Visions Programs Outcomes covers the early stages of the process by which newly established confessional structures began to work their way among the populace The History of the Protestant Reformation ... Martin John Spalding, 1870 The Politics of the Reformation in Germany Thomas A. Brady, 1997 In The Politics of the Reformation in Germany Thomas A Brady Jr constructs a new

understanding of the Protestant Reformation through the biography of a little known figure the urban politician Jacob Sturm 1489 1553 of Strasbourg At once a man of the late Middle Ages the Reformation and the Renaissance Sturm s political career cut through every one of the levels of the complex political life of Germany in this era the city the province the region the Protestant movement and the Holy Roman Empire and examination of it reveals why Protestantism which began as a radical movement quickly allied with local and regional government to become a conservative force Professor Brady places the Reformation in the context of the political pluralism of the late Middle Ages and in so doing provides an interpretation that does not see it as the beginning of Germany s movement towards national statehood Rather it gives full play to the popular movements the largest and richest in Europe before the French Revolution and to local interests and traditions This perspective also allows for a reassessment of the impact of the Reformation on the political culture and government of the Holy Roman Empire and its potential for altering the future course of German history

designed to assist learning The European World 1500 1800 features expert surveys of key topics written by an international group of historians suggestions for seminar discussion and further reading extracts from primary sources and generous illustrations including maps a glossary of key terms and concepts a full index of persons places and subjects and a much enhanced companion website offering colour images direct access to primary materials and interactive features which highlight key events and locations discussed in the volume The European World 1500 1800 will be essential reading for all students embarking on the discovery of the early modern period For support with the early modern historiographical debates see the partnering volume Interpreting Early Modern Europe Edited by C Scott Dixon and Beat Kumin <https://www.routledge.com/Interpreting+Early+Modern+Europe/Dixon/Kumin/p/book/9781138799011> Medicine and the Reformation Andrew Cunningham, Ole Peter Grell, 2013-05-13 The tremendous changes in the role and significance of religion during Reformation and the Catholic Counter Reformation affected all of society Yet there have been few attempts to view medicine and the ideas underpinning it within the context of the period and see what changes it underwent Medicine and the Reformation charts how both popular and official religion affected orthodox medicine as well as more popular healers Illustrating the central part played by medicine in Lutheran teachings the Calvinistic rationalization of disease and the Catholic responses the contributors offer new perspectives on the relation of religion and medicine in the early modern period It will be of interest to social historians as well as specialists in the history of medicine *After Calvin* Richard Alfred Muller, 2003 In this sequel to Muller's *The Unaccommodated Calvin* OUP 2000 the author carries his approach forward with the goal of overcoming a series of 19th and 20th century theological frameworks characteristic of much of the scholarship on Reformed orthodoxy or Calvinism after Calvin **The Senses and the English Reformation** Matthew Milner, 2016-03-03 It is a commonly held belief that medieval Catholics were focussed on the bells and whistles of religious practices the smoke images sights and sounds that dazzled pre modern churchgoers Protestantism in contrast has been cast as Catholicism's austere intellectual and less sensual rival sibling With its white washed walls lack of incense and often music Protestantism worship emphasised preaching and scripture making the new religion a drab and disengaged sensual experience In order to challenge such entrenched assumptions this book examines Tudor views on the senses to create a new lens through which to explore the English Reformation Divided into two sections the book begins with an examination of pre Reformation beliefs and practices establishing intellectual views on the senses in fifteenth century England and situating them within their contemporary philosophical and cultural tensions Having established the parameters for the role of sense before the Reformation the second half of the book mirrors these concerns in the post 1520 world looking at how and to what degree the relationship between religious practices and sensation changed as a result of the Reformation By taking this long term binary approach the study is able to tackle fundamental questions regarding the role of the senses in late medieval and early modern English Christianity By looking at what English men and women thought about sight hearing smell taste and touch the stereotype

that Protestantism was not sensual and that Catholicism was overly sensualised is wholly undermined Through this examination of how worship was transformed in its textual and liturgical forms the book illustrates how English religion sought to reflect changing ideas surrounding the senses and their place in religious life Worship had to be sensible and following how reformers and their opponents built liturgy around experience of the sacred through the physical allows us to tease out the tensions and pressures which shaped religious reform **The Unintended Reformation** Brad S.

Gregory,2015-11-16 In a work as much about the present as the past Gregory identifies the unintended consequences of the Reformation for the modern condition a hyperpluralism of beliefs intellectual disagreements that splinter into fractals of specialized discourse the absence of a substantive common good and the triumph of capitalism s driver consumerism

Christ's Churches Purely Reformed Philip Benedict,2008-10-01 This sweeping and eminently readable book is the first synthetic history of Calvinism in almost fifty years It tells the story of the Reformed tradition from its birth in the cities of Switzerland to the unraveling of orthodoxy amid the new intellectual currents of the seventeenth century As befits a pan European movement Benedict s canvas stretches from the British Isles to Eastern Europe The course and causes of Calvinism s remarkable expansion the inner workings of the diverse national churches and the theological debates that shaped Reformed doctrine all receive ample attention The English Reformation is situated within the history of continental Protestantism in a way that reveals the international significance of English developments A fresh examination of Calvinist worship piety and discipline permits an up to date assessment of the classic theories linking Calvinism to capitalism and democracy Benedict not only paints a vivid picture of the greatest early spokesmen of the cause Huldrych Zwingli and John Calvin but also restores many lesser known figures to their rightful place Ambitious in conception attentive to detail this book offers a model of how to think about the history and significance of religious change across the long Reformation era **A**

Reader's Guide to Contemporary Literature William Swan Sonnenschein,1896 **Renaissance Monks** Franz Posset,2022-09-30 This volume deals with the intellectual world of progressive Benedictine and Cistercian monks who vicariously represent humanists in cloisters Klosterhumanismus Bibelhumanismus in German speaking lands Conradus Leontorius 1460 1511 Maulbronn Benedictus Chelidonium c 1460 1521 Nuremberg and Vienna Bolfgangus Marius 1469 1544 Aldersbach in Bavaria Henricus Urbanus c 1470 c 1539 Georgenthal in the region of Gotha and Erfurt Vitus Bild Acropolitanus 1481 1529 Augsburg Nikolaus Ellenbog 1481 1543 of Ottobeuren For the first time in historical theological research new insights are provided into the world of the social group called Monastic Humanists who emerged next to the better known Civic Humanists within the diverse international phenomenon of Renaissance humanism
