**ENGLISH LITERATURE ADVANCING THROUGH HISTORY 4 - The Eighteenth Century** Petru Golban, 2022-12-28 It appears that literary work possesses eternal temporal validity due to its autonomous aesthetic value whereas criticism provides points of view having temporary and transitory significance Despite such claims the vector of methodology in our series of books dealing with the history of English literature relies on Viktor Shklovsky T S Eliot Mikhail Bakhtin and especially Yuri Tynyanov whose main reasoning would be that literature is a system of dominant central and peripheral marginalized elements to us tradition centre versus innovation margin engaged in a battle for supremacy demarginalization and the right to form a new literary system and the development or historical advancement of literature is the substitution of systems Roman Jakobson and French structuralism on the whole later Linda Hutcheon with her system and constant and Bran Nicol with the dominant to say nothing about Itamar Even Zohar and his theory of polysystem to a certain extent Julia Kristeva and even Homi Bhabha as well as our humble contribution we would like to believe maintain Tynyanov's line of thinking and concepts alive which have developed and emerged nowadays more like a kind of neo

formalism Focusing on literary practice applying critical theory and emerging from within our own teaching experience the books in the present series are theoretical and surveyistic like a monograph whereas their more practical and text oriented aspect should appeal as a student handbook for didactic purposes in which certain literary works belonging to various writers of different trends movements and periods are analysed and compared with regard to their source form thematic arrangements ideas motifs character representation strategies intertextual perspectives structural or narrative techniques and other aspects
