Today's EAPs serve employees affected by a great number of stressors related to the rapidly changing environment of today's workplaces as well as stressors related to the balancing of work and family issues. *Emerging Trends for EAPs in the 21st Century* stresses the important advantages to be found in working from a strengths and solution oriented case management approach rather than an assessment and referral model and of considering individuals challenged rather than troubled. Thus you will learn that trauma and abuse, illness and struggle may be injurious but they also may be sources of challenge and opportunity and you will see that every individual, couple, family, group, organization, and community has strengths that can be fortified to help those who need it. *Emerging Trends for EAPs in the 21st Century* will show you the impact of today's changing workforce demography, the need for workplace sponsored services to assist caregivers and older workers, sophisticated intervention skills that organizations are using to help manage crisis change and evolution, today's new ways of providing help to your employees and bring you stimulating discussions and examinations of child/elder dependent care services, prevention interventions for older workers, work/family programs, critical incident interventions, management consultation, health and wellness promotion. *Emerging Trends for EAPs in the 21st Century* offers insightful commentary, pragmatic information, and predictions for the future of employee assistance programs as we move into the 21st century.
